Scheme is in compliance with the accounting standards prescribed under Section 133 of the Act read with applicable rules and/ or the accounting standards issued by the Institute of Chartered Accountants of India and other generally accepted accounting standards and principles ("Auditor's Certificate").

7. The Need and Rationale for the Scheme:

The management of the Company is of the view that the arrangement proposed in this Scheme is, in particular, expected to have the following benefits:

Amalgamation of identified entities

- a) Consolidation of Listed Amalgamating Companies, Unlisted Amalgamating Companies and Amalgamating Company 17 with the Amalgamated Company to have enhanced capability for offering diversified products and services in a unified entity. Its pooled resource base and client relationships are likely to result in better business potential and prospects for the consolidated entity and its stakeholders;
- b) The combined financial strength is expected to further accelerate the scaling up of the operations of the Amalgamated Company. Deployment of resources in a more efficient manner is likely to enable faster expansion of the business operations of the Amalgamated Company;
- c) The consolidation of funds and resources will lead to optimization of working capital requirement and consequent utilization, stronger financial leverage, improved balance sheet, and consolidation of cross location talent pool;
- d) Amalgamation of the Listed Amalgamating Companies, Unlisted Amalgamating Companies and Amalgamating Company 17 with the Amalgamated Company, will lead to a simplified and streamlined holding structure, reduction of multitude of entities thus help in easing and rationalizing the compliances;

Demerger of Real Estate Business Undertaking

- e) At present, the business operations of the Demerged Company can be bifurcated into following segments i.e., primary activity of real estate business, *inter-alia* comprising of activities in relation to development of identified land parcels / areas ("Real Estate Business Undertaking") and residuary activities, amongst-others involving undertaking investments activities ("Non-Core Business Undertaking");
- f) Management of Demerged Company believes that the nature of offerings and the risk and return profile of the Real Estate Business Undertaking of the Demerged Company, being its mainstay, is different vis-à-vis the Non-Core Business Undertaking;
- g) The Real Estate Business Undertaking represents an independent business division of Demerged Company housing a separate business portfolio, service offerings and functionality. Given the varied nature of activities, management of Demerged Company intends to segregate the Real Estate Business Undertaking from the consolidated entity, so as to achieve desired objectives to scale up the operations of investment activities and unlock the growth potential thereof.

8. Share Entitlement Ratio Report:

The share exchange ratios as per the Valuation Reports are as under (collectively, the "Share Exchange Ratios"):

Part E

"322 equity shares of Yaari of INR 2/- each fully paid-up for every 1 equity share of India Land Hotels Mumbai Private Limited of INR 10/- each fully paid-up"

No special valuation difficulties were reported.

9. Effect of the Scheme on the equity shareholders (promoter and non-promoter) of the Company:

The Board reviewed the documents placed in the meeting held on June 27, 2023, and was of the informed opinion that the Scheme is in the best interests of the Company and its shareholders and creditors. The impact of the Scheme on the shareholders including the promoter and public shareholders would be the same in all respects and no shareholder is expected to have any disproportionate advantage or disadvantage in any manner.

10. Effect of the Scheme on the KMPs of the Company:

There is no impact of the Scheme on the KMPs of the Company. Further, none of the KMPs have any interest in the Scheme except to the extent of shares held by them, if any, in the Participating Companies.

11. Effect of the Scheme on the Creditors of the Company:

There is no impact of the Scheme on the creditors of the Company. Further, none of the creditors have any interest in the Scheme except to the extent of shares held by them, if any, in any of the Participating Companies.

12. Adoption of the Report by the Board:

The Board of the Company has adopted this Report after noting and considering the information set forth in this Report and documents placed before the Board.

- (d) the certificate dated June 27, 2023, from the statutory auditor of the Company, pursuant to paragraph A.5 of Part I of the SEBI Master Circular bearing reference No. SEBI/HO/CFD/POD-2/P/CIR/2023/93 dated June 20, 2023, certifying that the accounting treatment proposed in the Scheme is in compliance with the accounting standards prescribed under Section 133 of the Act read with applicable rules and/ or the accounting standards issued by the Institute of Chartered Accountants of India and other generally accepted accounting standards and principles (“Auditor’s Certificate”).

7. The Need and Rationale for the Scheme:

The management of the Company is of the view that the arrangement proposed in this Scheme is, in particular, expected to have the following benefits:

Amalgamation of identified entities

- a) Consolidation of Listed Amalgamating Companies, Unlisted Amalgamating Companies and Amalgamating Company 17 with the Amalgamated Company to have enhanced capability for offering diversified products and services in a unified entity. Its pooled resource base and client relationships are likely to result in better business potential and prospects for the consolidated entity and its stakeholders;
- b) The combined financial strength is expected to further accelerate the scaling up of the operations of the Amalgamated Company. Deployment of resources in a more efficient manner is likely to enable faster expansion of the business operations of the Amalgamated Company;
- c) The consolidation of funds and resources will lead to optimization of working capital requirement and consequent utilization, stronger financial leverage, improved balance sheet, and consolidation of cross location talent pool;
- d) Amalgamation of the Listed Amalgamating Companies, Unlisted Amalgamating Companies and Amalgamating Company 17 with the Amalgamated Company, will lead to a simplified and streamlined holding structure, reduction of multitude of entities thus help in easing and rationalizing the compliances;

Demerger of Real Estate Business Undertaking

- e) At present, the business operations of the Demerged Company can be bifurcated into following segments i.e., primary activity of real estate business, *inter-alia* comprising of activities in relation to development of identified land parcels / areas (“Real Estate Business Undertaking”) and residuary activities, amongst-others involving undertaking investments activities (“Non-Core Business Undertaking”);
- f) Management of Demerged Company believes that the nature of offerings and the risk and return profile of the Real Estate Business Undertaking of the Demerged Company, being its mainstay, is different vis-à-vis the Non-Core Business Undertaking;
- g) The Real Estate Business Undertaking represents an independent business division of Demerged Company housing a separate business portfolio, service offerings and functionality. Given the varied nature of activities, management of Demerged Company intends to segregate the Real Estate Business Undertaking from the consolidated entity, so as to achieve desired objectives to scale up the operations of investment activities and unlock the growth potential thereof.

- (d) the certificate dated June 27, 2023, from the statutory auditor of the Company, pursuant to paragraph A.5 of Part I of the SEBI Master Circular bearing reference No. SEBI/HO/CFD/POD-2/P/CIR/2023/93 dated June 20, 2023, certifying that the accounting treatment proposed in the Scheme is in compliance with the accounting standards prescribed under Section 133 of the Act read with applicable rules and/ or the accounting standards issued by the Institute of Chartered Accountants of India and other generally accepted accounting standards and principles (“Auditor’s Certificate”).

7. The Need and Rationale for the Scheme:

The management of the Company is of the view that the arrangement proposed in this Scheme is, in particular, expected to have the following benefits:

Amalgamation of identified entities

- a) Consolidation of Listed Amalgamating Companies, Unlisted Amalgamating Companies and Amalgamating Company 17 with the Amalgamated Company to have enhanced capability for offering diversified products and services in a unified entity. Its pooled resource base and client relationships are likely to result in better business potential and prospects for the consolidated entity and its stakeholders;
- b) The combined financial strength is expected to further accelerate the scaling up of the operations of the Amalgamated Company. Deployment of resources in a more efficient manner is likely to enable faster expansion of the business operations of the Amalgamated Company;
- c) The consolidation of funds and resources will lead to optimization of working capital requirement and consequent utilization, stronger financial leverage, improved balance sheet, and consolidation of cross location talent pool;
- d) Amalgamation of the Listed Amalgamating Companies, Unlisted Amalgamating Companies and Amalgamating Company 17 with the Amalgamated Company, will lead to a simplified and streamlined holding structure, reduction of multitude of entities thus help in easing and rationalizing the compliances;

Demerger of Real Estate Business Undertaking

- e) At present, the business operations of the Demerged Company can be bifurcated into following segments i.e., primary activity of real estate business, *inter-alia* comprising of activities in relation to development of identified land parcels / areas (“Real Estate Business Undertaking”) and residuary activities, amongst-others involving undertaking investments activities (“Non-Core Business Undertaking”);
- f) Management of Demerged Company believes that the nature of offerings and the risk and return profile of the Real Estate Business Undertaking of the Demerged Company, being its mainstay, is different vis-à-vis the Non-Core Business Undertaking;
- g) The Real Estate Business Undertaking represents an independent business division of Demerged Company housing a separate business portfolio, service offerings and functionality. Given the varied nature of activities, management of Demerged Company intends to segregate the Real Estate Business Undertaking from the consolidated entity, so as to achieve desired objectives to scale up the operations of investment activities and unlock the growth potential thereof.

Scheme is in compliance with the accounting standards prescribed under Section 133 of the Act read with applicable rules and/ or the accounting standards issued by the Institute of Chartered Accountants of India and other generally accepted accounting standards and principles ("Auditor's Certificate").

7. The Need and Rationale for the Scheme:

The management of the Company is of the view that the arrangement proposed in this Scheme is, in particular, expected to have the following benefits:

Amalgamation of identified entities

- a) Consolidation of Listed Amalgamating Companies, Unlisted Amalgamating Companies and Amalgamating Company 17 with the Amalgamated Company to have enhanced capability for offering diversified products and services in a unified entity. Its pooled resource base and client relationships are likely to result in better business potential and prospects for the consolidated entity and its stakeholders;
- b) The combined financial strength is expected to further accelerate the scaling up of the operations of the Amalgamated Company. Deployment of resources in a more efficient manner is likely to enable faster expansion of the business operations of the Amalgamated Company;
- c) The consolidation of funds and resources will lead to optimization of working capital requirement and consequent utilization, stronger financial leverage, improved balance sheet, and consolidation of cross location talent pool;
- d) Amalgamation of the Listed Amalgamating Companies, Unlisted Amalgamating Companies and Amalgamating Company 17 with the Amalgamated Company, will lead to a simplified and streamlined holding structure, reduction of multitude of entities thus help in easing and rationalizing the compliances;

Demerger of Real Estate Business Undertaking

- e) At present, the business operations of the Demerged Company can be bifurcated into following segments i.e., primary activity of real estate business, *inter-alia* comprising of activities in relation to development of identified land parcels / areas ("**Real Estate Business Undertaking**") and residuary activities, amongst-others involving undertaking investments activities ("**Non-Core Business Undertaking**");
- f) Management of Demerged Company believes that the nature of offerings and the risk and return profile of the Real Estate Business Undertaking of the Demerged Company, being its mainstay, is different vis-à-vis the Non-Core Business Undertaking;
- g) The Real Estate Business Undertaking represents an independent business division of Demerged Company housing a separate business portfolio, service offerings and functionality. Given the varied nature of activities, management of Demerged Company intends to segregate the Real Estate Business Undertaking from the consolidated entity, so as to achieve desired objectives to scale up the operations of investment activities and unlock the growth potential thereof.

