The Quint: of Digital

Essential Leader News Media

The future is digital, paving the way for The Quint to emerge as a market leader in its domain. Leadership is defined as the combination of foresight and conviction to deliver things ahead of the curve and lead others into the future. This pioneering spirit in a Leader is fuelled by the drive to perform better and faster than the peers. Agility and Innovation, especially in the absence of the crutches of legacy, are hallmarks of a great Leader. The Leader inevitably rises above the stereotypes. But the most important aspects that define a Leader are Integrity and Values, and The Quint's journalism is a result of this certitude.

We're living in the age of innovation and connection – the driving force for The Quint. One must understand the requirements of the age and deliver as per the demands of the hour. As the first all-digital player in the sector, The Quint has made a niche since its foundation and has been a pacesetter to many. The motive has always been to deliver better with each passing day and stand true to our principles and goals.

Who we really are?

The world is now navigating a new reality, developing different modes of communication and collaboration that minimizes physical human interaction in the light of the COVID-19 pandemic. A paradigm shift in work and communication has been witnessed in the form of digitization – a shift that we at Quint Digital Media Limited had visualized years ago, pioneering it in the field of journalism.

Light After Dusk: How The Quint Epitomizes True Journalism

We are often regarded as the leading story tellers of digital India, and we accredit this phenomenal achievement to everyone at The Quint, who firmly believe in enlivening stories that matter. Stories that are representational, perpetually questioning the status quo and in all capacity, shaking the equilibrium by generating arguments and conversations of utmost relevance!

If you wish to witness the journalism of innovation, the future of digital news media, diversity and variety in representation, then The Quint is your essential leader!

Quint Digital Media Limited is a company listed on the BSE Limited. Under the headship of Mr. Raghav Bahl and Ms. Ritu Kapur, we are successfully operating three platforms: **The Quint, Quint Hindi, and Quint FIT**, with our corporate office located in Noida, Uttar Pradesh (India). When we started in 2015, our singular motive was to lead the digital revolution and take journalism to new heights! As the process is on, we feel far more solid of our vision and in the next couple of years, when digital media becomes the norm, we are sure to lead the league. As digital is the future, the future is The Quint. Our work is a reflective extension of our news experts, story tellers, editors, producers, designers, analysts, reporters and our tech and product team.

What sets The Quint: Essential Leader apart?

- The leadership of foresightedness and conviction
- Leading the path to the future
- Fairer, better, and faster than others
- Distorting stereotypes, unmasking the real
- Innovation as the driving notion, agility as the driving process
- Independent of legacy; towards a unique hallmark
- Integrity and values as the founding principles
- Staying true to journalism

As much as we cannot deny the impact of the pandemic on the country and elsewhere, we are equally aware of the fact that people now are reaching out like never before...

This year, our audience footprint has increased impeccably and created a stir online! As of March 2021, we recorded a footprint of:

299 Mn Page Views

558 Mn Video Views

471 Mn Unique Viewers

Unprecedented 6.9 Bn Impressions

The Quint:Esse

'Unprecedented' is the keyword!

Like every year, The Quint has yet again proven its mettle and emerged unmatched in the digital world. The essential leader is not born out of vanity but out of agility, determination, and of course the courage to make it different, and go big!

They say the lack of legacy is treading on an uncertain path. And we cannot disagree. What we also believe here at The Quint is that the absence of a legacy also means to not fall back upon safe zones but to navigate and lead the path to glory. And that is where The Quint leads.

Performance

A Great Length

As the digital India's future, The Quint has achieved remarkable heights of unprecedented digital journalism. By attending to news worthy events and stories in various nooks and corners of the country, the 'essential leader' has reiterated the fact that operational excellence needs more than just the physical infrastructure. Having state of the art technology to be incorporated in a company's operations is not enough, what you need is unmatched leadership, a driven workforce, and a shared vision. At The Quint, we walk an extra mile to make this happen!

Quint Digital Media Limited had acquired these digital properties- The Quint, Quint Hindi, Quint Fit on July 1, 2020. In its nine-month period of operational endeavours, QDML posted a decent financial and operational performance.

Our three broad platforms have enabled us to look ahead and aim at unparalleled quality. With subscribers growing at an extraordinary pace, we feel content and act upon the responsibility to deliver more, to deliver better!

Quint Platforms of Digital Change

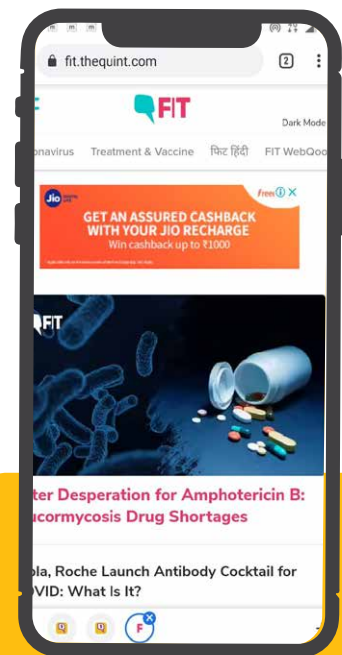

Our three platforms are:

The Quint: Essential leader, telling stories that no one else is willing to tell. With a team of exceptional professionals, we are all set to be the future of the digital news world. Our prime objective is to bring to you unbiased and relevant stories with precision in reporting and accuracy in facts. A news platform that engages the reader through videos, op-eds, infographics, animations and documentaries.

Quint Hindi: Making conscious news consumption accessible by offering a platform for viewers who prefer the Hindi language. Quint Hindi connects people from all over the country by designing content, which is viewer-friendly and authentic. It is remarkable to witness a rapid increase in subscribers on this platform on a regular basis.

Quint Fit: For the millennials and people of all ages, attention-worthy news and stories, opinions, conversations spanning a wide range of issues concerning physical, mental and digital health; parenting; taboos; the status quo; new developments and much more. A dynamic platform for the dynamic news consumer!

Digitising Along the Way!

The Quint Flagship Properties

1. **ME The Change:** This is an exclusive space for young voices, primarily women. Lauding an exemplary few who have taken the world by a storm and in turn inspiring millions of viewers. The story about Mariam Rauf's initiative concerning body safety created a buzz online!
 2. **BOL - Love Your Bhasha:** A unique way to safeguard one's language by creating an interconnected yarn of language, culture, and identity. Engaging the news consumer into a conscious zone of preserving the language by representing voices that matter.
 3. **The HOPE series:** The HOPE series is a video IP profiling individual stories of strength, perseverance and innovation that stand out in the current times.
 4. **Dreamers, Disruptors:** This series is among the most sought after, portrayal of real life stories that turn the whole table around. From dreaming an idea to disrupting the challenges and creating a niche in the society, this series is all about enlivening one's dreams. Stories of Santosh Iyer of Mercedes-Benz India, and Karan Bedi, CEO, MX Player were among viewers' favourites.
- The digital platforms of the company cover multiple categories such as governance, politics, economy, business, entertainment, sports, technology, education, lifestyle, health and fitness, gender issues, and more. The content is both engaging and accessible. The use of language as per the expectation of the target audience is a huge add on.

The Quint's Key Programmes

1. **WebQoof:** A fact-check initiative like none in the domain, countering fake news like a pro! IFCN-certified and seeks to offer stories that are 100% accurate. By inviting queries from viewers on WhatsApp, it is all the more dynamic!
2. **Quint NEON:** This segment is primarily for the average millennial. News worthy, buzz worthy; be it Bollywood, social issues, gender-focused narratives, or a satire column like What do you Meme, this is the go-to space for millennials.
3. **MyReport:** MyReport is The Quint's Citizen Journalist initiative, which aims at democratising news. It is a network of citizens built over the years who work with our My Report team to Highlight issues that are important to them - whether it is the state of quarantine centres, live reports from cyclones or the life threatening pot-holes of Mumbai. The MyReport team trains citizens in shooting and bringing a narrative to their issues.
4. **GNI Initiative:** The Good News Initiative keeps everyone moving, despite stories that hit viewers hard. The recent coverage of a Delhi policeman's plasma donation to a pregnant woman received widespread applause. These are stories that restore our faith in humanity.

The Quint's Special Regular Features

1. **Raghav's Take:** The Editor-In-Chief of The Quint, Raghav Bahl's exclusive segment on matters of national interest is widely acclaimed. The essential leader behind the Quint:Essential, Bahl's incisive op-eds, like the recent take on what can salvage India's vaccination campaign are integral to journalism.
2. **Yeh Jo India Hai Na:** Like no other news platform in the country, this segment humanises India, its leaders and people, critically looks into crises and puts forward tangible prospects of resolution on various matters like dealing with coronavirus by Rohit Khanna.
3. **Kaafi Real:** A cartoon series that presents the real-world scenario, with a touch of irony. Mirroring the real impact of issues that barely get attention or are cast into oblivion, this series keeps it real – for instance, the Kumbh Mela versus COVID debate.
4. **Breaking Views:** Sanjay Pugalia, Editorial Director, takes on an impeccable role of carefully breaking down various issues from across the globe. His recent video on explaining the 'US Govt's Antitrust Lawsuit Against Google, Its Impact' was quite a show!
5. **Janab, Aise Kaise?** This section creates quirky videos with outstanding humour and holds an issue right at its neck, saying what needs to be said: plain, simple and no-nonsense.
6. **Sexolve:** This segment addresses the concern of adolescents and parents on issues concerning sex and love. A step towards normalising everyday woes.
7. **What Do You Meme?** By using satire and tackling issues with an extended sense of humour, this is where the young progressive take on issues comes alive. It is among the most preferred segments among youngsters.
8. **How to ____? How to** is a new series explaining how to do common, trending tasks via innovative videos.
9. **Urdunama (Podcast):** A remarkably designed series of podcasts, Urdunama takes the Urdu language to people, transcending the barriers of communication and most importantly connecting these expressions to situations around us, for instance, the 'Khair' for everyone conversation regarding COVID times.
10. **The BIG story (Podcast):** Stories that others do not bring to you. Stories like the Black Fungus infection in COVID survivors were explained in length in this segment, taking listeners into a world where they believe and rationalise the stories they are consuming.
11. **Explainers:** The myths and facts of news

and stories need specific attention and this is where we do that. Concerns like whether the AP Variant of COVID-19 is dangerous etc. have created curiosity in the minds of viewers and a breaking down these complex ideas and news items is what makes the essential leader indispensable!

12. **FAQs:** Carefully designed segments where various queries of the viewers are compiled together and addressed. Questions that are valid, questions that are unanswered – the essential leader ensures the required attention to these!
13. **Documentaries:** Well-structured, research-based, wonderfully laid down documentaries that capture both the attention and the curiosity of the viewer. The documentaries here at The Quint are real, captivating, and game changing!