8. Share Entitlement Ratio Report:

The share exchange ratios as per the Valuation Reports are as under (collectively, the "Share Exchange Ratios"):

9. Effect of the Scheme on the equity shareholders (promoter and non-promoter) of the Company:

The Board reviewed the documents placed in the meeting held on June 27, 2023, and was of the informed opinion that the Scheme is in the best interests of the Company and its shareholders and creditors. The impact of the Scheme on the shareholders including the promoter and public shareholders would be the same in all respects and no shareholder is expected to have any disproportionate advantage or disadvantage in any manner.

10. Effect of the Scheme on the KMPs of the Company:

There is no impact of the Scheme on the KMPs of the Company. Further, none of the KMPs have any interest in the Scheme except to the extent of shares held by them, if any, in the Participating Companies.

11. Effect of the Scheme on the Creditors of the Company:

There is no impact of the Scheme on the creditors of the Company. Further, none of the creditors have any interest in the Scheme except to the extent of shares held by them, if any, in any of the Participating Companies.

12. Adoption of the Report by the Board:

The Board of the Company has adopted this Report after noting and considering the information set forth in this Report and documents placed before the Board.

- c) The consolidation of funds and resources will lead to optimization of working capital requirement and consequent utilization, stronger financial leverage, improved balance sheet, and consolidation of cross location talent pool;
- d) Amalgamation of the Listed Amalgamating Companies, Unlisted Amalgamating Companies and Amalgamating Company 17 with the Amalgamated Company, will lead to a simplified and streamlined holding structure, reduction of multitude of entities thus help in easing and rationalizing the compliances.;

Demerger of Real Estate Business Undertaking

- e) At present, the business operations of the Demerged Company can be bifurcated into following segments i.e., primary activity of real estate business, *inter-alia* comprising of activities in relation to development of identified land parcels / areas ("**Real Estate Business Undertaking**") and residuary activities, amongst-others involving undertaking investments activities ("**Non-Core Business Undertaking**");
- f) Management of Demerged Company believes that the nature of offerings and the risk and return profile of the Real Estate Business Undertaking of the Demerged Company, being its mainstay, is different vis-à-vis the Non Core Business Undertaking;
- g) The Real Estate Business Undertaking represents an independent business division of Demerged Company housing a separate business portfolio, service offerings and functionality. Given the varied nature of activities, management of Demerged Company intends to segregate the Real Estate Business Undertaking from the consolidated entity, so as to achieve desired objectives to scale up the operations of investment activities and unlock the growth potential thereof.

5. As per section 232(2)(c) of the Act, a report is required to be adopted by the Board, explaining the effect of the Scheme on each class of shareholders, promoter and non-promoter shareholders and Key Managerial Personnel (“KMP”) laying out in particular to the share exchange ratios, specifying any special valuation difficulties.
6. The following documents were placed before the Board for its consideration:
 - (a) the draft of the proposed Scheme, duly initiated by Director of the Company for the purpose of identification;
 - (b) valuation reports dated June 27, 2023, issued by Mr. Akhil Bhalla, Registered Valuer (IBBI Registration No. IBBI/RV/14/2019/11684) for the determination of the share entitlement ratios under the Scheme (“**Valuation Reports**”);
 - (c) fairness opinion dated June 27, 2023, from M/s D & A Financial Services (P) Ltd., a SEBI registered Category-I Merchant Banker, confirming that the share exchange ratios in the Valuation Reports are fair to the Participating Companies and their respective shareholders and creditors (“**Fairness Opinion**”);
 - (d) the certificate dated June 27, 2023, from the statutory auditor of the Company, pursuant to paragraph A.5 of Part I of the SEBI Master Circular bearing reference No. SEBI/HO/CFD/POD-2/P/CIR/2023/93 dated June 20, 2023, certifying that the accounting treatment proposed in the Scheme is in compliance with the accounting standards prescribed under Section 133 of the Act read with applicable rules and/ or the accounting standards issued by the Institute of Chartered Accountants of India and other generally accepted accounting standards and principles (“**Auditor’s Certificate**”).

7. The Need and Rationale for the Scheme:

The management of the Company is of the view that the arrangement proposed in this Scheme is, in particular, expected to have the following benefits:

Amalgamation of identified entities

- a) Consolidation of Listed Amalgamating Companies, Unlisted Amalgamating Companies and Amalgamating Company 17 with the Amalgamated Company to have enhanced capability for offering diversified products and services in a unified entity. Its pooled resource base and client relationships are likely to result in better business potential and prospects for the consolidated entity and its stakeholders;
- b) The combined financial strength is expected to further accelerate the scaling up of the operations of the Amalgamated Company. Deployment of resources in a more efficient manner is likely to enable faster expansion of the business operations of the Amalgamated Company;

Indiabulls

- c) The consolidation of funds and resources will lead to optimization of working capital requirement and consequent utilization, stronger financial leverage, improved balance sheet, and consolidation of cross location talent pool;
- d) Amalgamation of the Listed Amalgamating Companies, Unlisted Amalgamating Companies and Amalgamating Company 17 with the Amalgamated Company, will lead to a simplified and streamlined holding structure, reduction of multitude of entities thus help in easing and rationalizing the compliances.;

Demerger of Real Estate Business Undertaking

- e) At present, the business operations of the Demerged Company can be bifurcated into following segments i.e., primary activity of real estate business, *inter-alia* comprising of activities in relation to development of identified land parcels / areas ("**Real Estate Business Undertaking**") and residuary activities, amongst-others involving undertaking investments activities ("**Non-Core Business Undertaking**");
- f) Management of Demerged Company believes that the nature of offerings and the risk and return profile of the Real Estate Business Undertaking of the Demerged Company, being its mainstay, is different vis-à-vis the Non-Core Business Undertaking;
- g) The Real Estate Business Undertaking represents an independent business division of Demerged Company housing a separate business portfolio, service offerings and functionality. Given the varied nature of activities, management of Demerged Company intends to segregate the Real Estate Business Undertaking from the consolidated entity, so as to achieve desired objectives to scale up the operations of investment activities and unlock the growth potential thereof.

8. Share Entitlement Ratio Report:

The share exchange ratios as per the Valuation Reports are as under (collectively, the "**Share Exchange Ratios**"):

Part B

"294 equity shares of Yaari of INR 2/- each fully paid-up for every 100 equity shares of DSL of INR 2/- each fully paid-up"

"162 equity shares of Yaari of INR 2/- each fully paid-up for every 100 equity shares of DSL of INR 2/- each partly paid-up. The paid up value of partly paid up share is 55% i.e. INR 1.1. The exchange ratio has been computed in proportion to paid up value."

"110 equity shares of Yaari of INR 2/- each fully paid-up for every 100 equity shares of IEL of INR 2/- each fully paid-up"

- (g) the certificate dated June 27, 2023, from Agarwal Prakash & Co, Chartered Accountant, the statutory auditor of the Company, pursuant to paragraph A 5 of Part I of the SEBI Master Circular bearing reference No. SEBI/HO/CFD/POD-2/P/CIR/2023/93 dated June 20, 2023, certifying that the accounting treatment proposed in the Scheme is in compliance with the accounting standards prescribed under Section 133 of the Act read with applicable rules and/ or the accounting standards issued by the Institute of Chartered Accountants of India and other generally accepted accounting standards and principles ("Auditor's Certificate").

7. **The Need and Rationale for the Scheme:**

The management of the Company is of the view that the arrangement proposed in this Scheme is, in particular, expected to have the following benefits:

Amalgamation of identified entities

- a) Consolidation of Listed Amalgamating Companies, Unlisted Amalgamating Companies and Amalgamating Company 17 with the Amalgamated Company to have enhanced capability for offering diversified products and services in a unified entity. Its pooled resource base and client relationships are likely to result in better business potential and prospects for the consolidated entity and its stakeholders;

- b) The combined financial strength is expected to further accelerate the scaling up of the operations of the Amalgamated Company. Deployment of resources in a more efficient manner is likely to enable faster expansion of the business operations of the Amalgamated Company,
- c) The consolidation of funds and resources will lead to optimization of working capital requirement and consequent utilization, stronger financial leverage, improved balance sheet, and consolidation of cross location talent pool,
- d) Amalgamation of the Listed Amalgamating Company, Unlisted Amalgamating Company and Amalgamating Company 17 with the Amalgamated Company, will lead to a simplified and streamlined holding structure, reduction of multitude of entities thus help in easing and rationalizing the compliances.;

Demerger of Real Estate Business Undertaking

- e) At present, the business operations of the Demerged Company can be bifurcated into following segments i.e., primary activity of real estate business, *inter-alia* comprising of activities in relation to development of identified land parcels / areas ("Real Estate Business Undertaking") and residuary activities, amongst-others involving undertaking investments activities ("Non-Core Business Undertaking");
- f) Management of Demerged Company believes that the nature of offerings and the risk and return profile of the Real Estate Business Undertaking of the Demerged Company, being its mainstay, is different vis-à-vis the Non-Core Business Undertaking;
- g) The Real Estate Business Undertaking represents an independent business division of Demerged Company housing a separate business portfolio, service offerings and functionality. Given the varied nature of activities, management of Demerged Company intends to segregate the Real Estate Business Undertaking from the consolidated entity, so as to achieve desired objectives to scale up the operations of investment activities and unlock the growth potential thereof.

OBJECT OF THE ISSUE / PROPOSED SCHEME				
Details of means of finance, Name of monitoring agency etc. - Not applicable as Savren Medicare Limited is not offering securities / equity shares through an initial public offer to the public at large, pursuant to the Scheme.				
Details and reasons for non-deployment or delay in deployment of proceeds or changes in utilization of issue proceeds of past public issues / rights issue, if any, of the Company in the preceding 10 years: Not Applicable				
Rationale for the Scheme: The management of the respective Participating Companies are of the view that the arrangement proposed in this Scheme is, in particular, expected to have the following benefits:				
<u>Amalgamation of identified entities</u>				
a) Consolidation of Listed Amalgamating Companies, Unlisted Amalgamating Companies and Amalgamating Company 17 with the Amalgamated Company to have enhanced capability for offering diversified products and services in a unified entity. Its pooled resource base and client relationships are likely to result in better business potential and prospects for the consolidated entity and its stakeholders;				
b) The combined financial strength is expected to further accelerate the scaling up of the operations of the Amalgamated Company. Deployment of resources in a more efficient manner is likely to enable faster expansion of the business operations of the Amalgamated Company;				
c) The consolidation of funds and resources will lead to optimization of working capital requirement and consequent utilization, stronger financial leverage, improved balance sheet, and consolidation of cross location talent pool;				
d) Amalgamation of the Listed Amalgamating Companies, Unlisted Amalgamating Companies and Amalgamating Company 17 with the Amalgamated Company, will lead to a simplified and streamlined holding structure, reduction of multitude of entities thus help in easing and rationalizing the compliances.				
<u>Demerger of Real Estate Undertaking</u>				
e) At present, the business operations of the Demerged Company can be bifurcated into following segments i.e., primary activity of real estate business, inter-alia comprising of activities in relation to development of identified land parcels / areas ("Real Estate Business Undertaking") and residuary activities, amongst-others involving undertaking investments activities ("Non-Core Business Undertaking");				
f) Management of Demerged Company believes that the nature of offerings and the risk and return profile of the Real Estate Business Undertaking of the Demerged Company, being its mainstay, is different vis-à-vis the Non-Core Business Undertaking;				
g) The Real Estate Business Undertaking represents an independent business division of Demerged Company housing a separate business portfolio, service offerings and functionality. Given the varied nature of activities, management of Demerged Company intends to segregate the Real Estate Business Undertaking from the consolidated entity, so as to achieve desired objectives to scale up the operations of investment activities and unlock the growth potential thereof.				
In line with the above, management of the respective Participating Companies is of the view that this Scheme is in the interest of the customers, employees, lenders, shareholders and all other stakeholders of the respective Participating				

Companies. Furthermore, the Scheme will enable the synergies that exist between the businesses carried out by the Participating Companies in terms of services and resources to be used optimally for the benefit of their stakeholders.

OBJECT OF THE ISSUE / PROPOSED SCHEME				
Details of means of finance, Name of monitoring agency etc. - Not applicable as Auxesia Soft Solutions Limited is not offering securities / equity shares through an initial public offer to the public at large, pursuant to the Scheme.				
Details and reasons for non-deployment or delay in deployment of proceeds or changes in utilization of issue proceeds of past public issues / rights issue, if any, of the Company in the preceding 10 years: Not Applicable				
<p>Rationale for the Scheme: The management of the respective Participating Companies are of the view that the arrangement proposed in this Scheme is, in particular, expected to have the following benefits:</p> <p><u>Amalgamation of identified entities</u></p> <p>a) Consolidation of Listed Amalgamating Companies, Unlisted Amalgamating Companies and Amalgamating Company 17 with the Amalgamated Company to have enhanced capability for offering diversified products and services in a unified entity. Its pooled resource base and client relationships are likely to result in better business potential and prospects for the consolidated entity and its stakeholders;</p> <p>b) The combined financial strength is expected to further accelerate the scaling up of the operations of the Amalgamated Company. Deployment of resources in a more efficient manner is likely to enable faster expansion of the business operations of the Amalgamated Company;</p> <p>c) The consolidation of funds and resources will lead to optimization of working capital requirement and consequent utilization, stronger financial leverage, improved balance sheet, and consolidation of cross location talent pool;</p> <p>d) Amalgamation of the Listed Amalgamating Companies, Unlisted Amalgamating Companies and Amalgamating Company 17 with the Amalgamated Company, will lead to a simplified and streamlined holding structure, reduction of multitude of entities thus help in easing and rationalizing the compliances.</p> <p><u>Demerger of Real Estate Undertaking</u></p> <p>e) At present, the business operations of the Demerged Company can be bifurcated into following segments i.e., primary activity of real estate business, inter-alia comprising of activities in relation to development of identified land parcels / areas ("Real Estate Business Undertaking") and residuary activities, amongst-others involving undertaking investments activities ("Non-Core Business Undertaking");</p> <p>f) Management of Demerged Company believes that the nature of offerings and the risk and return profile of the Real Estate Business Undertaking of the Demerged Company, being its mainstay, is different vis-à-vis the Non-Core Business Undertaking;</p> <p>g) The Real Estate Business Undertaking represents an independent business division of Demerged Company housing a separate business portfolio, service offerings and functionality. Given the varied nature of activities, management of Demerged Company intends to segregate the Real Estate Business Undertaking from the consolidated entity, so as to achieve desired objectives to scale up the operations of investment activities and unlock the growth potential thereof.</p> <p>In line with the above, management of the respective Participating Companies is of the view that this Scheme is in the interest of the customers, employees, lenders, shareholders and all other stakeholders of the respective Participating Companies. Furthermore, the Scheme will enable the synergies that exist between the businesses carried out by the Participating Companies in terms of services and resources to be used optimally for the benefit of their stakeholders.</p>

OBJECT OF THE ISSUE / PROPOSED SCHEME

Details of means of finance, Name of monitoring agency etc. - Not applicable as Gyansagar Buildtech Limited is not offering securities / equity shares through an initial public offer to the public at large, pursuant to the Scheme.

Details and reasons for non-deployment or delay in deployment of proceeds or changes in utilization of issue proceeds of past public issues / rights issue, if any, of the Company in the preceding 10 years. Not Applicable

Rationale for the Scheme:

The management of the respective Participating Companies are of the view that the arrangement proposed in this Scheme is, in particular, expected to have the following benefits:

Amalgamation of identified entities

- Consolidation of Listed Amalgamating Companies, Unlisted Amalgamating Companies and Amalgamating Company 17 with the Amalgamated Company to have enhanced capability for offering diversified products and services in a unified entity. Its pooled resource base and client relationships are likely to result in better business potential and prospects for the consolidated entity and its stakeholders;
- The combined financial strength is expected to further accelerate the scaling up of the operations of the Amalgamated Company. Deployment of resources in a more efficient manner is likely to enable faster expansion of the business operations of the Amalgamated Company;
- The consolidation of funds and resources will lead to optimization of working capital requirement and consequent utilization, stronger financial leverage, improved balance sheet, and consolidation of cross location talent pool;
- Amalgamation of the Listed Amalgamating Companies, Unlisted Amalgamating Companies and Amalgamating Company 17 with the Amalgamated Company, will lead to a simplified and streamlined holding structure, reduction of multitude of entities thus help in easing and rationalizing the compliances.

Demerger of Real Estate Undertaking

- At present, the business operations of the Demerged Company can be bifurcated into following segments i.e., primary activity of real estate business, inter-alia comprising of activities in relation to development of identified

land parcels / areas ("Real Estate Business Undertaking") and residuary activities, amongst-others involving undertaking investments activities ("Non-Core Business Undertaking");

- f) Management of Demerged Company believes that the nature of offerings and the risk and return profile of the Real Estate Business Undertaking of the Demerged Company, being its mainstay, is different vis-à-vis the Non-Core Business Undertaking;
- g) The Real Estate Business Undertaking represents an independent business division of Demerged Company housing a separate business portfolio, service offerings and functionality. Given the varied nature of activities, management of Demerged Company intends to segregate the Real Estate Business Undertaking from the consolidated entity, so as to achieve desired objectives to scale up the operations of investment activities and unlock the growth potential thereof.

In line with the above, management of the respective Participating Companies is of the view that this Scheme is in the interest of the customers, employees, lenders, shareholders and all other stakeholders of the respective Participating Companies. Furthermore, the Scheme will enable the synergies that exist between the businesses carried out by the Participating Companies in terms of services and resources to be used optimally for the benefit of their stakeholders.

OBJECT OF THE ISSUE / PROPOSED SCHEME

Details of means of finance, Name of monitoring agency etc. - Not applicable as Pushpanjli Finsolutions Limited is not offering securities / equity shares through an initial public offer to the public at large, pursuant to the Scheme.

Details and reasons for non-deployment or delay in deployment of proceeds or changes in utilization of issue proceeds of past public issues / rights issue, if any, of the Company in the preceding 10 years: Not Applicable

Rationale for the Scheme:

The management of the respective Participating Companies are of the view that the arrangement proposed in this Scheme is, in particular, expected to have the following benefits:

Amalgamation of identified entities

- Consolidation of Listed Amalgamating Companies, Unlisted Amalgamating Companies and Amalgamating Company 17 with the Amalgamated Company to have enhanced capability for offering diversified products and services in a unified entity. Its pooled resource base and client relationships are likely to result in better business potential and prospects for the consolidated entity and its stakeholders;
- The combined financial strength is expected to further accelerate the scaling up of the operations of the Amalgamated Company. Deployment of resources in a more efficient manner is likely to enable faster expansion of the business operations of the Amalgamated Company;
- The consolidation of funds and resources will lead to optimization of working capital requirement and consequent utilization, stronger financial leverage, improved balance sheet, and consolidation of cross location talent pool;
- Amalgamation of the Listed Amalgamating Companies, Unlisted Amalgamating Companies and Amalgamating Company 17 with the Amalgamated Company, will lead to a simplified and streamlined holding structure, reduction of multitude of entities thus help in easing and rationalizing the compliances.