Coverage that ensured a voice to the needy & issues of relevance:

'Muslims Get Corona': How Stigma Burnt Down A Bengal Locality- reporting the communal clash post Tablighi Jamaat, affecting lives, settlement, and livelihood

"Lockdown Diary: Can Priya and Her Daughters Walk 475 km to Kanpur?"- capturing the plight of a migrant worker and the cost of sustenance during the pandemic

Documentary | Mission Hate – Finding 'Jihad' in Interfaith Love- laying bare the politics and human cost of the 'Love Jihad' campaign in India

'No Money for Food, Rent': How COVID Upset a Blind Couple's Life During this pandemic- navigating through the pandemic when survival is bleak

"Migrant Harassed, Forced to Leave Kulfi Cart at Delhi-Noida Border"- capturing the helplessness of Satvir when police forced him to leave his livelihood behind

The ones accountable do not remain unquestioned!

The Quint's time and again operational efforts of questioning the ones in the system, the ones accountable has garnered incredible responses from viewers and above all, we have been able to build upon their trust. Viewers today are conscious of what they are watching, of what they are receiving, and this leads to a healthy media environment.

When The Quint published- **"India Set an Example for the World on How NOT To Handle COVID-19"**, it gathered the attention of critics. It is essential to let the truth surface and to not cover what needs to be said. Be it the Kumbh Mela fiasco or the election rallies across the country, be it about laying down a plan of action for the health care sector of the country or about our migrant workers and farmers, who contribute immensely to the country's economy- The Quint:Essential Leader has always been in the forefront with these stories.

Steadfast – No

In the midst of COVID-19

According to WHO, as of 21 May 2021, there have been 165,158,285 confirmed cases of COVID-19 globally, including 3,425,017 deaths. As of 20 May 2021, as per WHO's report, a total of 1,448,242,899 vaccine doses have been administered. Globally, India is only second with 26,031,991 cases and 291,331 deaths whereas United States is leading the count with 32,706,250 cases and 582,346 deaths. While some have been at the receiving end of this disaster, some have been at the forefront fighting battles for others and themselves.

Some say it is the second-darkest hour and that things shall pass and not recur. While others feel that we should sit tight as far as possible and not reach for the sky. However, the hope in the hour of darkness can be seen in the fact that India stands at second in terms of vaccination count with 187.89 million while USA is leading the count with 279.4 million. Among top 5 countries excluding China, are UK with 58.49 million, Brazil with 55.96 million, and Germany with 43.55 million.

Ministry of Health and Family Welfare, Government of India reports COVID-19 Situation in India as on 22 May 2021 is:

- 2,30,70,365 (87.76%) patients are discharged
- 29,23,400 (11.12%) cases are active
- 29,55,25 (1.12%) is the death toll
- 2,62,89,290 is the total number of cases
- 19,33,72,819 is the count for total doses of vaccination

Whatever the case, COVID-19 has taught us two things in particular. First, the importance and urgency of investing and planning for what lay ahead even if it is unforeseen. Second, the indispensability of communication!

Of course, the first lesson here is for the state, the policy makers, the ones who hold organisational power and the likes. Whereas the second lesson is for us, the media!

Since the last year, people have surfed the internet like never before and reached out to each other with hope!

Our journey so far has been a roller-coaster ride. We have had to cover stories that haunted us, left us elated, we brought to our readers incisive analysis and sharp opinions that needed some courage – and we never paused to tell these strong stories from across India. A moment of idleness meant taking few steps behind and as the 'essential leader', we couldn't afford that.

Matter What

The Quint has been reporting news that many others have not; has been voicing opinions that are bold and probably come with a cost. Whatever it may be, it is always standing firm on its principles!

What vouches for the Quint: Essential Leader's walking the extra mile?

Uninterrupted Communication: The Quint has been in the forefront since its inception and more so since the pandemic

hit the world. It is constantly reporting what has been happening across the country and the world.

Figures and Facts: The 'essential leader' does not report numbers only. It also brings to you, the stories behind these numbers and how these numbers impact the lives of people. The segment- "India's COVID Deaths: Those Who Have Died Aren't Merely Numbers" is a fine example

Inclusivity: An inevitable aspect of democracy, inclusivity is among The Quint's inherent guiding principles. And coverage such as 'Muslims Get Corona': How Stigma Burnt Down A Bengal Locality speaks volume about the same

First-hand reporting: Stories like "Songs of Protest: How Music Became the Voice of Farmers' Movement" and 'My Life in Kashmir' – A Year Since the Abrogation of Article 370 prove that the essential leader is the one that leads first-hand

Leading the Digital Path: With videos, relevant snapshots, documentaries, podcasts and much more, The Quint has time and again proven its digital niche and has led the entire transition from the physical to the digital in a short span of time

When others played safe, we stood unguarded. When others looked for numbers, we looked for stories. When others hesitated to question the system, we made sure that the ones accountable didn't go unquestioned.

It takes a lot to be there, and even a lot more to remain there and to do your job with unwavering integrity. We believe our integrity is not to deliver what is expected by a handful but to deliver what must reach the masses, what must reach every nook and corner of the country. After all, The Quint: Essential Leader is made of everything solid!

Message from Founder Director

Dear Shareholders,

Year 2020 brought the digital future closer to us at an accelerated pace across all aspects of our lives. The pandemic has not only fundamentally transformed the way we live, work, travel, shop, and consume the content but it has also cast its grim shadow on our mental and physical health, preparedness of the country's healthcare infrastructure, governance structures, and our economy. We, at The Quint, have successfully met the dual challenges of adapting our ways of working to this "new" normal and continuing to fulfil our duty to bring the best reportage / content even in the face of such perilous situation.

The Indian Media & Entertainment sector had to respond to this sea change and slump in revenues by reinventing itself in many ways. The pandemic's impact saw the sector reduce its size to what it was in 2017 – a drop of 24% to ₹1.38 trillion in 2020 as per the report issued by FICCI and EY. However, from your Company's viewpoint, an encouraging aspect in the

sector's performance, was the continued growth of the Digital Media being one of the two segments which witnessed positive movement. As per industry estimates, the Digital Media segment is expected to continue to expand at a CAGR of 22% for the next three years and reach a size of ₹425 billion by 2023, taking its share in the sectoral pie from 17% in 2020 to 19% in 2023.

Indians are amongst the top countries in terms of average daily time spent on their phones at 4.6 hours per person per day. The per capita online video consumption of Indian viewers was the highest across the world and increased by 30% in 2020 to 10.9 hours per week. In 2020, 468 million Indian viewers watched online videos as against 406 million in 2019. This number is projected to swell to 650 million by 2023. The Quint was launched as a Digital Media platform nearly six years ago to capitalize on these growth trends for digital content. We are well placed as a business to piggyback on this consumption boom to grow consistently because of our editorial and content capabilities, quality team, and financial strength.

The Quint trumping even the big names from the traditional media. A staggering number of views and impressions were generated by our three properties, The Quint, Quint Hindi, and FIT, across a diversified portfolio of websites and social media platforms totalling to 471 million unique viewers and 6.9 billion impressions.

The post-millennials are the true digital natives who have grown up with the internet and technology ubiquitous today. This generation has a major influence on the trends prevailing in Digital Media, which then percolate to other target demographics who are older than them. They are open to engaging with any topic if that information is presented to them in a format that speaks to them. Your Company has been very successful in making them a part of the dialogue by innovating news and views presentation with a multi-format approach covering video, text, infographics, and experiential with a mobile-first policy. It has unleashed the Digital News Media segment by innovating and presenting unique platforms for curated user-generated content, internationally acclaimed fact checks, branded content and more across all categories of news. All this has been done without any compromise on the fundamental journalistic principles and integrity, resulting in the consolidated social media reach and engagement numbers for The Quint trumping even the big names from the traditional media. A staggering number of views and impressions were generated by our three properties, The Quint, Quint Hindi, and FIT, across a diversified portfolio of websites and social media platforms totalling to 471 million unique viewers and 6.9 billion impressions.

The success of your Company as infotainment content creators for its target audience is heavily dependent on the quality of its staff. Thus, to align with the audience profile and the medium, we have ensured that the average age of the team at The Quint, including reporting and editorial, is lower than the norms in the sector. We are also extremely proud to be the torchbearers for gender equity in the media sector and can boast of a women leadership across most departments. This sensitivity to the gender issues is also reflected on the content side where we are one of the a few media entities in India that have a dedicated reporter on gender-based issues and therefore our higher share of women viewership is no coincident.

During this pandemic, our reporters and analysts have covered and published many pathbreaking and explosive stories at great personal risk. As an organization, we have done our best to create an environment that encourages innovation, social orientation, and adherence to strict codes of conduct by our teams, apart from ensuring support to them in all forms for delivering news and content that breaks the clutter.

We have not only set benchmarks by becoming the sole pureplay listed Digital News Media player, but also through our strong financial performance during the reported financial year. In the first 9-months period from July 2020, post-acquisition of The Quint's business, your Company has reported total revenues of ₹1,837 lakhs, a net margin of 9.3%, and a consistent QoQ revenue growth. With an equity base of ₹3,106 lakhs, zero debt, and cash & cash equivalents of ₹2,786 lakhs, our strong balance sheet and diversified revenue base in terms of industries, promises the necessary financial wherewithal to fuel expansion going forward. Your Company is profitable despite the absence of legacy content which is luxuriously available to the traditional media companies for repurposing.

Our endeavour, for the near future, is to consolidate the performance of our three properties in the next year and maintain focus on profitable growth. With the tailwinds of the Digital Media segment's projected growth, we are confident of staying true to these objectives. On behalf of the Board of Directors and the management, we thank you for your belief in us and wish you a safe year ahead.

Sincerely,

Board of Directors

Mr. Raghav Bahl
Non-Executive Director

Raghav Bahl is a serial entrepreneur and investor, with several successful projects and accolades. After his departure from the Network18 Group, Raghav co-founded The Quint with his wife, Ritu Kapur. Raghav had also seeded moneycontrol.com, bookmyshow.com, firstpost.com, yatra.com, among others. Raghav started making television news capsules while still reading Economics at St. Stephen's College, Delhi University. After an MBA at FMS Delhi, Raghav's career followed an obvious trajectory, beginning as a Management Consultant at AF Ferguson followed by a stint at Amex. But his inherent interest in news made him quit the cushy comforts of international banking and he went on to set up Network18, among India's top media houses. Raghav has also managed long and successful partnerships with some of the world's leading media brands like CNBC, Viacom, BBC, Star TV, A&E, Time Warner and Forbes. As the audience is increasingly shifting out of television and into digital media, Raghav is now focused on scaling a cutting-edge digital media business, straddling content, tech and distribution.