Demerger of Real Estate Undertaking

- At present, the business operations of the Demerged Company can be bifurcated into following segments i.e., primary activity of real estate business, inter-alia comprising of activities in relation to development of identified land parcels / areas ("Real Estate Business Undertaking") and residuary activities, amongst-others involving undertaking investments activities ("Non-Core Business Undertaking");
- Management of Demerged Company believes that the nature of offerings and the risk and return profile of the Real Estate Business Undertaking of the Demerged Company, being its mainstay, is different vis-à-vis the Non-Core Business Undertaking;

- g) The Real Estate Business Undertaking represents an independent business division of Demerged Company housing a separate business portfolio, service offerings and functionality. Given the varied nature of activities, management of Demerged Company intends to segregate the Real Estate Business Undertaking from the consolidated entity, so as to achieve desired objectives to scale up the operations of investment activities and unlock the growth potential thereof.

In line with the above, management of the respective Participating Companies is of the view that this Scheme is in the interest of the customers, employees, lenders, shareholders and all other stakeholders of the respective Participating Companies. Furthermore, the Scheme will enable the synergies that exist between the businesses carried out by the Participating Companies in terms of services and resources to be used optimally for the benefit of their stakeholders.

OBJECT OF THE ISSUE / PROPOSED SCHEME				
Details of means of finance, Name of monitoring agency etc. - Not applicable as Devata Tradelink Limited is not offering securities / equity shares through an initial public offer to the public at large, pursuant to the Scheme.				

Details and reasons for non-deployment or delay in deployment of proceeds or changes in utilization of issue proceeds of past public issues / rights issue, if any, of the Company in the preceding 10 years: Not Applicable

Rationale for the Scheme:

The management of the respective Participating Companies are of the view that the arrangement proposed in this Scheme is, in particular, expected to have the following benefits:

Amalgamation of identified entities

- a) Consolidation of Listed Amalgamating Companies, Unlisted Amalgamating Companies and Amalgamating Company 17 with the Amalgamated Company to have enhanced capability for offering diversified products and services in a unified entity. Its pooled resource base and client relationships are likely to result in better business potential and prospects for the consolidated entity and its stakeholders;
- b) The combined financial strength is expected to further accelerate the scaling up of the operations of the Amalgamated Company. Deployment of resources in a more efficient manner is likely to enable faster expansion of the business operations of the Amalgamated Company;
- c) The consolidation of funds and resources will lead to optimization of working capital requirement and consequent utilization, stronger financial leverage, improved balance sheet, and consolidation of cross location talent pool;
- d) Amalgamation of the Listed Amalgamating Companies, Unlisted Amalgamating Companies and Amalgamating Company 17 with the Amalgamated Company, will lead to a simplified and streamlined holding structure, reduction of multitude of entities thus help in easing and rationalizing the compliances.

Demerger of Real Estate Undertaking

- e) At present, the business operations of the Demerged Company can be bifurcated into following segments i.e., primary activity of real estate business, inter-alia comprising of activities in relation to development of identified land parcels / areas ("Real Estate Business Undertaking") and residuary activities, amongst-others involving undertaking investments activities ("Non-Core Business Undertaking");
- f) Management of Demerged Company believes that the nature of offerings and the risk and return profile of the Real Estate Business Undertaking of the Demerged Company, being its mainstay, is different vis-à-vis the Non-Core Business Undertaking;
- g) The Real Estate Business Undertaking represents an independent business division of Demerged Company housing a separate business portfolio, service offerings and functionality. Given the varied nature of activities, management of Demerged Company intends to segregate the Real Estate Business Undertaking from the consolidated entity, so as to achieve desired objectives to scale up the operations of investment activities and unlock the growth potential thereof.

In line with the above, management of the respective Participating Companies is of the view that this Scheme is in the interest of the customers, employees, lenders, shareholders and all other stakeholders of the respective Participating Companies. Furthermore, the Scheme will enable the synergies that exist between the businesses carried out by the Participating Companies in terms of services and resources to be used optimally for the benefit of their stakeholders.

OBJECT OF THE ISSUE / PROPOSED SCHEME

Details of means of finance, Name of monitoring agency etc. - Not applicable as Evinos Developers Limited is not offering securities / equity shares through an initial public offer to the public at large, pursuant to the Scheme.

Details and reasons for non-deployment or delay in deployment of proceeds or changes in utilization of issue proceeds of past public issues / rights issue, if any, of the Company in the preceding 10 years: Not Applicable

Rationale for the Scheme:

The management of the respective Participating Companies are of the view that the arrangement proposed in this Scheme is, in particular, expected to have the following benefits:

Amalgamation of identified entities

- Consolidation of Listed Amalgamating Companies, Unlisted Amalgamating Companies and Amalgamating Company 17 with the Amalgamated Company to have enhanced capability for offering diversified products and services in a unified entity. Its pooled resource base and client relationships are likely to result in better business potential and prospects for the consolidated entity and its stakeholders;
- The combined financial strength is expected to further accelerate the scaling up of the operations of the Amalgamated Company. Deployment of resources in a more efficient manner is likely to enable faster expansion of the business operations of the Amalgamated Company;
- The consolidation of funds and resources will lead to optimization of working capital requirement and consequent utilization, stronger financial leverage, improved balance sheet, and consolidation of cross location talent pool;
- Amalgamation of the Listed Amalgamating Companies, Unlisted Amalgamating Companies and Amalgamating Company 17 with the Amalgamated Company, will lead to a simplified and streamlined holding structure, reduction of multitude of entities thus help in easing and rationalizing the compliances.

Demerger of Real Estate Undertaking

- At present, the business operations of the Demerged Company can be bifurcated into following segments i.e., primary activity of real estate business, inter-alia comprising of activities in relation to development of identified land parcels / areas ("Real Estate Business Undertaking") and residuary activities, amongst-others involving undertaking investments activities ("Non-Core Business Undertaking");
- Management of Demerged Company believes that the nature of offerings and the risk and return profile of the Real Estate Business Undertaking of the Demerged Company, being its mainstay, is different vis-à-vis the Non-Core Business Undertaking;
- The Real Estate Business Undertaking represents an independent business division of Demerged Company housing a separate business portfolio, service offerings and functionality. Given the varied nature of activities, management of Demerged Company intends to segregate the Real Estate Business Undertaking from the consolidated entity, so

as to achieve desired objectives to scale up the operations of investment activities and unlock the growth potential thereof.

In line with the above, management of the respective Participating Companies is of the view that this Scheme is in the interest of the customers, employees, lenders, shareholders and all other stakeholders of the respective Participating Companies. Furthermore, the Scheme will enable the synergies that exist between the businesses carried out by the Participating Companies in terms of services and resources to be used optimally for the benefit of their stakeholders.

OBJECT OF THE ISSUE / PROPOSED SCHEME

Details of means of finance, Name of monitoring agency etc. - Not applicable as Milky Way Buildcon Limited is not offering securities / equity shares through an initial public offer to the public at large, pursuant to the Scheme.

Details and reasons for non-deployment or delay in deployment of proceeds or changes in utilization of issue proceeds of past public issues / rights issue, if any, of the Company in the preceding 10 years: Not Applicable

Rationale for the Scheme:

The management of the respective Participating Companies are of the view that the arrangement proposed in this Scheme is, in particular, expected to have the following benefits:

Amalgamation of identified entities

- a) Consolidation of Listed Amalgamating Companies, Unlisted Amalgamating Companies and Amalgamating Company 17 with the Amalgamated Company to have enhanced capability for offering diversified products and services in a unified entity. Its pooled resource base and client relationships are likely to result in better business potential and prospects for the consolidated entity and its stakeholders;
- b) The combined financial strength is expected to further accelerate the scaling up of the operations of the Amalgamated Company. Deployment of resources in a more efficient manner is likely to enable faster expansion of the business operations of the Amalgamated Company;
- c) The consolidation of funds and resources will lead to optimization of working capital requirement and consequent utilization, stronger financial leverage, improved balance sheet, and consolidation of cross location talent pool;

- d) Amalgamation of the Listed Amalgamating Companies, Unlisted Amalgamating Companies and Amalgamating Company 17 with the Amalgamated Company, will lead to a simplified and streamlined holding structure, reduction of multitude of entities thus help in easing and rationalizing the compliances.

Demerger of Real Estate Undertaking

- e) At present, the business operations of the Demerged Company can be bifurcated into following segments i.e., primary activity of real estate business, inter-alia comprising of activities in relation to development of identified land parcels / areas ("Real Estate Business Undertaking") and residuary activities, amongst-others involving undertaking investments activities ("Non-Core Business Undertaking");
- f) Management of Demerged Company believes that the nature of offerings and the risk and return profile of the Real Estate Business Undertaking of the Demerged Company, being its mainstay, is different vis-à-vis the Non-Core Business Undertaking;
- g) The Real Estate Business Undertaking represents an independent business division of Demerged Company housing a separate business portfolio, service offerings and functionality. Given the varied nature of activities, management of Demerged Company intends to segregate the Real Estate Business Undertaking from the consolidated entity, so as to achieve desired objectives to scale up the operations of investment activities and unlock the growth potential thereof.

In line with the above, management of the respective Participating Companies is of the view that this Scheme is in the interest of the customers, employees, lenders, shareholders and all other stakeholders of the respective Participating Companies. Furthermore, the Scheme will enable the synergies that exist between the businesses carried out by the Participating Companies in terms of services and resources to be used optimally for the benefit of their stakeholders.