Ritu Kapur is the Co-founder and CEO of The Quint and Board Member at Oxford University's prestigious Reuters Institute of Journalism and on the board of Future News Worldwide (an initiative in partnership with the British Council). She is also a Board Member of the World Editors Forum at WAN-IFRA (World Association of Newspapers and News Publishers). An activist of sorts in her college days at St. Stephen's College, Delhi University, Ritu's interest in media for social change was whetted when she did her Master's in Film and TV production at the Mass Communication Research Centre (MCRC) of Jamia University in New Delhi. Ritu joined Network18 Group as a founder member in 1992. She had started with producing THE INDIA SHOW, the country's first local production on a satellite channel, Star plus. She headed Programming at the History Channel, was Features' Editor at CNN IBN, where she launched the popular CJ (Citizen Journalist) Show, among others. She had also conceived and produced Bhanwar, a docu-drama based on real-life incidents. Her shows ran to popularity and critical acclaim, winning several awards. At The Quint, Ritu is focused on scaling the innovative digital media venture, offering a combination of high-value digital journalism and storytelling.

Management Discussion and Analysis

Management Discussion and Analysis

Forward Looking Statements

Statements in the Management Discussion and Analysis, which describe the Company's objectives, projections, estimates, expectations, maybe 'forward-looking statements' within the meaning of applicable securities laws and regulations. Actual results could differ materially from those expressed or implied. Important factors that could influence the Company's operations include economic developments within the country, demand and supply conditions in the industry, input prices, changes in government regulations, tax laws and other factors such as litigation.

Company Overview

The Company is presently operating in the Media & Entertainment (M&E) business through its presence in the Digital News Media segment with three leading digital platforms viz.: "www.thequint.com", "www.hindi.thequint.com" and "www.fit.thequint.com". These platforms were acquired through a takeover of the digital content business of Quintillion Media Private Limited effective from July 1, 2020.

The digital platforms of the Company disseminate news, opinions, and current affairs content on India and the world covering multiple categories such as governance, politics, economy, business, entertainment, sports, technology, education, lifestyle, health and fitness, gender issues, and more. The content is purposively oriented towards digital engagement and speaks in the language of its target audience. To address varied interests and viewing habits of the audience, various formats including live news, blogs, hot wires, photos, videos, articles, quint lab (interactive content, special projects, statistics/infographics, etc.), explainers, audio podcasts, fact checks and more.

Each of the digital platforms also has their own social media channels on all major platforms including Facebook, Instagram, YouTube, Twitter, and more. The social media channels have a substantial number of followers or subscribers and a sizeable part of the total engagement and views generated by the Company are on social media. The platforms are also available as apps on Android and Apple ecosystems.

Not only is Quint among the pure-play digital news media pioneers in India, but it is also the only listed player. It stands out among its peers for the highest standard of its journalism, content innovations, and its ability to engage the millennial and zoomers.

Industry Structure and Developments

India is one of the fastest-growing countries for the Media & Entertainment (M&E) industry. The sector is a significant contributor to the country's GDP, its economic growth, and

employment. Based on the medium of content delivery, the industry is divided into the following segments classified as traditional and new age:

Traditional Media: Segments based on the decreasing order of their size included in traditional media are Television, Print, Films, Events, Out of Home Media, Radio, and Music.

New Age Media: Segments based on the decreasing order of their size included in new age media are Digital Media, Online Gaming, and Animation & VFX.

The revenue model of the M&E sector broadly consists of income from advertising and subscription. Innovative monetization strategies for content and newer distribution channels have resulted in not only faster growth but increasing the reach of the Indian M&E sector in terms of width and depth.

Today, the content on all these segments includes in varying degrees video, audio, text, and experiences, making the M&E industry players medium agnostic in terms of content creation. The trend is towards an increased focus on video primarily at the expense of text.

The wider social transformation seen in 2020 due to the COVID pandemic has also accelerated the shift towards digitization and digital media that was gathering traction on account of increased broadband penetration, the proliferation of cheaper smart devices, and a young population in India. The news media segment has also seen this transition to digital and has seen the traditional news media players, both TV and Print, try to establish a digital presence through websites, apps, e-papers, video channels, social media channels, syndication/partnerships and more. In addition to the traditional media, the segment has a strong presence of pure-play digital news media players, multiple news agencies, and a host of news aggregator sites that curate news and current affairs content.

Media and Entertainment Industry in 2020

With the exception of 2020 when the COVID pandemic affected it severely, the Indian M&E industry has consistently seen both the traditional and the new-age media segments grow in the recent past. This trend is markedly different from the Western countries where traditional media segments, especially print, have seen a decline. While the country's economic growth is a strong factor, it is because of the large population, the cultural, economic, and linguistic diversity, and the relatively lower penetration of the digital ecosystem that all segments of the M&E industry have seen growth in India.

In 2020, the Indian M&E industry's total size shrunk by 24% from ₹1.82 trillion to ₹1.38 trillion. Only two segments showed growth, Digital Media and Online Gaming, and the Music segment was flat. All the remaining segments witnessed a de-growth due to

the pandemic. For the M&E sector, the advertising revenue fell by 25% and the subscription revenue by 20%. For the Digital Media segment, the advertising revenues were flat in 2020, however, the subscription revenues saw a growth of 49% as the digital content consumption saw a boost due to the lockdown. A similar swell was seen in online news viewership, which is expected to have seen unique visitors jump from 394 million in the previous year to 454 million in 2020.

Relevant Trends in Digital News Media:

1. Increase in per capita consumption of online news: 52% of respondents in an online survey confirmed their online news consumption was more or much more than before post the pandemic. Industry estimates put the permanent loss of circulation for the print segment due to a break in habits when newspapers were not delivered due to lockdown or stoppage of subscription due to financial situation at 5 – 10%. This audience has largely shifted to digital news media.
2. Regional content rules: Regional language online newspapers bagged 9 spots out of the 10 in the list of top online newspapers.
3. Increasing use of mobile in accessing digital news: 12% growth in downloads of online news and magazine apps in 2020 to 305 million.
4. Pay-wall/ subscription model: Many leading print publications implemented a pay-wall or subscription model for their digital platforms. This also resulted in a rise in their paid subscribers for the online portals.
5. Micro-sites/ independent platforms drive higher subscription revenues: Micro-sites or separate platforms launched for their well-liked content categories by online magazines led to an elevation in subscriptions from India's top 10 cities, the key markets.
6. The Indian government notified the Information Technology (Intermediary Guidelines and Digital Media Ethics Codes) Rules, 2021 (Intermediary Rules) on February 25, 2021, that will cover media intermediaries including digital news platforms, OTT platforms, and content providers. The major parts of the rules cover due diligence and grievance redressal mechanism to be deployed by intermediaries, which includes Digital News Media, and the code of ethics and procedure for Digital News Media (and others). The Digital News Media was not regulated in the rules notified previously in 2011. This is likely to increase the compliance costs and risks of regulatory interference and overreach for the Digital News Media segment.

Indian Economy

The Indian economy in FY2020-21 was heavily impacted by the COVID-19 pandemic and the lockdown implemented to prevent it. As against a growth of 4% in FY19-20, the real GDP was expected to decline by 8% in FY2020-21, as per the Indian government, due to this effect. The nominal GDP was expected to drop by 3.8%. The sectoral growth trends showed estimates for Agriculture at 3% (vs 4.3% in FY2019-20), Manufacturing by -8.4%, Electricity at 1.8%, Trade, Hotel & Transport by -18% and Mining & quarrying output by -9.2%. The quarterly trend showed the sharpest fall was in the first quarter of the financial year at 24.4% drop in GDP that narrowed to 7.5% decline in the second quarter and finally turning around at 0.4% expansion in the third quarter. The annual inflation number shot up in FY2020-21 to 6.16% from 4.77% in FY2019-20, as per the Central Statistical Organization of the Government of India.

Outlook for Media and Entertainment Industry

The Government took some steps to restart the economy as the lockdowns were gradually lifted. It offered supply-side stimulus, announced structural reforms in agriculture and labour laws, further opened the economy by increasing FDI limits in some sectors, and declared schemes such as Production Linked Incentive for attracting manufacturing investments to the country in specific sectors. These actions in combination with the low base effect and gradual normalization of the situation were expected to result in the economy seeing a big boost in GDP growth in FY2021-22 to low double digits, in the 11% - 14% range. However, a surge in COVID-19 cases in the second wave resulted in lockdowns in many states resulting in an impact on estimates, which were scaled down by 1 to 5% by most institutions, e.g., Moody's reduced its forecast from 13.7% to 9.3% and S&P revised it to 9.8% from 11%.

(Source: FICCI EY's March 2021 Report "Playing by new rules" on the Media & Entertainment Industry)

The Media & Entertainment industry is expected to grow by 25% to ₹1.73 trillion in 2021 as the broader economy gets back on the growth path. The forecast for the next three years showed a 17% CAGR and the sector achieving a size of ₹2.23 trillion by 2023. While TV is expected to remain the largest segment, right up to 2023, the Digital Media segment would maintain its second position that it bagged in 2020 as per the forecast. The distribution of relative shares of the top 5 segments in the industry and the movement from 2019 to 2023 is given below.

Revenue Share of Segments – Media & Entertainment Industry

While the advertising revenues are expected to recover handsomely from the drop in 2020, the subscription revenues are expected to stay at a higher level than advertising through to 2023. The share of subscription revenues in 2021 and 2023 was estimated to be 50.8% and 50.7% respectively. The share

of Digital Media in the advertising pie was expected to remain at the same level as 2020 in 2021, i.e., 32%.

Opportunities and Threats

Opportunities

The expansion of the Digital Media segment within the larger M&E sector offers many opportunities for the Company to exploit and grow. Some of these potential opportunities that have been successfully addressed by global and national peers are as follows:

Regionalisation: In terms of engagement and reach, some of the top digital platforms in India are those catering to the content needs of regional markets and, in most cases, in local languages. This trend has also manifested strongly in other M&E segments such as Print, TV, and Radio for a few years now.

Content Niches: The launch of independent platforms for catering to content niches addressing specific needs of the target demographic is a clear opportunity for growth available to a digital media player. Having a separate platform independent of the mother platform helps with brand recall and a targeted audience for advertisers. Some of such potential niches which have seen successful ventures but not yet exploited

by the Company include Technology, Education, Real Estate & Interiors, Lifestyle, Literature, Women-oriented and more. A similar approach is feasible even for various content formats – with separate platforms for videos, vlogs, podcast, etc.

Monetization: Innovations in monetization by leveraging existing and creating new content is another expansion strategy that is increasingly used by digital media players. The key advantages of the digital medium over others are the possibility of micro-level targeting and the amount of data on viewers habits that are available for advertisers. This opens many avenues to generate sales for the digital players such as e-commerce and affiliate marketing, digital tools providing detailed user data, 360° marketing opportunities, micro-level subscriptions, etc.

Threats

The Company faces all the threats that are intrinsic to any M&E business such as piracy, intellectual property violations, overbearing regulatory environment, dearth of quality content, and competition. These threats may affect the Company's growth and hence, appropriate countermeasures are adopted by it as and when any of them develop into a serious problem. The Company monitors the threats and takes timely measures to address them.

The financials of the Company have undergone a major transformation after the acquisition of the digital business of Quintillion Media Private Limited was completed and became effective from July 1, 2020. As compared to the previous financial year, the revenue from operations went up by 50.9%. The total expenses came down 46.1% resulting in the loss before tax and exceptional items reducing to ₹1.36 crores only, a fall of 95.1%. The Company incurred a cost of ₹57.36 lakhs towards the above-mentioned acquisition, which is recognized as an exceptional item. The net loss after tax also diminished by 93.2% to ₹1.86 crores from ₹27.49 crores in FY2019-20.

Segment-wise OR Product-wise Performance

The digital content business in the first 9 months post-acquisition turned the Company's financial performance around by delivering profit at both operating and net levels. The revenue from operations grew at a cumulative average QoQ rate of 11.9% from Q2 to Q4 of FY2020-21. The total revenue from operations was ₹18.03 crores in the nine months from July 1, 2020. The Operating EBITDA margin and the EBIT margin for the business in the same nine months period were 27.3% and 15.9% respectively. The total profit after tax for this period was

₹1.7 crores with a margin of 9.3%.

The revenues from operations for the digital business were well-diversified with the top 8 industries contributing 83% of the total with Telecommunication & Mobile (21%), Infrastructure (13%), and Entertainment (11%) sectors contributing the highest in decreasing order. In terms of the revenue models, Programmatic & Partner revenues share was 25% in the total pie during the reported financial year. The Company's three platforms also have a distributed viewership reach and engagement performance across various mediums – own websites, own apps, and all social media channels such as YouTube, Instagram, Facebook, etc. Overall statistics of page views, video views, unique viewers, and impressions across all these channels during the nine-month period were totalling 299 million, 558 million, 471 million, and 6.9 billion, respectively. The subscriber base of the platforms across all the social media channels was 14.8 million.

Key Financial Ratios

The details of changes in the key financial ratios as compared to previous year are stated below:

Ratio	Ref Note	Unit	FY2019-20	FY2020-21	% Change
Inventory Turnover	1	Days	NA	NA	-
Debtors Turnover	2	Days	110	190	73.1%
Current Ratio	3	Times	11.8	2.1	-82.3%
Interest Coverage Ratio	4	Times	-	-	98.3%
Debt: Equity	5	Times	0.1	0.7	540.8%
EBITDA Margin	6	%	-165.9%	9.6%	> 25%
Operating Profit margin	7	%	-200.6%	-5.3%	> 25%
Net Profit Margin	8	%	-179.1%	-8.5%	> 25%
Return on Net worth	9	%	-78.9%	-6.0%	> 25%

Notes:

- (1) Inventory Turnover: The Company does not maintain any inventory and accordingly, there is no inventory turnover ratio.
- (2) Debtors Turnover Ratio: The trade receivables for the Company increased at a faster rate as compared with operating revenue. The reason for this variation is a change in the business mix of the Company with the acquisition of the digital content business. The COVID-19 pandemic also increased stress on receivables due to liquidity constraints in the market.
- (3) Current ratio: The current ratio substantially increased in the last year because of the preferential allotment of CCPS and warrants undertaken by the company which has resulted in higher cash and current assets being available with the company without any corresponding increase in the current liabilities. However, with the acquisition consideration of the digital content business being paid in cash, the Company has taken on debt on the books which has a higher short-term component. This has increased the current liabilities and in turn, reduced the Current Ratio.
- (4) Interest Coverage Ratio: The Interest coverage Ratio cannot be calculated for both years as the company had a negative position for EBITDA during both periods.
- (5) Debt Equity Ratio: The increase in debt to fund the acquisition has negatively impacted the Debt Equity Ratio, primarily.
- (6) Earnings before interest Tax Depreciation and Amortization (EBITDA) Margin: The EBITDA Margin has turned into a profit from a loss last year, as the Company's acquired digital platforms have generated much higher operating revenues and a positive EBITDA in FY2020-21.
- (7) Operating Profit Margin: The operating loss (and hence the negative Operating Profit Margin) for the Company was much lower than last year as the Company's acquired digital platforms have generated much higher operating revenues and a positive EBITDA in FY2020-21.
- (8) Net Profit Margin: The Net Loss (and hence the negative Net Profit Margin) has substantially decreased during the year, as the Company's acquired digital platforms have

generated much higher operating revenues and a positive EBITDA in FY2020-21.

- (9) Return on Net Worth: The Net Loss and hence the negative Return on Net Worth has substantially decreased during the year, as the Company's acquired digital platforms have generated much higher operating revenues and a positive EBITDA in FY2020-21.

Risks & Concerns

While risks are integral to any business activity, the Company has put in place a good framework for risk management covering identification, assessment, and mitigation. Like every organization, its business is also impacted by several factors, some of which are external and others internal. Some of the major risks affecting the Company, classified into external and internal, are given below.

External Risks

a) Macro Risks

The key macro-economic risks that have a significant influence on the performance of the Company are the rate of growth in the country's Gross Domestic Product and the phases of the business cycle, which have an outsized impact, relative to other macro factors, on the advertising revenue generated by it. Other factors such as the employment and inflation rates and the level of government debt have a more indirect impact. Non-economic macro risks relate to the political and regulatory regime stability, which may create an adverse environment for the Company to operate in and affect its business.

b) Security Risks

The Company's assets and human resources are at risk of damage/ injury from natural disasters, terrorist attacks, theft, arson, and attacks during social unrest. Such scenarios affecting society at a large scale also impact the Company's business indirectly by creating an adverse business climate leading to lower advertising spends.

c) Competitive Risks

The digital news media sector has low entry barriers and already has many players including traditional news media and pure-play digital entities. The readership and engagement can be heavily influenced by the spending on content and digital marketing. This may attract more competitors to enter with greenfield investments or brownfield invests through large investments in existing competition. Greater the competition, more fragmented will be the viewership and hence, advertising spends.

Internal Risks

d) Legal Risks

Any non-compliance with existing laws and regulations in the normal course of business may result in litigation or fines affecting the Company's financial performance and reputation. As the nature of the Company's business involves making news content, it may attract litigation from individuals or organizations negatively affected by such reporting.

e) HR Risks

The quality of content creation and reach/ engagement of our content is highly dependent upon the quality of journalists, production technicians, digital marketers, and other staff. Intake and retention of the talent is a key challenge to prevent disruptions in creating and disseminating quality content effectively.

f) Financial Risks

The Company may be affected by case/s of financial fraud or misappropriation of funds by an employee or a supplier affecting its financial performance. Any significant mismatch in timing of costs or investments vis-à-vis collections may result in it availing short-term loans and incurring interest expenses, and there may also be provisions or write-offs for revenue not collected.

g) Technology Risks

Given that the Company is a Digital News Media organization, its content production and dissemination processes are heavily dependent upon the use of IT systems. Any large scale and prolonged disruption in such systems can adversely affect its business. This includes risk from hackers, server overload due to overcapacity traffic or DDOS attacks, and other systemic vulnerabilities.

High level approaches to manage risks and mitigate the impact of an adverse occurrence are as follows:

7. Portfolio Diversification: Diversification of revenue streams, products, suppliers, etc. and building redundancy for people/ systems/ other resources in a cost-effective manner creates a natural hedge in case of any disruptions.
8. Strong Internal Controls: For ensuring all compliances and preventing frauds and misappropriation.
9. Buy Insurance: Purchase of adequate insurance cover to protect against Security and Legal risks.
10. Investments in People, Systems, and Marketing: To ensure the content creation with required quality and innovation levels continues uninterrupted and can compete for the viewer's attention successfully in the market, the Company

believes in investing in the best people, systems, and marketing campaigns.

11. **Resilient Organization Culture:** The right management structure, processes, and people to create an organisational culture that can attract and retain top performers while enabling them to be at their productive best.
12. **Investments in Technology:** To ensure the Company's systems and platforms are available 24/7 by preventing any disruption.

Internal Control Systems and their Adequacy

The Company has the essential internal control systems in place for each of its area of operations. The control systems have been designed in line with the industry best practices to ensure the protection of its assets, to minimize risks, to maintain the accuracy of reporting, and to encourage strict compliance with laid down procedures, policies, and regulations, without compromising on the focus to achieve business objectives. The controls are monitored, reviewed, and appropriately revised through a well-defined mechanism involving the Audit Committee, along with the senior management. The nature,

frequency, and coverage of these internal audits to review the controls and processes are appropriate for the size and nature of the Company's business. The Audit Committee also oversees the risk management framework and financial reporting of the Company.

Human Resource Development

The Company prides itself on the quality of the team that it has built over the years. Its people are the fundamental differentiator on which it has built its successful digital news media platform. The Company's leadership with support from the Human Resource function has nurtured a positive culture of performance, collaboration, and transparency that promotes individual growth and team bonding. This has helped the Company to not only retain its key people but also hire the best talent from the industry. In tune with the target segment of its media properties, the average age of the professionals on board across its reporting, editorial, social media, and sales teams is only 33. The Company is also a gender diversity champion with 45 % women employed by it from a total of 152 staff personnel as of March 31, 2021.

37. The results declared along with the consolidated scrutinizer's report shall be placed on the website of the Company www.quintdigitalmedia.com and on the website of CDSL www.cdslindia.com and shall simultaneously be forwarded to the concerned stock exchanges.

Instructions and other information relating to remote e-voting are as under:

- (i) Pursuant to SEBI Circular No. **SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020**, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

- (ii) In terms of SEBI circular no. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated December 9, 2020 on e-Voting facility provided by the Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. Shareholders are advised to update their mobile number and email Id in their demat accounts in order to access e-Voting facility.

Change of Name of the Company

The name of the Company has been changed from '**GAURAV MERCANTILES LIMITED**' to '**QUINT DIGITAL MEDIA LIMITED**' w.e.f. October 6, 2020.

Pursuant to the change in name of the Company the SCRIP ID and ABBREVIATED NAME of the Company has been changed to '**QUINT**' in the BSE Limited ('exchange') records.

Acquisition of Digital Content Business

Your Company had altered its main objects specified under the Memorandum of Association to undertake Media and Entertainment business with the prior approval of the shareholders obtained through Postal Ballot notice dated April 12, 2019.