OBJECT OF THE ISSUE / PROPOSED SCHEME

Details of means of finance, Name of monitoring agency etc. - Not applicable as Indiabulls Consumer Products Limited is not offering securities / equity shares through an initial public offer to the public at large, pursuant to the Scheme.

Details and reasons for non-deployment or delay in deployment of proceeds or changes in utilization of issue proceeds of past public issues / rights issue, if any, of the Company in the preceding 10 years: Not Applicable

Rationale for the Scheme:

The management of the respective Participating Companies are of the view that the arrangement proposed in this Scheme is, in particular, expected to have the following benefits:

Amalgamation of identified entities

- a) Consolidation of Listed Amalgamating Companies, Unlisted Amalgamating Companies and Amalgamating Company 17 with the Amalgamated Company to have enhanced capability for offering diversified products and services in a unified entity. Its pooled resource base and client relationships are likely to result in better business potential and prospects for the consolidated entity and its stakeholders;
- b) The combined financial strength is expected to further accelerate the scaling up of the operations of the Amalgamated Company. Deployment of resources in a more efficient manner is likely to enable faster expansion of the business operations of the Amalgamated Company;
- c) The consolidation of funds and resources will lead to optimization of working capital requirement and consequent utilization, stronger financial leverage, improved balance sheet, and consolidation of cross location talent pool;
- d) Amalgamation of the Listed Amalgamating Companies, Unlisted Amalgamating Companies and Amalgamating Company 17 with the Amalgamated Company, will lead to a simplified and streamlined holding structure, reduction of multitude of entities thus help in easing and rationalizing the compliances.

Demerger of Real Estate Undertaking

- e) At present, the business operations of the Demerged Company can be bifurcated into following segments i.e., primary activity of real estate business, inter-alia comprising of activities in relation to development of identified land parcels / areas ("Real Estate Business Undertaking") and residuary activities, amongst-others involving undertaking investments activities ("Non-Core Business Undertaking");
- f) Management of Demerged Company believes that the nature of offerings and the risk and return profile of the Real Estate Business Undertaking of the Demerged Company, being its mainstay, is different vis-à-vis the Non-Core Business Undertaking;
- g) The Real Estate Business Undertaking represents an independent business division of Demerged Company housing a separate business portfolio, service offerings and functionality. Given the varied nature of activities, management of Demerged Company intends to segregate the Real Estate Business Undertaking from the consolidated entity, so as to achieve desired objectives to scale up the operations of investment activities and unlock the growth potential thereof.

In line with the above, management of the respective Participating Companies is of the view that this Scheme is in the interest of the customers, employees, lenders, shareholders and all other stakeholders of the respective Participating Companies. Furthermore, the Scheme will enable the synergies that exist between the businesses carried out by the Participating Companies in terms of services and resources to be used optimally for the benefit of their stakeholders.

OBJECT OF THE ISSUE / PROPOSED SCHEME

Details of means of finance, Name of monitoring agency etc. - Not applicable as Indiabulls Infra Resources Limited is not offering securities / equity shares through an initial public offer to the public at large, pursuant to the Scheme.

Details and reasons for non-deployment or delay in deployment of proceeds or changes in utilization of issue proceeds of past public issues / rights issue, if any, of the Company in the preceding 10 years: Not Applicable

Rationale for the Scheme:

The management of the respective Participating Companies are of the view that the arrangement proposed in this Scheme is, in particular, expected to have the following benefits:

Amalgamation of identified entities

- a) Consolidation of Listed Amalgamating Companies, Unlisted Amalgamating Companies and Amalgamating Company 17 with the Amalgamated Company to have enhanced capability for offering diversified products and services in a unified entity. Its pooled resource base and client relationships are likely to result in better business potential and prospects for the consolidated entity and its stakeholders;
- b) The combined financial strength is expected to further accelerate the scaling up of the operations of the Amalgamated Company. Deployment of resources in a more efficient manner is likely to enable faster expansion of the business operations of the Amalgamated Company;
- c) The consolidation of funds and resources will lead to optimization of working capital requirement and consequent utilization, stronger financial leverage, improved balance sheet, and consolidation of cross location talent pool;
- d) Amalgamation of the Listed Amalgamating Companies, Unlisted Amalgamating Companies and Amalgamating Company 17 with the Amalgamated Company, will lead to a simplified and streamlined holding structure, reduction of multitude of entities thus help in easing and rationalizing the compliances.

Demerger of Real Estate Undertaking

- e) At present, the business operations of the Demerged Company can be bifurcated into following segments i.e., primary activity of real estate business, inter-alia comprising of activities in relation to development of identified land parcels / areas ("Real Estate Business Undertaking") and residuary activities, amongst-others involving undertaking investments activities ("Non-Core Business Undertaking");
- f) Management of Demerged Company believes that the nature of offerings and the risk and return profile of the Real Estate Business Undertaking of the Demerged Company, being its mainstay, is different vis-à-vis the Non-Core Business Undertaking;
- g) The Real Estate Business Undertaking represents an independent business division of Demerged Company housing a separate business portfolio, service offerings and functionality. Given the varied nature of activities, management of Demerged Company intends to segregate the Real Estate Business Undertaking from the consolidated entity, so

as to achieve desired objectives to scale up the operations of investment activities and unlock the growth potential thereof.

In line with the above, management of the respective Participating Companies is of the view that this Scheme is in the interest of the customers, employees, lenders, shareholders and all other stakeholders of the respective Participating Companies. Furthermore, the Scheme will enable the synergies that exist between the businesses carried out by the Participating Companies in terms of services and resources to be used optimally for the benefit of their stakeholders.

OBJECT OF THE ISSUE / PROPOSED SCHEME

Details of means of finance, Name of monitoring agency etc. - Not applicable as Jwala Technology Systems Private Limited is not offering securities / equity shares through an initial public offer to the public at large, pursuant to the Scheme.

Details and reasons for non-deployment or delay in deployment of proceeds or changes in utilization of issue proceeds of past public issues / rights issue, if any, of the Company in the preceding 10 years: Not Applicable

Rationale for the Scheme:

The management of the respective Participating Companies are of the view that the arrangement proposed in this Scheme is, in particular, expected to have the following benefits:

Amalgamation of identified entities

- a) Consolidation of Listed Amalgamating Companies, Unlisted Amalgamating Companies and Amalgamating Company 17 with the Amalgamated Company to have enhanced capability for offering diversified products and services in a unified entity. Its pooled resource base and client relationships are likely to result in better business potential and prospects for the consolidated entity and its stakeholders;
- b) The combined financial strength is expected to further accelerate the scaling up of the operations of the Amalgamated Company. Deployment of resources in a more efficient manner is likely to enable faster expansion of the business operations of the Amalgamated Company;
- c) The consolidation of funds and resources will lead to optimization of working capital requirement and consequent utilization, stronger financial leverage, improved balance sheet, and consolidation of cross location talent pool;
- d) Amalgamation of the Listed Amalgamating Companies, Unlisted Amalgamating Companies and Amalgamating Company 17 with the Amalgamated Company, will lead to a simplified and streamlined holding structure, reduction of multitude of entities thus help in easing and rationalizing the compliances.

Demerger of Real Estate Undertaking

- e) At present, the business operations of the Demerged Company can be bifurcated into following segments i.e., primary activity of real estate business, inter-alia comprising of activities in relation to development of identified land parcels / areas ("Real Estate Business Undertaking") and residuary activities, amongst-others involving undertaking investments activities ("Non-Core Business Undertaking");
- f) Management of Demerged Company believes that the nature of offerings and the risk and return profile of the Real Estate Business Undertaking of the Demerged Company, being its mainstay, is different vis-à-vis the Non-Core Business Undertaking;
- g) The Real Estate Business Undertaking represents an independent business division of Demerged Company housing a separate business portfolio, service offerings and functionality. Given the varied nature of activities, management of Demerged Company intends to segregate the Real Estate Business Undertaking from the consolidated entity, so as to achieve desired objectives to scale up the operations of investment activities and unlock the growth potential thereof.

In line with the above, management of the respective Participating Companies is of the view that this Scheme is in the interest of the customers, employees, lenders, shareholders and all other stakeholders of the respective Participating Companies. Furthermore, the Scheme will enable the synergies that exist between the businesses carried out by the Participating Companies in terms of services and resources to be used optimally for the benefit of their stakeholders.

OBJECT OF THE ISSUE / PROPOSED SCHEME

Details of means of finance, Name of monitoring agency etc. - Not applicable as Mabon Properties Limited is not offering securities / equity shares through an initial public offer to the public at large, pursuant to the Scheme.

Details and reasons for non-deployment or delay in deployment of proceeds or changes in utilization of issue proceeds of past public issues / rights issue, if any, of the Company in the preceding 10 years: Not Applicable

Rationale for the Scheme:

The management of the respective Participating Companies are of the view that the arrangement proposed in this Scheme is, in particular, expected to have the following benefits:

Amalgamation of identified entities

- a) Consolidation of Listed Amalgamating Companies, Unlisted Amalgamating Companies and Amalgamating Company 17 with the Amalgamated Company to have enhanced capability for offering diversified products and services in a unified entity. Its pooled resource base and client relationships are likely to result in better business potential and prospects for the consolidated entity and its stakeholders;
- b) The combined financial strength is expected to further accelerate the scaling up of the operations of the Amalgamated Company. Deployment of resources in a more efficient manner is likely to enable faster expansion of the business operations of the Amalgamated Company;
- c) The consolidation of funds and resources will lead to optimization of working capital requirement and consequent utilization, stronger financial leverage, improved balance sheet, and consolidation of cross location talent pool;
- d) Amalgamation of the Listed Amalgamating Companies, Unlisted Amalgamating Companies and Amalgamating Company 17 with the Amalgamated Company, will lead to a simplified and streamlined holding structure, reduction of multitude of entities thus help in easing and rationalizing the compliances.