Further, the Board of Directors vide their meeting held on July 17, 2019, had discussed the preliminary proposal to acquire the digital content business of Quintillion Media Private Limited, a company owned and controlled by Mr. Raghav Bahl and Ms. Ritu Kapur, which is being operated under brand name of "The Quint".

After obtaining the prior approval of Audit Committee on May 6, 2020, the Board of Directors of the Company approved the proposal of acquisition of the Digital Business in their meeting held on May 6, 2020 and entered into a Business Transfer Agreement with Quintillion Media Private Limited.

Quintillion Media Private Limited runs and operates three digital platforms under digital content business i.e. "www.thequint.com", "www.hindi.thequint.com" and "www.fit.thequint.com". These platforms offer news in various categories such as politics, businesses, opinions, entertainment matters, sports, technology aspects, life matters, health and fitness matters, women matters, blogs, hot wires, photos and videos, as well as India and international news ("**Digital Business**"). The Digital Business offers journalism and media in the form of 5 platforms- live, articles, videos, quint lab and audio podcasts.

Business Transfer Agreement for the acquisition of Digital Business from Quintillion Media Private Limited for a lump sum cash consideration at an Enterprise Valuation of INR 30,58,55,459 (Thirty Crores Fifty Eight Lakhs Fifty Five Thousand Four Hundred Fifty Nine Only) and an Equity Value

of INR 12,62,26,644 (Twelve Crores Sixty Two Lakhs Twenty Six Thousand Six Hundred Forty Four Only), adjusted in accordance with the terms of the Business Transfer Agreement (including net debt and closing adjustments as on closing date).

The transaction is being undertaken on an 'arm's length basis as per the fair valuation report of an Independent Valuer. The Company has also obtained a fairness opinion dated May 05, 2020 from a Category I Merchant Banker registered with the Securities and Exchange Board of India.

Approval of the shareholders was also obtained through Postal Ballot notice dated May 15, 2020. In accordance with the aforesaid approvals, the Company had duly completed the acquisition of the Digital Business on July 1, 2020 in terms of the business transfer agreement and other related documents executed between the parties and commenced the relevant operations on a going-concern basis w.e.f. July 1, 2020.

Shifting of Registered Office

The Registered Office of the Company was in the State of Maharashtra. However, the Digital Business acquired from Quintillion Media Private Limited is based out of the Delhi/ NCR region, so it was desirable to shift the Registered Office to the National Capital Territory of Delhi.

To utilize the existing physical infrastructure, connectivity facility, human resources coupled with business opportunities for managing the operations and streamline the management of affairs, the shareholders through Postal Ballot notice dated May 15, 2020 approved the change in the Registered office from State of Maharashtra to the National Capital Territory of Delhi.

The Registrar of Companies, Delhi approved the shifting of Registered office vide the Certificate of Registration dated November 18, 2020 and issued a fresh certificate of Incorporation in this regard.

The Company's Registered Office is now situated at: **403 Prabhat Kiran, 17, Rajendra Place, Delhi- 110008.**

The shifting of Registered Office from the State of Maharashtra to National Capital Territory of Delhi is in the best interest of the Company, shareholders and all concerned parties and is not detrimental to the interest of the shareholders, creditors or employees of the Company.

DISCLOSURE PURSUANT TO REGULATION 14 OF SEBI (SHARE BASED EMPLOYEE BENEFITS) REGULATIONS, 2014 AS ON 31 MARCH 2021

1. **Relevant disclosures in terms of the 'Guidance note on accounting for employee share- based payments' issued by Institute of Chartered Accountants of India ('ICAI') or any other relevant accounting standards as prescribed from time to time.**

The disclosures are provided in Note no. 35 of the Notes to Financial Statements of the Company for the year ended 31 March 2021.

2. **Diluted EPS on issue of shares pursuant to all the schemes covered under the regulations in accordance with 'Indian Accounting Standard 33 - Earnings per Share' issued by ICAI or any other relevant accounting standards as prescribed from time to time:**

Diluted Earnings Per Share in accordance with "Ind AS-33-Earning Per Share" for the year ended March 31, 2021 stood at ₹(1.36) (as per the Financials Statements).

3. **Details related to QDML ESOP Plan 2020**

The Board of Directors in their meeting held on November 14, 2020 had introduced the QDML ESOP Plan 2021 to attract, reward and retain talented and key eligible employees of the Company in the competitive environment and encourage them to align individual performance with the organizational goals.

The Members of the Company vide Special Resolution through Postal Ballot on January 16, 2021 in accordance with the provisions of the Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014, as amended ('SEBI SBEB Regulations').

- (i) Details related to QDML ESOP PLAN 2020 are given below:

Sr. No.	Particulars	QDML ESOP PLAN 2020
1.	Date of shareholders' approval	January 16, 2021
2.	Total number of options approved	Not more than 1,259,489 equity shares having face value of Rs.10 (Rupee Ten only) each subject to the conditions of QDML ESOP Plan 2020 and applicable provisions of Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014 (the "SBEB Regulations"). The SBEB Regulations require that in case of any corporate action such as rights issue, share split, bonus issue, merger and sale of division and others, a fair and reasonable adjustment needs to be made to the options granted. This ceiling will be adjusted for any future bonus issue of equity shares or stock splits or consolidation of equity shares and also may further be adjusted at the discretion of the Compensation Committee for any corporate action(s).
3.	Vesting Requirement	The maximum vesting period may extend up to 10 (Ten) years from the date of grant of Options or such other period as may be decided by the Board.
4.	Exercise price or pricing formula	Subject to the SBEB Regulations, the exercise price shall be fixed by the Nomination and Remuneration Committee at its discretion and will be specified in the grant letter but the same shall not be higher than the market price (i.e. latest available closing price on a recognized stock exchange having highest trading volume on which the equity shares of the Company are listed) of the equity shares at the time of grant and not less than the face value of the equity shares of the Company. The same shall be subject to any fair and reasonable adjustments that may be made on account of corporate actions of the Company in order to comply with the SBEB Regulations.
5.	Maximum term of options granted (years)	Exercise Period would commence from the vesting date and would expire not later than 8 (Eight) years or such other period as may be decided by the Nomination and Remuneration Committee. The Options shall lapse if not exercised within the Exercise Period.
6.	Source of shares	Primary issuance.
7.	Variation in terms of ESOP	Nil

(ii) Method used to account for ESOP

In compliance with Ind AS 102, the cost of equity-settled employee share-based payments is recognised based on the fair value of the options as on the grant date. The Company has considered fair value of the options using the Black-Sholes model.

(iii) Where the company opts for expensing of the options using the intrinsic value of the options, difference between the employee compensation cost so computed and the employee compensation cost that shall have been recognized if it had used fair value of the options & the impact of this difference on profits and on EPS of the Company.

Not Applicable

(iv) Details of Options (Option Movement during the year):

Sr. No.	Particulars	Details
i.	Number of options outstanding at the beginning of the period	Nil
ii.	Number of options granted during the year*	645,000
iii.	Number of options cancelled during the year	Nil
iv.	Number of options forfeited/lapsed during the year	Nil
v.	Number of options vested during the year	Nil
vi.	Number of options exercised during the year	Nil
vii.	Number of shares arising as a result of exercise of options	Nil
viii.	Money realized by exercise of options (INR), if scheme is implemented directly by the Company	Nil
ix.	Loan repaid by the trust during the year from exercise price received	NA
x.	Number of options outstanding at the end of the year*	645,000
xi.	Number of options exercisable at the end of the year*	645,000

*Initially 322500 were granted. However due to bonus issue in the ratio of 1:1, number of grant increased to 645,000.

(v) Weighted-average exercise prices and weighted-average fair values of options whose exercise price equals or exceeds or is less than the market price of the stock:

During the financial year 2020-21, the Company has granted 645,000 options to be vested in Five Tranches at an exercise price of ₹ 27.10 per option.

Accordingly, the weighted average exercise price is ₹ 27.10 per share. The weighted average fair value of the above options (using the Black-Scholes model) works out to ₹14.56 per option i.e. ₹ 14.56 per share of the face value of ₹ 10 each.

CORPORATE GOVERNANCE REPORT

In accordance with the provisions of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 and amendments thereto (hereinafter referred to as the “**Listing Regulations**”), given below are the corporate governance policies and practices of Quint Digital Media Limited (“**the Company**”) for the year 2020-21.

Corporate Governance is about our commitment to human values in business which translates into ethical corporate conduct. Corporate Governance is an integral element of Company's value system, management ethos, and business practices. Corporate Governance practice are reflection of one's value, culture, policies and the manner in which it deals with various stakeholders. Timely and accurate disclosure of information regarding the financial situation, performance, ownership and governance of the Company is an important part of Corporate Governance. When adhered to and implemented in the best of spirit, Corporate Governance positively impact the activities, processes and policies of an organization, portray a positive vision to investors and enhance the trust and confidence of the stakeholders. It can also influence its immediate corporate environment and the society at large in a positive way and have a healthy impact on the national economy.

We believe that good Corporate Governance is a continuing exercise and the Company is committed to ensure the same by focusing on strategic and operational excellence and also believe that integrity and transparency are key to our Corporate Governance practices which ensure us to gain and retain the trust of our stakeholders.

This Report, therefore, states compliance as per requirements of the Companies Act, 2013 and Listing Regulations, as applicable to the Company.

1) Governance Philosophy

Corporate Governance has occupied pivotal position at Quint Digital Media Limited (“**the Quint**”). The business has been conducted in most transparent and ethical manner. The Quint governance framework is driven by the objective of enhancing long term stakeholder value without compromising on ethical standards and corporate social responsibilities. All the necessary steps have been taken, with changing socio-economic scenario to ensure that the conduct of business is as per the policies of the management, namely Honesty, Transparency and Ethical Behaviour. The Quint has implemented corporate governance practices that go beyond just meeting the letter of law.

2) Board of Directors

In keeping with the commitment of the Management to the principle of integrity and transparency in business operations for good corporate governance, the Company's policy is to have an appropriate blend of executive, non-executive and independent directors to maintain the independence of the

Board and to separate the Board functions of governance and management.

A. Composition

As per to regulation 17(1)(b) of the Listing Regulations, where the Chairman is a non-executive director, at least one third of the Board of the Company should consist of independent directors. This provision is met at the Quint.

The Company's policy is to maintain optimum combination of Executive and Non-Executive Directors. As on 31 March 2021, the Board of the Company consisted total six directors, of whom one was executive director (designated as Managing Director and CEO) and five non-executive director (including two independent directors). The Board has no institutional nominee director and the Company had Non-Executive Chairman.

The composition of the Board represents a healthy blend and optimal mix of professionalism, knowledge and experience which enables the Board to discharge its responsibilities and provide effective leadership for long-term vision and to achieve the highest level of governance. The Board reviews its strength and composition from time to time to ensure that it remains aligned with the statutory, as well as business requirements.