Demerger of Real Estate Undertaking

- e) At present, the business operations of the Demerged Company can be bifurcated into following segments i.e., primary activity of real estate business, inter-alia comprising of activities in relation to development of identified land parcels / areas ("Real Estate Business Undertaking") and residuary activities, amongst-others involving undertaking investments activities ("Non-Core Business Undertaking");
- f) Management of Demerged Company believes that the nature of offerings and the risk and return profile of the Real Estate Business Undertaking of the Demerged Company, being its mainstay, is different vis-à-vis the Non-Core Business Undertaking;
- g) The Real Estate Business Undertaking represents an independent business division of Demerged Company housing a separate business portfolio, service offerings and functionality. Given the varied nature of activities, management

of Demerged Company intends to segregate the Real Estate Business Undertaking from the consolidated entity, so as to achieve desired objectives to scale up the operations of investment activities and unlock the growth potential thereof.

In line with the above, management of the respective Participating Companies is of the view that this Scheme is in the interest of the customers, employees, lenders, shareholders and all other stakeholders of the respective Participating Companies. Furthermore, the Scheme will enable the synergies that exist between the businesses carried out by the Participating Companies in terms of services and resources to be used optimally for the benefit of their stakeholders.

OBJECT OF THE ISSUE / PROPOSED SCHEME

Details of means of finance, Name of monitoring agency etc. - Not applicable as YDI Consumer India Limited is not offering securities / equity shares through an initial public offer to the public at large, pursuant to the Scheme.

Details and reasons for non-deployment or delay in deployment of proceeds or changes in utilization of issue proceeds of past public issues / rights issue, if any, of the Company in the preceding 10 years: Not Applicable

Rationale for the Scheme:

The management of the respective Participating Companies are of the view that the arrangement proposed in this Scheme is, in particular, expected to have the following benefits:

Amalgamation of identified entities

- Consolidation of Listed Amalgamating Companies, Unlisted Amalgamating Companies and Amalgamating Company 17 with the Amalgamated Company to have enhanced capability for offering diversified products and services in a unified entity. Its pooled resource base and client relationships are likely to result in better business potential and prospects for the consolidated entity and its stakeholders;
- The combined financial strength is expected to further accelerate the scaling up of the operations of the Amalgamated Company. Deployment of resources in a more efficient manner is likely to enable faster expansion of the business operations of the Amalgamated Company;
- The consolidation of funds and resources will lead to optimization of working capital requirement and consequent utilization, stronger financial leverage, improved balance sheet, and consolidation of cross location talent pool;

- d) Amalgamation of the Listed Amalgamating Companies, Unlisted Amalgamating Companies and Amalgamating Company 17 with the Amalgamated Company, will lead to a simplified and streamlined holding structure, reduction of multitude of entities thus help in easing and rationalizing the compliances.

Demerger of Real Estate Undertaking

- e) At present, the business operations of the Demerged Company can be bifurcated into following segments i.e., primary activity of real estate business, inter-alia comprising of activities in relation to development of identified land parcels / areas ("Real Estate Business Undertaking") and residuary activities, amongst-others involving undertaking investments activities ("Non-Core Business Undertaking");
- f) Management of Demerged Company believes that the nature of offerings and the risk and return profile of the Real Estate Business Undertaking of the Demerged Company, being its mainstay, is different vis-à-vis the Non-Core Business Undertaking;
- g) The Real Estate Business Undertaking represents an independent business division of Demerged Company housing a separate business portfolio, service offerings and functionality. Given the varied nature of activities, management of Demerged Company intends to segregate the Real Estate Business Undertaking from the consolidated entity, so as to achieve desired objectives to scale up the operations of investment activities and unlock the growth potential thereof.

In line with the above, management of the respective Participating Companies is of the view that this Scheme is in the interest of the customers, employees, lenders, shareholders and all other stakeholders of the respective Participating Companies. Furthermore, the Scheme will enable the synergies that exist between the businesses carried out by the Participating Companies in terms of services and resources to be used optimally for the benefit of their stakeholders.

OBJECT OF THE ISSUE / PROPOSED SCHEME

Details of means of finance, Name of monitoring agency etc. - Not applicable as Indiabulls General Insurance Limited is not offering securities / equity shares through an initial public offer to the public at large, pursuant to the Scheme.

Details and reasons for non-deployment or delay in deployment of proceeds or changes in utilization of issue proceeds of past public issues / rights issue, if any, of the Company in the preceding 10 years: Not Applicable

Rationale for the Scheme:

The management of the respective Participating Companies are of the view that the arrangement proposed in this Scheme is, in particular, expected to have the following benefits:

Amalgamation of identified entities

- Consolidation of Listed Amalgamating Companies, Unlisted Amalgamating Companies and Amalgamating Company 17 with the Amalgamated Company to have enhanced capability for offering diversified products and services in a unified entity. Its pooled resource base and client relationships are likely to result in better business potential and prospects for the consolidated entity and its stakeholders;
- The combined financial strength is expected to further accelerate the scaling up of the operations of the Amalgamated Company. Deployment of resources in a more efficient manner is likely to enable faster expansion of the business operations of the Amalgamated Company;
- The consolidation of funds and resources will lead to optimization of working capital requirement and consequent utilization, stronger financial leverage, improved balance sheet, and consolidation of cross location talent pool;
- Amalgamation of the Listed Amalgamating Companies, Unlisted Amalgamating Companies and Amalgamating Company 17 with the Amalgamated Company, will lead to a simplified and streamlined holding structure, reduction of multitude of entities thus help in easing and rationalizing the compliances.

Demerger of Real Estate Undertaking

- At present, the business operations of the Demerged Company can be bifurcated into following segments i.e., primary activity of real estate business, inter-alia comprising of activities in relation to development of identified land parcels / areas ("Real Estate Business Undertaking") and residuary activities, amongst-others involving undertaking investments activities ("Non-Core Business Undertaking");
- Management of Demerged Company believes that the nature of offerings and the risk and return profile of the Real Estate Business Undertaking of the Demerged Company, being its mainstay, is different vis-à-vis the Non-Core Business Undertaking;
- The Real Estate Business Undertaking represents an independent business division of Demerged Company housing a separate business portfolio, service offerings and functionality. Given the varied nature of activities, management

of Demerged Company intends to segregate the Real Estate Business Undertaking from the consolidated entity, so as to achieve desired objectives to scale up the operations of investment activities and unlock the growth potential thereof.

In line with the above, management of the respective Participating Companies is of the view that this Scheme is in the interest of the customers, employees, lenders, shareholders and all other stakeholders of the respective Participating Companies. Furthermore, the Scheme will enable the synergies that exist between the businesses carried out by the Participating Companies in terms of services and resources to be used optimally for the benefit of their stakeholders.

OBJECT OF THE ISSUE / PROPOSED SCHEME

Details of means of finance, Name of monitoring agency etc. - Not applicable as Indiabulls Life Insurance Company Limited is not offering securities / equity shares through an initial public offer to the public at large, pursuant to the Scheme.

Details and reasons for non-deployment or delay in deployment of proceeds or changes in utilization of issue proceeds of past public issues / rights issue, if any, of the Company in the preceding 10 years: Not Applicable

Rationale for the Scheme:

The management of the respective Participating Companies are of the view that the arrangement proposed in this Scheme is, in particular, expected to have the following benefits:

Amalgamation of identified entities

- a) Consolidation of Listed Amalgamating Companies, Unlisted Amalgamating Companies and Amalgamating Company 17 with the Amalgamated Company to have enhanced capability for offering diversified products and services in a

unified entity. Its pooled resource base and client relationships are likely to result in better business potential and prospects for the consolidated entity and its stakeholders;

- b) The combined financial strength is expected to further accelerate the scaling up of the operations of the Amalgamated Company. Deployment of resources in a more efficient manner is likely to enable faster expansion of the business operations of the Amalgamated Company;
- c) The consolidation of funds and resources will lead to optimization of working capital requirement and consequent utilization, stronger financial leverage, improved balance sheet, and consolidation of cross location talent pool;
- d) Amalgamation of the Listed Amalgamating Companies, Unlisted Amalgamating Companies and Amalgamating Company 17 with the Amalgamated Company, will lead to a simplified and streamlined holding structure, reduction of multitude of entities thus help in easing and rationalizing the compliances.

Demerger of Real Estate Undertaking

- e) At present, the business operations of the Demerged Company can be bifurcated into following segments i.e., primary activity of real estate business, inter-alia comprising of activities in relation to development of identified land parcels / areas ("Real Estate Business Undertaking") and residuary activities, amongst-others involving undertaking investments activities ("Non-Core Business Undertaking");
- f) Management of Demerged Company believes that the nature of offerings and the risk and return profile of the Real Estate Business Undertaking of the Demerged Company, being its mainstay, is different vis-à-vis the Non-Core Business Undertaking;
- g) The Real Estate Business Undertaking represents an independent business division of Demerged Company housing a separate business portfolio, service offerings and functionality. Given the varied nature of activities, management of Demerged Company intends to segregate the Real Estate Business Undertaking from the consolidated entity, so as to achieve desired objectives to scale up the operations of investment activities and unlock the growth potential thereof.

In line with the above, management of the respective Participating Companies is of the view that this Scheme is in the interest of the customers, employees, lenders, shareholders and all other stakeholders of the respective Participating Companies. Furthermore, the Scheme will enable the synergies that exist between the businesses carried out by the Participating Companies in terms of services and resources to be used optimally for the benefit of their stakeholders.

a) Consolidation of Listed Amalgamating Companies, Unlisted Amalgamating Companies and Amalgamating Company 17 with the Amalgamated Company to have enhanced capability for offering diversified products and services in a unified entity. Its pooled resource base and client relationships are likely to result in better business potential and prospects for the consolidated entity and its stakeholders;				
b) The combined financial strength is expected to further accelerate the scaling up of the operations of the Amalgamated Company. Deployment of resources in a more efficient manner is likely to enable faster expansion of the business operations of the Amalgamated Company;				
c) The consolidation of funds and resources will lead to optimization of working capital requirement and consequent utilization, stronger financial leverage, improved balance sheet, and consolidation of cross location talent pool;				
d) Amalgamation of the Listed Amalgamating Companies, Unlisted Amalgamating Companies and Amalgamating Company 17 with the Amalgamated Company, will lead to a simplified and streamlined holding structure, reduction of multitude of entities thus help in easing and rationalizing the compliances.				
<u>Demerger of Real Estate Undertaking</u>				
e) At present, the business operations of the Demerged Company can be bifurcated into following segments i.e., primary activity of real estate business, inter-alia comprising of activities in relation to development of identified land parcels / areas ("Real Estate Business Undertaking") and residuary activities, amongst-others involving undertaking investments activities ("Non-Core Business Undertaking");				
f) Management of Demerged Company believes that the nature of offerings and the risk and return profile of the Real Estate Business Undertaking of the Demerged Company, being its mainstay, is different vis-à-vis the Non-Core Business Undertaking;				

- g) The Real Estate Business Undertaking represents an independent business division of Demerged Company housing a separate business portfolio, service offerings and functionality. Given the varied nature of activities, management of Demerged Company intends to segregate the Real Estate Business Undertaking from the consolidated entity, so as to achieve desired objectives to scale up the operations of investment activities and unlock the growth potential thereof.

In line with the above, management of the respective Participating Companies is of the view that this Scheme is in the interest of the customers, employees, lenders, shareholders and all other stakeholders of the respective Participating Companies. Furthermore, the Scheme will enable the synergies that exist between the businesses carried out by the Participating Companies in terms of services and resources to be used optimally for the benefit of their stakeholders.

- b) The combined financial strength is expected to further accelerate the scaling up of the operations of the Amalgamated Company. Deployment of resources in a more efficient manner is likely to enable faster expansion of the business operations of the Amalgamated Company;
- c) The consolidation of funds and resources will lead to optimization of working capital requirement and consequent utilization, stronger financial leverage, improved balance sheet, and consolidation of cross location talent pool;
- d) Amalgamation of the Listed Amalgamating Companies, Unlisted Amalgamating Companies and Amalgamating Company 17 with the Amalgamated Company, will lead to a simplified and streamlined holding structure, reduction of multitude of entities thus help in easing and rationalizing the compliances.

Demerger of Real Estate Undertaking

- e) At present, the business operations of the Demerged Company can be bifurcated into following segments i.e., primary activity of real estate business, inter-alia comprising of activities in relation to development of identified land parcels / areas ("Real Estate Business Undertaking") and residuary activities, amongst-others involving undertaking investments activities ("Non-Core Business Undertaking");
- f) Management of Demerged Company believes that the nature of offerings and the risk and return profile of the Real Estate Business Undertaking of the Demerged Company, being its mainstay, is different vis-à-vis the Non-Core Business Undertaking;
- g) The Real Estate Business Undertaking represents an independent business division of Demerged Company housing a separate business portfolio, service offerings and functionality. Given the varied nature of activities, management of Demerged Company intends to segregate the Real Estate Business Undertaking from the consolidated entity, so as to achieve desired objectives to scale up the operations of investment activities and unlock the growth potential thereof.

In line with the above, management of the respective Participating Companies is of the view that this Scheme is in the interest of the customers, employees, lenders, shareholders and all other stakeholders of the respective Participating Companies.

Furthermore, the Scheme will enable the synergies that exist between the businesses carried out by the Participating Companies in terms of services and resources to be used optimally for the benefit of their stakeholders.

OBJECT OF THE ISSUE / PROPOSED SCHEME

Details of means of finance, Name of monitoring agency etc. - Not applicable as Indiabulls Pharmicare Limited is not offering securities / equity shares through an initial public offer to the public at large, pursuant to the Scheme.

Details and reasons for non-deployment or delay in deployment of proceeds or changes in utilization of issue proceeds of past public issues / rights issue, if any, of the Company in the preceding 10 years: Not Applicable

Rationale for the Scheme:

The management of the respective Participating Companies are of the view that the arrangement proposed in this Scheme is, in particular, expected to have the following benefits:

Amalgamation of identified entities

- Consolidation of Listed Amalgamating Companies, Unlisted Amalgamating Companies and Amalgamating Company 17 with the Amalgamated Company to have enhanced capability for offering diversified products and services in a unified entity. Its pooled resource base and client relationships are likely to result in better business potential and prospects for the consolidated entity and its stakeholders;
- The combined financial strength is expected to further accelerate the scaling up of the operations of the Amalgamated Company. Deployment of resources in a more efficient manner is likely to enable faster expansion of the business operations of the Amalgamated Company;
- The consolidation of funds and resources will lead to optimization of working capital requirement and consequent utilization, stronger financial leverage, improved balance sheet, and consolidation of cross location talent pool;
- Amalgamation of the Listed Amalgamating Companies, Unlisted Amalgamating Companies and Amalgamating Company 17 with the Amalgamated Company, will lead to a simplified and streamlined holding structure, reduction of multitude of entities thus help in easing and rationalizing the compliances.

Demerger of Real Estate Undertaking

- e) At present, the business operations of the Demerged Company can be bifurcated into following segments i.e., primary activity of real estate business, inter-alia comprising of activities in relation to development of identified land parcels / areas ("Real Estate Business Undertaking") and residuary activities, amongst-others involving undertaking investments activities ("Non-Core Business Undertaking");
- f) Management of Demerged Company believes that the nature of offerings and the risk and return profile of the Real Estate Business Undertaking of the Demerged Company, being its mainstay, is different vis-à-vis the Non-Core Business Undertaking;
- g) The Real Estate Business Undertaking represents an independent business division of Demerged Company housing a separate business portfolio, service offerings and functionality. Given the varied nature of activities, management of Demerged Company intends to segregate the Real Estate Business Undertaking from the consolidated entity, so as to achieve desired objectives to scale up the operations of investment activities and unlock the growth potential thereof.

In line with the above, management of the respective Participating Companies is of the view that this Scheme is in the interest of the customers, employees, lenders, shareholders and all other stakeholders of the respective Participating Companies. Furthermore, the Scheme will enable the synergies that exist between the businesses carried out by the Participating Companies in terms of services and resources to be used optimally for the benefit of their stakeholders.

14.	Comparison of revenue and net worth of demerged undertaking with the total revenue and net worth of the listed entity in last three financial years.	<ul style="list-style-type: none"> The comparison of revenue and net worth of demerged undertaking i.e., the Real Estate Business Undertaking of India Land Hotels Mumbai Private Limited with that of Yaari Digital Integrated Services Limited / Amalgamated Company / Resulting Company 2, for last three financial years i.e., FY2020-21, FY2021-22 and FY2022-23, is annexed herewith as Annexure 6.
15.	Detailed rationale for arriving at the swap ratio for issuance of shares as proposed in the draft scheme of arrangement by the Board of Directors of the listed company.	<ul style="list-style-type: none"> The Board of Directors of the listed entity being Dhani Services Limited / Amalgamating Company 1 has taken into consideration the fair valuation exercise carried out by independent valuers to arrive at the swap ratio for the purpose of the proposed Scheme of Arrangement. Further, the valuation report and swap ratio mentioned thereunder have been considered and corroborated by a fairness opinion issued by a SEBI Registered Category – I Merchant Banker. It is pertinent to mention that the valuation report and the proposed swap ratio has been duly considered and adopted by the Audit Committee as well as by the Independent Directors of listed entity.
16.	In case of Demerger, basis for division of assets and liabilities between divisions of Demerged entity.	<ul style="list-style-type: none"> It is humbly submitted that assets and liabilities of the Demerged Company / India Land Hotels Mumbai Private Limited, has been bifurcated between the demerged undertaking viz. Real Estate Business Undertaking and other than demerged undertaking / other business undertaking, primarily on the basis of activities carried out by the entity and the usage / application of assets and the purpose for which the liabilities have been incurred. All real estate related business operation and allied activities are classified as part of the "Real Estate Business Undertaking". Consequently, all other activities are bifurcated and considered as part of "other business undertaking". Considering the same and also adopting prudent accounting principles, the financials including the carved out financials of the Demerged Company are prepared in a manner that provide for bifurcation of assets and liabilities between the demerged undertaking viz. Real Estate Business Undertaking and other than demerged undertaking / other business undertaking. To keep uniformity in accounting, same principle as used for bifurcation of assets

17.	How the scheme will be beneficial to public shareholders of the Listed entity and details of change in value of public shareholders pre and post scheme of arrangement.	<ul style="list-style-type: none"> At present, the shareholders of respective listed entities derive their value from the underlying activities/ businesses of the concerned listed entities, i.e.,: <ul style="list-style-type: none"> Dhani Services Limited / Amalgamating Company 1 [DSL] together with its subsidiaries is engaged in diversified business viz. functions as a data driven technology company and functioning as NBFC, e-commerce entities, Digital Wallet provider, Stock-Brokers, Commodities Broker, Depository Services, ARCs, as well as engaged in the real estate business; Indiabulls Enterprises Limited / Amalgamating Company 2 [IEL] together with its subsidiaries is authorised to carry on the business of equipment renting and leasing, management, maintenance services. Yaari Digital Integrated Services Limited / Amalgamated Company / Resulting Company 2 [Yaari] is engaged in the business of promoting digital financial and other solutions and also has proprietary rights in digital platform 'Yaari'. Boards of companies involved in the Scheme expects that with the consolidation of all listed entities and their identified subsidiaries under a unified entity, Yaari, the gamut of operations and service offerings shall improve, thus contributing towards overall value enhancement of all the stakeholders of the Companies (including the public shareholders of respective companies). It is expected that the consolidated entity would generate benefits in terms of consolidation of resources and synergies, and aid in faster expansion of business operations and at the same time reap benefits from optimisation of compliance requirements/ associated costs. Further, the consolidation of funds and resources will lead to optimization of working capital requirement and consequent utilization, stronger financial leverage, improved balance sheet, and consolidation of cross location talent pool. Given that the unified entity, viz. Yaari, shall house multiple businesses, this would enable better risk allocation and diversification over wider and multiple sectors / activities, consequently aiding in mitigating sector specific / cy-

4. The management is also responsible for ensuring that the Company complies with the requirements of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended, (“SEBI LODR”), the Act & rules thereunder and other applicable laws, in relation to the proposed Scheme and for providing all the information to SEBI, Stock Exchanges and any other statutory authorities.