B. Board Meeting and its attendance

During the year 2020-21, 7 (seven) meetings of the Board of Directors were convened. The said meetings were held on May 6, 2020, June 29, 2020, August 19, 2020, September 23, 2020, November 14, 2020, January 20, 2021 and March 4, 2021. The maximum gap between the two meetings was not more than one hundred and twenty days.

Necessary disclosures regarding Directorship and Committee positions in other Companies as on 31st March, 2021 have been made by the Directors. As per the disclosures received from them, none of the directors of the Company is a member of more than ten Committees or Chairman of more than five Committees across all Public Limited Companies in which he / she is a Director. None of the Directors serve as an independent director in more than seven listed Companies.

Notes:

None of the directors holds office as a director, including as alternate director, in more than twenty companies at the same time. None of them has directorships in more than ten public companies. For reckoning the limit of public companies, directorships of private companies that are either holding or subsidiary company of a public company are included and directorships in dormant companies are excluded.

As per declarations received, none of the directors serves as an independent director in more than seven equity listed companies. Further, the Managing Director in the Company does not serve as an independent director in more than three equity listed companies and in fact not even in a single entity.

None of the directors was a member in more than ten committees, nor a chairman in more than five committees across all companies in which he was a director.

For considering the limit of the committees on which a director can serve, all public limited companies, whether listed or not, private limited companies have been included and all other companies including foreign companies and companies under section 8 of the Companies Act, 2013 have been excluded. Only audit committee and stakeholders' relationship committee are considered for the purpose of reckoning committee positions.

C. Core Skills/Expertise/Competencies of the Board of Directors

D. Independent Directors

Considering the requirement of skill sets on the Board, eminent people having an independent standing

in their respective field/profession, and who can effectively contribute to the Company's business and policy decisions are considered by the Nomination and Remuneration Committee for appointment as Independent Directors on the Board. The Committee, inter-alia, considers qualification, positive attributes, area of expertise and number of Directorships and Memberships held in various committees of other companies by such persons in accordance with the Company's Policy for Selection of Directors and Determining Directors' Independence. The Board considers the Committee's recommendations and takes appropriate decisions.

At the time of appointment and thereafter at the beginning of each financial year or whenever there is any change in the circumstances which may affect their status, the Independent Directors submit declaration confirming their independence and compliance with various eligibility criteria laid down by the Company among other disclosures and the Company also ensures that its Directors meet the aforesaid eligibility criteria. All such declarations are placed before the Board for its information.

All Independent Directors of the Company have registered themselves with the Independent Directors' databank as required under sub-rule (1) and sub-rule (2) of Rule 6 of Companies (Appointment and Qualification of Directors) Rules, 2014.

In the opinion of the Board, it is confirmed that Independent Directors of the Company fulfil the conditions specified in the Listing Regulations and Companies Act, 2013 and are independent of the management.

E. Meeting of Independent Directors

The Independent Directors meet separately at least once in a financial year, without the attendance of non-independent Directors and members / representatives of management of the Company. They meet to discuss and form an independent opinion on the agenda items, various other Board-related matters, identify areas where they need clarity or information from management and to annually review the performance of Non-Independent Directors, the Board as a whole and the Chairman appointed for the Board meetings.

During the financial year 2020-21, the Independent Directors met once on March 4, 2021.

The Company familiarizes its Independent Directors with the Company, their roles, rights, responsibilities in the Company, nature of the industry in which the Company operates, business model of the Company

etc., through various programs.

The Familiarization program imparted to Independent Directors is available on the Company's website at the following web link:

Independent Auditor's Report

To

The Members of Quint Digital Media Limited (Formerly Gaurav Mercantiles Limited)

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of Quint Digital Media Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2021, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "Standalone Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards ('Ind AS') prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2021, the loss and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These

matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have nothing to report in this regard.

Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free

from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the Standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we

conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the Annexure "A", a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

As required by Section 143(3) of the Act, based on our audit we report that :

- a) We have sought and obtained all the information and

explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the accompanying standalone financial statements.

- b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the relevant books of account.
- d) In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under Section 133 of the Act, read with relevant Rules issued thereunder.
- e) On the basis of the written representations received from the directors as on March 31, 2021 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2021 from being appointed as a director in terms of Section 164 (2) of the Act.
- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the remuneration paid

by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.

- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us :
 - i. The Company does not have any pending litigations which would impact its financial position
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the company.

Annexure “B” to the Independent Auditor’s Report

(Referred to in paragraph 1(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report to the Members of Quint Digital Media Limited of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of Quint Digital Media Limited (“the Company”) as of March 31, 2021 in conjunction with our audit of the Standalone Financial Statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting includes obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Company.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion and according to the information and explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2021

1 Reporting entity

Quint Digital Media Limited ("the Company") is a public limited company domiciled in India, with its registered office situated at 403, Prabhat Kiran, 17 Rajendra Place, New Delhi-110008 and its equity shares are listed on the Bombay Stock Exchange. The Company has been incorporated on 31 May 1985 under the provisions of the Indian Companies Act and was previously known as Gaurav Mercantiles Limited. The name was changed to Quint Digital Media Limited on 21 September 2020. The Company is primarily engaged in the business of running websites through web, digital or mobile media and which may include various information including current affairs, lifestyle, entertainment etc.

2 Significant accounting policies

2.1 Basis of preparation

The standalone financial statements have been prepared on the historical cost basis except for certain financial assets and liabilities which have been measured at fair value amount. The standalone financial statements of the Company have been prepared to comply with the Indian Accounting standards ('Ind AS'), including the rules notified under the relevant provisions of the Companies Act, 2013. The Company's standalone financial statements are presented in Indian Rupees (₹), which is its functional currency.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria as set out in the Division II of Schedule III to the Companies Act, 2013. Based on the nature of products and services and the time between acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as twelve months for the purpose of current or non-current classification of assets and liabilities.

2.2 Summary of Significant accounting policies

a Revenue recognition

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration entitled in exchange for those goods or services. Revenue from contracts with customers represents sale of services. Revenue from rendering of services includes advertisement revenue, subscription revenue, revenue from sale of content, program revenue, revenue from sponsorship of events and revenue from media related professional

and consultancy services. Revenue from rendering of services is recognised over time where the Company satisfies the performance obligation over time or point in time where the Company satisfies the performance obligation at a point in time. Revenue is measured at the amount of consideration which the Company expects to be entitled to in exchange for transferring distinct goods or services to a customer as specified in the contract, net of returns and allowances, trade discounts and volume rebates and excluding amounts collected on behalf of third parties (for example taxes and duties collected on behalf of the government). Consideration is generally due upon satisfaction of performance obligations and the receivable is recognized when it becomes unconditional.

Contract balances

Trade receivables represents the Company's right to an amount of consideration that is unconditional. Revenues in excess of invoicing are considered as contract assets and disclosed as unbilled revenue. Invoicing in excess of revenues are considered as contract liabilities and disclosed as unearned revenues. When a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised and disclosed as advances from customers.

Contract liabilities are recognised as revenue when the Company performs under the contract.

Interest and Dividend income

Interest income is recognized on a time proportion basis taking into account the amount outstanding and the applicable interest rate. Interest income is included under the head "other income" in the statement of profit and loss.

Dividend Income is recognised when the Company's right to receive the amount has been established.

b Property, plant and equipments

Fixed assets - tangibles

Recognition and initial measurement

Property, plant and equipment are stated at their cost of acquisition. The cost comprises purchase price, borrowing cost if capitalisation criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Capital

expenditure incurred on rented properties is classified as 'Leasehold improvements' under property, plant and equipment

Subsequent measurement

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance are charged to Statement of Profit and Loss during the year in which they are incurred.

Depreciation

Depreciation is provided on Straight Line Method in accordance with the useful life of assets estimated by the management, which is the rate prescribed under schedule II to the Companies Act, 2013. Leasehold improvements are depreciated over the period of lease agreement or the useful life whichever is shorter.

De-recognition

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the asset is derecognised.

Transition to Ind AS

On transition to Ind AS, the Company has elected to continue with the carrying value of all of its property, plant and equipment recognized as at 1 April 2017 measured as per the Indian GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

c Leases

The Company, as a lessee, recognizes a right-of-use asset and a lease liability for its leasing arrangements, if the contract conveys the right to control the use of an identified asset. The contract conveys the right to control the use of an identified asset, if it involves the use of an identified asset and the Company has substantially all of the economic benefits from use of the asset and has right to direct the use of the identified asset. The Company applies the short-term lease recognition exemption to its short-term leases. Lease payments on short-term leases are recognised as expense on a straight-line basis over the lease

term. The cost of the right-of-use asset shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date plus any initial direct costs incurred. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability.

The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate.

d Intangible Assets

Intangible Assets are stated at cost of acquisition net of recoverable taxes, trade discount and rebate less accumulated amortisation/ depletion and impairment loss, if any. Such cost includes purchase price, borrowing costs, and any cost directly attributable to bringing the asset to its working condition for the intended use.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the items will flow to the Company and cost can be measured reliably.

Gains or losses arising from derecognition of intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the Statement of Profit and Loss when the asset is derecognised.

The Company's intangible assets comprises assets with finite useful life which are amortised on a straight-line basis over the period of their expected useful life.

Computer Software are being amortised over the license period. Website development costs are capitalised and amortised over their estimated useful life of 5 years. Mobile application development costs are capitalised and amortised over their estimated useful life of 3 years

Video costs are being amortised over 4 years for all videos/ programs produced by the company and over the license period for videos/ programs purchased from others. Based on the estimate of the management that the video viewership will be over the life of 4 years, the

period is used for amortisation of costs capitalised by the company. Amortisation of video cost is 60% of the cost capitalised in first year from the date of publishing, 20% of the cost capitalised in the second year and 10% each in third and fourth year, on straight line basis.

The amortisation period and the amortisation method for Intangible Assets with a finite useful life are reviewed at each reporting date.

Intangible Assets under development

Expenditure on video costs eligible for capitalisation are carried as intangible assets under development where such assets are not yet ready for their intended use or publishing.

e Impairment of non-financial assets

At each reporting date, the Company assesses whether there is any indication based on internal/external factors, that an asset may be impaired. If any such indication exists, the Company estimates the recoverable amount of the asset. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount and the reduction is treated as an impairment loss and is recognised in the statement of profit and loss. All assets are subsequently reassessed for indications that an impairment loss previously recognised may no longer exist. An impairment loss is reversed if the asset's or cash-generating unit's recoverable amount exceeds its carrying amount.

f Financial Instruments

Financial assets and liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

Cash and cash equivalents

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents. Cash and cash equivalents consist of balances with banks, which are unrestricted for

withdrawal and usage.

Financial assets at amortised cost

Financial assets are subsequently measured at amortised cost if these financial assets are held within the business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding

Financial assets at fair value through other comprehensive income

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows on specified dates that are solely payments of principal and interest on the principal amount outstanding and selling financial assets. The Company has made an irrevocable election to present subsequent changes in the fair value of equity investments not held for trading in other comprehensive income.

Financial assets at fair value through profit or loss

Financial assets are measured at fair value through profit or loss unless they are measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognised in statement of profit and loss.

Financial liabilities

Financial liabilities are measured at amortised cost using the effective interest method.

Equity instruments

An equity instrument is a contract that evidences residual interest in the assets of the company after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received net of direct issue cost.

Impairment of Financial Assets

Financial assets, other than those at FVTPL, are assessed for indicators of impairment at the end of each reporting period. In case of trade receivables, the Company follows the simplified approach permitted by Ind AS 109 – Financial Instruments - for recognition of impairment loss allowance. The application of

simplified approach does not require the Company to track changes in credit risk of trade receivables. The Company calculates the expected credit losses on trade receivables, using a provision matrix on the basis of its historical credit loss experience.

Financial guarantee contracts

Financial guarantee contracts issued by the Company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the amount recognised less cumulative amortisation.

De-recognition of Financial Assets

The Company de-recognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognises its retained interest in the asset and an associated liability for amounts it may have to pay.

On de-recognition of a financial asset, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in the Statement of Profit and Loss.

Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

De-recognition of Financial Liabilities

The Company de-recognises financial liabilities when and only when, the Company's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability de-recognised and the consideration paid and payable

is recognised in Statement of Profit and Loss.

Derivative Financial Instruments

The Company may enter into foreign exchange forward contracts to mitigate the foreign currency exposure risk. Derivatives are to be initially recognised at fair value at the date the derivative contracts are entered and will be subsequently re-measured to their fair value at the end of each reporting period. The resulting gain or loss will be recognised in Statement of Profit and Loss immediately unless the derivative is designated and effective as a hedging instrument, in which event the timing of the recognition in Statement of Profit and Loss will depend on the nature of the hedge relationship.

Equity Investments

All investments in equity instruments classified under financial assets are initially measured at fair value; the Company may, on initial recognition, irrevocably elect to measure the same either at FVOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis. Fair value changes on an equity instrument is recognised as 'other income' in the Statement of Profit and Loss unless the Company has elected to measure such instrument at FVOCI. Fair value changes excluding dividends and on an equity instrument measured at FVOCI, are recognised in OCI. Amounts recognised in OCI are not subsequently reclassified to the Statement of Profit and Loss. Dividend income on the investments in equity instruments are recognised as 'other income' in the Statement of Profit and Loss.

g Borrowing Cost:

Borrowing costs that are directly attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use. All other borrowing costs are charged to the Statement of Profit and Loss in the period in which they are incurred.

h Employee benefits:

Post-employment, long term and short term employee benefits

Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which the Company pays specified contributions towards Provident Fund, Employee State Insurance and Pension Scheme. The Company's contribution is recognised as an expense in the

Statement of Profit and Loss during the period in which the employee renders the related service.

Defined benefit plans

The Company pays gratuity to the employees who have completed five years of service with the Company at the time of resignation/ superannuation. The gratuity is paid @ 15 days salary for every completed year of service as per the Payment of Gratuity Act, 1972. The liability in respect of gratuity and other post-employment benefits is calculated using the Projected Unit Credit Method and spread over the period during which the benefit is expected to be derived from employees' services.

Re-measurements of defined benefit plans in respect of post-employment and other long term benefits are charged to the Other Comprehensive Income.

Other long-term employee benefits

Long term compensated absences are provided for based on actuarial valuation at year end. The actuarial valuation is done as per projected unit credit method. The Company presents the compensated absences as a current liability in the balance sheet, to the extent it does not have an unconditional right to defer its settlement for 12 months after the reporting date.

Short-term employee benefits

Short-term employee benefits are recognised as an expense on accrual basis.

i Employee share based payment

The employees of the Company and its subsidiary receive remuneration in the form of share-based payments in consideration of the services rendered. Under the equity settled share based payment, the fair value on the grant date of the awards given to employees is recognised as 'employee benefit expenses' with a corresponding increase in equity over the vesting period. The fair value of the options at the grant date is calculated by an independent valuer using Black Scholes Model. At the end of each reporting period, apart from the non-market vesting condition, the expense is reviewed and adjusted to reflect changes to the level of options expected to vest. When the options are exercised, the Company issues fresh equity shares.

j Taxes

The income tax expense comprises of current and deferred income tax. Income tax is recognised in the statement of profit and loss, except to the extent that it relates to items recognised in the other comprehensive

income or directly in equity, in which case the related income tax is also recognised in Other Comprehensive Income or Equity.

Current tax

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates and laws that are enacted or substantively enacted at the Balance Sheet date.

Deferred tax

Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets are recognised for all deductible temporary differences and the carry forward of any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax losses can be utilised, except when the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

The carrying amount of deferred tax assets are reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the assets to be recovered. Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set-off current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to the same taxable entity and the same taxation authority.

Current and deferred taxes are recognised in the Statement of Profit and Loss, except when the same relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax relating to such items are also recognised in other comprehensive income or directly in equity, respectively.

Minimum alternate tax (MAT)

Minimum alternate tax (MAT) paid in a year is charged to the Statement of profit and loss as current tax for the year. The deferred tax asset is recognised for MAT credit available only to the extent that it is probable that the concerned company will pay normal income tax during the specified period, i.e., the period for which MAT credit is allowed to be carried forward. In the year

in which the company recognizes MAT credit as an asset, it is created by way of credit to the Statement of profit and loss and shown as part of deferred tax asset. The company reviews the “MAT credit entitlement” asset at each reporting date and writes down the asset to the extent that it is no longer probable that it will pay normal tax during the specified period.

k Cash and bank balances

Cash and bank balances comprise cash and cash on deposit with banks. The Company considers all highly liquid investments with a remaining maturity at the date of investment of three months or less and that are readily convertible to known amounts of cash to be cash equivalents.

l Earning per share (EPS)

Basic EPS is calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting preference dividends and attributable taxes) by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period are adjusted for events of bonus issue; bonus element in a rights issue to existing shareholders; share split; and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

m Provisions and Contingent liabilities

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance Sheet date. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows to net present value using an appropriate pre-tax discount rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

n Foreign Currencies Transactions and Translation

Transactions in foreign currencies are recorded at the exchange rate prevailing on the date of transaction.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency's closing rates of exchange at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognised in Statement of Profit and Loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are recorded using the exchange rates at the date of the transaction. Nonmonetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item.

o Business Combination

The Company accounts for its business combinations under acquisition method of accounting. Acquisition related costs are recognised in the statement of profit and loss as incurred. The acquiree's identifiable assets, liabilities and contingent liabilities that meet the condition for recognition are recognised at their fair values at the acquisition date.

Purchase consideration paid in excess of the fair value of net assets acquired is recognised as goodwill. Where the fair value of identifiable assets and liabilities exceed the cost of acquisition, after reassessing the fair values of the net assets and contingent liabilities, the excess is recognised as capital reserve.

Business combinations arising from transfers of interests in entities that are under common control are accounted at historical cost under pooling of interest method. The difference between any consideration given and the aggregate historical carrying amounts of assets and liabilities of the acquired entity are recorded in shareholders' equity.

On acquisition of a business, the Company assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date.

p Impairment of non-financial assets

Assessment for impairment is done at each Balance Sheet date as to whether there is any indication that a non-financial asset may be impaired. Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal

calculation is based on available data from binding sales transactions, conducted at arm's length, for similar assets or observable market prices less incremental costs for disposing off the asset. The value in use calculation is based on a DCF model. The impairment loss is recognised if the recoverable amount of the CGU is higher than its value in use or fair value less cost to sell. Impairment losses are immediately recognised in the Statement of Profit and Loss.

q Fair value measurements and hierarchy

In determining the fair value of its financial instruments, the Company uses following hierarchy and assumptions that are based on market conditions and risks existing at each reporting date.

Fair value hierarchy

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability; or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their best economic interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate

economic benefits by using the asset in its highest and best use, or by selling it to another market participant that would use the asset in its highest and best use.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2: Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3: Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by reassessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The carrying amounts of trade receivables, trade payables, payables towards capital goods, other Bank Balances and cash and cash equivalents are considered to be the same as their fair values, due to their short-term nature.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above. (Refer Note 39).

3.2 Addition on account of transition to IND AS 116

Right to use asset

The Company, as a lessee, recognises a right-of-use asset and a lease liability for its leasing arrangements, as the contract conveys the right to control the use of an identified asset.

The cost of the right-of-use asset comprises of the amount of the initial measurement of the lease liability adjusted for the lease payments made at the commencement date plus any initial direct costs incurred. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The Company, as a lessee, recognises a right-of-use asset and a lease liability for its leasing arrangements, since the contract conveys the right to control the use of an identified asset which is the building premise. The contract conveys the right to control the use of an identified asset, as it involves the use of an identified asset and the Company has substantially all of the economic benefits from use of the asset and has right to direct the use of the identified asset.

Sensitivity analysis for gratuity

Particulars	As at 31 March 2021	As at 31 March 2020
a) Impact of the change in discount rate		
Present value of obligation at the end of the year		
Impact due to increase of 1 %	5,878,130	7,498,240
Impact due to decrease of 1 %	7,251,385	8,622,138
b) Impact of the change in withdrawal rate

Impact due to increase of 1 %	6,549,039	8,075,118
Impact due to decrease of 1 %	6,455,453	7,983,033
b) Impact of the change in salary increase		
Present value of obligation at the end of the year		
Impact due to increase of 1 %	7,046,150	8,397,894
Impact due to decrease of 1 %	5,951,736	7,630,214

Sensitivities due to mortality and withdrawals are not material. Hence impact of change is not calculated above.

Sensitivities as to rate of inflation, rate of increase of pensions in payment, rate of increase of pensions before retirement and life expectancy are not applicable being a lump sum benefit on retirement.

The above sensitivity analysis are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of defined benefit obligation to significant actuarial assumptions the same method (present value of defined benefit obligations calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the balance sheet.

Risk	
Actuarial Risk	It is the risk that benefits will cost more than expected. This can arise due to one of the following reasons: Adverse Salary Growth Experience: Salary hikes that are higher than the assumed salary escalation will result into an increase in Obligation at a rate that is higher than expected
Investment Risk	If Plan is funded then assets liabilities mismatch & actual investment return on assets lower than the discount rate assumed at the last valuation date can impact the liability.
Discount rate	Reduction in discount rate in subsequent valuations can increase the plan's liability.
Mortality and disability	Actual deaths and disability cases proving lower or higher than assumed in the valuation can impact the liabilities.
Withdrawals	Actual withdrawals proving higher or lower than assumed withdrawals and change of withdrawal rates at subsequent valuations can impact Plan's liability.

32 Fair value measurement

32.1 Valuation techniques used to determine fair value

The fair value of the financial assets and liabilities is the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods were used to estimate the fair values:-

- Trade receivables, cash and cash equivalents, other bank balances, loans, other current financial assets, current borrowings, trade payables and other current financial liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.
- Borrowings, taken by the Company are as per the Company's credit and liquidity risk assessment and there is no comparable instrument having the similar terms and conditions with related security being pledged and hence the carrying value of the borrowings represents the best estimate of fair value.
- The fair value of investment in mutual funds is measured at quoted price or net asset value (NAV).

There are no transfer between levels during the year

33 Financial risk management

Risk management

The Company's activities expose it to liquidity risk and credit risk. The Company's board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework. This note explains the sources of risk which the entity is exposed to and how the entity manages the risk and the related impact in the financial statements.

Risk	Exposure arising from	Measurement	Management
Credit risk	Trade receivables, cash and cash equivalents, other bank balances, loans and other financial assets, if any, measured at amortised cost	Aging analysis	Diversification of bank deposits and credit limits and regular monitoring and follow ups
Liquidity risk	Borrowings, trade payables and other financial liabilities, if any	Cash flow forecasts	Availability of committed credit lines and borrowing facilities wherever applicable
Market risk – foreign exchange	Future commercial transactions, recognised financial assets and liabilities not denominated in Indian rupee	Cash flow forecasting sensitivity analysis	Forward foreign exchange contracts
Market risk – interest rate	Long-term borrowings at variable rates	Sensitivity analysis	Diversification of loans

Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial asset fails to meet its contractual obligations. The Company's exposure to credit risk is influenced mainly by the individual characteristics of each financial asset. The management also considers the factors that may influence the credit risk of its customer base, including the default risk etc. The carrying amounts of financial assets represent the maximum credit risk exposure.

A default on a financial asset is when the counterparty fails to make contractual payments as per agreed terms. This definition of default is determined by considering the business environment in which entity operates and other macro-economic factors.

The Company monitors its exposure to credit risk on an ongoing basis.

The Company closely monitors the credit-worthiness of the receivables through internal systems that are configured to define credit limits of customers, thereby, limiting the credit risk to pre-calculated amounts. The Company uses a simplified approach (lifetime expected credit loss model) for the purpose of computation of expected credit loss for trade receivables.

Category	Inputs	Assumptions
Government	Information on deductions made by government agencies in past years	Trade receivables outstanding for more than two years are considered irrecoverable. Also, allowance for expected credit loss on receivables outstanding for less than two years is recognised based on expected deductions by government agencies.
Non-government		
Individuals	Individual customer wise trade receivables and information obtained through sales recovery follow ups	Trade receivables outstanding for more than two years are considered irrecoverable. Other receivables are considered good due to ongoing communication with customers.
Corporates clients and agencies	Collection against outstanding receivables in past years	Trend of collections made by the Company over a period of four years preceding balance sheet date and considering default to have occurred if receivables are not collected for more than two years.
Others	Customer wise trade receivables and information obtained through sales recovery follow ups	Specific allowance is made by assessing party wise outstanding receivables based on communication between sales team and customers.

33.2 Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, that it will have sufficient liquidity to meet its liabilities when they are due.

Management monitors the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows.

The Company takes into account the liquidity of the market in which the entity operates.

33.3 Market risk

(i) Foreign exchange risk

The Company has international transactions and is exposed to foreign exchange risk arising from foreign currency transactions (imports and exports). Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities denominated in a currency that is not the Company's functional currency. The Company has not hedged its foreign exchange receivables and payables as at 31 March 2021.

The Company, vide the resolution passed at the meeting of Nomination and Remuneration Committee ("NRC"), dated 29 January, 2021, approved 'QDML ESOP Plan 2020' for granting employee stock options in the form of equity shares, linked to the completion of a minimum period of continued employment, to the eligible employees of the Company. The Members of the Company have approved the Scheme through postal ballot on 16 January 2021. The eligible employees, for the purpose of this scheme are determined by the NRC. Each stock option entitles the eligible employee to avail one share at the end of the vesting period.

The Company had granted 322,500 options to eligible employees on 29 January 2021 at the grant price of 54.20/- each. The NRC also resolved that the number of stock options granted to the employees and the Exercise Price shall be suitably adjusted upon approval of the bonus issuance on a 1:1 basis by the shareholders of the company. Bonus shares were issued to shareholders on 4th March 2021 and as a result the rights to stock option also accrued to the employees on the same date.

The vested options can be exercised between a period from the vesting date to a period not later than 8 (Eight) years from the date of Grant of Options.

36 Disclosure on lease transactions pursuant to Ind AS 116 - Leases

The Company's lease asset class primarily consists of leases for buildings. With the exception of leases of low-value and cancellable long-term leases underlying assets, each lease is reflected on the balance sheet as a right of use asset and a lease liability.

The Company has adopted Ind AS 116 effective 1st April, 2020. The Company has applied the standard to its leases with the cumulative impact recognised on the date of initial application. Accordingly, previous period information has not been restated as the remaining lease period was less than 12 months and was classified as short term lease. This has resulted in recognising a right-of-use asset of 281.61 lacs (previous year nil) and a corresponding lease liability of 276.95 lacs (previous year nil).

Lease liabilities are measured at the present value of the remaining lease payments, discounted using the weighted average borrowing rate on the date of adoption, i.e., 8.18%.

39 Acquisitions during the year ended 31 March 2021 under business combination

During the year Gaurav Mercantiles Limited ('the Company') has acquired the digital content business of Quintillion Media Private Limited ('QMPL'), a Company under common control, which was being operated under brand name of "The Quint". The Company completed the acquisition of the Digital Content Business of "The Quint" on July 1, 2020 in terms of the Business Transfer Agreement (BTA) executed between the parties and commenced the relevant operations on a going-concern basis w.e.f. July 1, 2020. After the acquisition of business, name of the Company was subsequently changed from Gaurav Mercantiles Limited to Quint Digital Media Limited ('QDML') on 21 September 2020.

Common control business combination, here, means a business combination involving entities in which all the combining entities or business are ultimately controlled by the same party or parties both before and after the business combination, and that control is not transitory. Both the Acquirer Company and QMPL are ultimately controlled by Mr Raghav Bahl and Ms Ritu Kapur both before and after the acquisition. As the business combinations involved entities under common control, it has been accounted for using the pooling of interests method in accordance with IndAS 103.

The pooling of interest method is considered to involve the following:

- The assets and liabilities of the combining entities are reflected at their carrying amounts.
- No adjustments are made to reflect fair values, or recognise any new assets or liabilities. The only adjustments that are made are to harmonise accounting policies.
- No Goodwill is recognised
- The financial information in the financial statements in respect of prior periods should be restated as if the business combination had occurred from the beginning of the preceding period in the financial statements, irrespective of the actual date of the combination. However, if business combination had occurred after that date, the prior period information shall be restated only from that date.

Notes to the financial statements for the year ended March 31, 2021

(All amount in ₹, unless stated otherwise)

Thus, the Company has restated comparative financial statements for the financial year 2019-20 as if the acquisition had occurred on or before 1 April 2019, irrespective of the actual date of the combination which is 1 July 2020.

Reserves

The balance of the retained earning appearing in the financial statement of the transferor is aggregated with the corresponding balance appearing in the financial statement of the transferee. The difference between the purchase consideration and the value of net identifiable assets acquired has been adjusted with the Acquisition adjustment reserve. The loss as at April 01, 2019, March 31, 2020 and June 30, 2020 (net of deferred tax) of the digital business of QMPL has also been adjusted in Acquisition Adjustment Reserve. The Acquisition Adjustment Reserve had been adjusted with the net difference while comparing purchase consideration and net identifiable assets.

The details of recognised amounts of identifiable net assets of the business combination are as follows:

40 Provisions, contingent liabilities and capital commitments

The Company recognises a provision when there is a present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation that the likelihood of outflow of resources is remote, no provision or disclosure is made.

The Company does not have any contingent liability and capital commitments as on 31 March 2021 and 31 March 2020.

41 Capitalisation of Video cost

The Company creates different kinds of content videos in covering multiple genres like documentaries, entertainment, sports, lifestyle, news etc. for its viewers. These videos are viewed over different platforms like YouTube, Facebook, its own website and through its channel partners.

It receives inputs from primary sources like news reporter, investigations etc, and secondary sources like Wire Services -ANI, PTI, Social Media platforms like Facebook or twitter. Based on inputs received the creative team creates the content videos

Notes to the financial statements for the year ended March 31, 2021

(All amount in ₹, unless stated otherwise)

and then publish the same on various platforms. The Company on acquisition of digital business has formulated a policy with effect from 1 July 2020, that the cost of content gets capitalised on the date of publishing.

In accordance with Ind AS 38, the videos created meet the definition of an asset as:

- The Videos are controlled by the Company as it retains the Intellectual Property Rights of these videos and it decides the platforms on which these will be posted for public viewership.
- It has the rights to remove these videos from these platforms as per its discretion.
- The economic benefits flow only to the Company, which are either direct economic benefit i.e. Partner/Programmatic revenue which is generated by monetisation of these videos on various platforms based on viewership or Direct Selling of display advertisement revenue, which is generated for placement of various advertisements on Quint's website or other platforms. Both of the revenues are related to content videos as these videos generate viewership.

The cost of video include direct expenses such as video crew, production costs, editing, visual effects and production overhead costs such as studio rent etc. It also includes on proportionate basis production-related administrative costs, if directly attributable and costs of employee benefits i.e. cost of Creative Team or production team working directly on creation of these videos.

The video cost had been assumed to have a life of 4 years and is to be amortised from the date of its publishing, 60% of the cost capitalised in the first year of video being published, 20% in the second year and 10% each in next 2 years. If a video, in later year, is found to be not generating any economic benefit it could be decided by the management to be written off completely in that year itself.

The break up of the cost of the video capitalised during 31 March 2021 is as follows:	Amount in Rs
Employee benefit expenses	52,444,749
Depreciation and amortization expense of assets used in production of video	348,550
Administrative cost directly attributable to production of video	6,112,286
Connectivity	2,221,290
Travel	14,200
Content Cost	5,980,488
Total	67,121,563

Amount of ₹593,595 pertains to videos under production as at 31 March 2021 and had been shown as Intangible Assets under development.