Auditor's responsibility

5. Pursuant to the requirements of the Scheme, it is our responsibility to provide a limited assurance as to whether information and details related to share capital build-up as on March 31, 2023 mentioned in accompanying Statement have been accurately extracted from and as per the relevant records and documents of the Company.
6. We have conducted our examination in accordance with the Guidance Note on Reports or Certificates for Special Purposes (Revised 2016) and the applicable Generally Accepted Auditing Standards issued by the Institute of Chartered Accountants of India (“ICAI”). The Guidance Note requires that we comply with the ethical requirements of the Code of Ethics issued by the ICAI.
7. We have complied with the relevant applicable requirements of Standard on Quality Control (SQC) 1, Quality Control for Firms that Perform Audits and Reviews of Historical Financial Information, and other Assurance and Related Services Engagement, issued by the ICAI.
8. A limited assurance engagement involves performing procedures to obtain sufficient appropriate evidence on the reporting criteria mentioned in paragraph 5 above. The procedures selected depend on the auditor's judgement, including the assessment of the risk associated with the reporting criteria. We have performed the following procedures in relation to the Statement:
 - i. Traced/verified the financials and other information related to share capital build-up as on March 31, 2023 stated in the accompanying Statement with the relevant records and documents maintained by the Company;
 - ii. Obtained audited Financial Statements of the Company for the financial years ended March 31, 2009, March 31, 2010, March 31, 2011 and March 31, 2023;
 - iii. 2 Returns of Allotment in Form 2 for allotment of equity shares on July 23, 2009 and November 24, 2010; and
 - iv. Verified the arithmetical accuracy of the Statement; and
 - v. Obtained necessary representations from the management.

Opinion

9. Based on our examination, as stated above, nothing has come to our attention that causes us to believe that, the share capital build up details of the Company as on March 31, 2023 as stated in the accompanying Statement have been accurately extracted from and as per the relevant records and documents of the Company.

10. This certificate is provided solely to comply with requirements and submission to Securities and Exchange Board of India ("SEBI"), the BSE Limited and National Stock Exchange of India Limited ("Stock Exchanges"), or any other regulatory authorities pursuant to the requirements of the Companies Act, 2013, and circulars issued by SEBI from time to time as may be required to give effect to the Scheme of Arrangement. Accordingly, this certificate may not be suitable for any other purpose, and should not be used, referred to or distributed for any other purpose or to any other party without any prior written consent.

Sub: Reply to query number 20 by BSE vide mail dated 29 September 2023

Ladies and Gentlemen,

I, Akhil Bhalla, Registered Valuer with Insolvency & Bankruptcy Board of India vide registration no. IBBI/RV/14/2019/11684 (hereinafter referred to as the "**Valuer**" or "**I**" or "**me**" or "**RV**") was retained as Valuer jointly by Dhani Services Limited (hereinafter referred to as "**DSL**" or "**Amalgamating Company 1**"), Indiabulls Enterprises Limited (hereinafter referred to as "**IEL**" or "**Amalgamating Company 2**") and Yaari Digital Integrated Services Limited (hereinafter referred to as "**YDISL**" or "**Yaari**" or "**Amalgamated Company**" / "**Resulting Company 2**"), vide engagement letter dated 05 June 2023, for the recommendation of fair exchange ratio for the Proposed Amalgamation of DSL and IEL into Yaari (collectively referred to as the "**Clients**" or the "**Companies**") as per the draft Scheme of Arrangement (referred to as the "**Scheme**").

Accordingly, I submitted the Report dated 27 June 2023, for the recommendation of fair exchange ratio for the Proposed Amalgamation.

As per the communication received from the management of the Yaari, DSL and IEL, I understand that the BSE Limited ("**BSE**") have raised certain queries on the scheme and have sought clarification on certain points including the following,

"Query No. 20. Revenue, PAT and EBIDTA (in value and percentage terms) details of entities involved in the scheme for all the number of years considered for valuation. Reasons justifying the EBIDTA/PAT margin considered in the valuation report".

Having regard to the aforementioned communications from the BSE, I am writing to provide an reply to the above query as under:

Company	Clarification on Revenue, PAT and EBITDA
Indiabulls Distribution Services Limited	The Company is engaged primarily in the business of underwriting/distribution of real estate projects on behalf of developers, and related services. The company had been incurring losses historically due to economic slowdown due to COVID and the business is in revival mode after COVID and real estate market has started showing significant growth from mid of FY 2023. Considering the economic and industry growth and nature of expenses (mostly the administrative cost) the management is confident to achieve higher revenue growth and expect reasonably lower corresponding expenses (not in line with revenue), which, in turn will result in projected improved EBITDA and PAT margins during explicit forecast period.
Indiabulls Alternate Investments Limited	The company is engaged primarily in the business of raising or acquiring funds for and managing mutual funds, venture capital funds, offshore funds, pension funds, insurance funds, alternate investment funds or any other funds. The company had been incurring losses historically due to economic slowdown due to COVID and the business is in revival mode after COVID. Considering the economic and industry growth and nature of expenses the management is confident to achieve higher revenue growth and expect reasonably lower corresponding expenses (not in line with revenue), which, in turn will result in projected improved EBITDA and PAT margins during explicit forecast period
Indiabulls Investment Advisors Limited	The Company is engaged in investment advisors and/or distributor for all third party products in financial service sector including insurance products. Historically company has very low EBITDA margins on account of low revenue and high fixed costs. Considering the economic and industry growth and nature of expenses the management is confident to achieve higher revenue growth and expect reasonably lower corresponding expenses (not in line with revenue), which, in turn will result in projected improved EBITDA and PAT margins during explicit forecast period
Dhani Healthcare Limited (formerly Pushpanjli Fincon Limited)	Historically the company was engaged in healthcare sector but the object clause of the company has been changed to add real estate development from FY 2023-24. The company has entered into an agreement to develop a real estate project and as on date there is only one project in hand of the company. 2 ASSUMPTIONS, DISCLAIMERS & CAVEATS

2.1 General

Value Assessment Subject to Change:	Premise 1 - This value assessment exercise is based on prevailing market dynamics as of the date of value assessment and does not consider any unforeseeable developments which could impact the same in the future.
Our Investigations:	Premise 2 - We are not engaged to carry out all possible investigations concerning the subject assets. Where in our report we identify certain limitations to our investigations, this is to enable the reliant party to instruct further investigations were considered appropriate or where we recommend as necessary before reliance. We are not liable for any loss occasioned by a decision not to conduct further investigations.
Assumptions:	Premise 3 - Assumptions are a necessary part of undertaking value assessments. We adopt assumptions to provide value assessment advice because some matters are not capable of accurate calculation or fall outside the scope of our expertise or our instructions. The reliant party accepts that the value assessment contains certain specific assumptions and acknowledges and accepts the risk that if any of the assumptions adopted in the assessment are incorrect, then this may affect the assessed value.
Information Supplied by Others:	Premise 4 - This valuation is based on the information provided to us. The same has been assumed to be correct and has been used for the appraisal exercise. Where it is stated in the report that another party has supplied information to us, this information is believed to be reliable, but we can accept no responsibility if this should prove not to be so.
Future Matters:	Premise 5 - To the extent that the value assessment includes any statement as to a future matter, that statement is provided as an estimate and/or opinion, based on the information known to us at the date of this document. We do not warrant that such statements are accurate or correct.
Valuation Methodology:	Premise 6 - For this exercise, a specific valuation methodology has been used, based on the relevant data and applicability of a specific methodology to a particular or particular set of assets. All methodologies adopted are as per the International Valuation Standard guidelines. Reliance has been placed upon external sources of information in applying the valuation methodologies, unless otherwise specifically instructed by Client and/or stated in the valuation, we have not independently verified that information and do not advise nor accept it as reliable. The person or entity to whom the report is addressed acknowledges and accepts the risk that if any of the unverified information in the valuation is incorrect, then this may affect the value assessment.
Regulatory Approvals:	Premise 7 - We have assumed that all necessary approvals (if and as applicable) such as approvals from Inspector of Factories, Consent to Establish from competent authorities, Pollution Control Board, Local Nodal Agency, Water & Sewerage Board, Ministry of Environment, Fire Department, etc. have already been received from relevant authorities and the same has been considered for this exercise. We have not made any further inquiries with relevant authorities to validate the legality of the same.
Legal:	Premise 8 - We have not made any allowances concerning any existing or proposed local legislation relating to taxation on the realization of the sale value for the assets. We are not required to give testimony or to appear in court because of this value assessment report, concerning the assets in question.
Pecuniary interest:	Premise 9 - The valuer has no interest in the subject property. The valuer's fee is not contingent upon any aspect of the report.
The value uncertainty:	Premise 10 - The valuation is not a precise science and the conclusions arrived at in many cases will be subjective and dependent on the exercise of individual judgment. Hence, there is no indisputable single value. Whilst we consider our conclusions to be both reasonable and defensible based on the information available to us, others may place a different value based on the same information.
Validity:	Premise 11 - This valuation report should be read in conjunction with the assumptions, disclaimers, and limiting conditions detailed throughout this report which are made in addition to those included within the Assumptions, Disclaimers & caveats section located within this report. This valuation is for the use of the addressee and anyone necessitated by the law. This report should not be used for any purposes other than the intended one. No responsibility is accepted to any third party who may use or rely on the whole or any part of the content of this valuation.
Change of opinion:	Premise 12 - We reserve our rights to change our conclusion at a later date if it is found that the data provided to us was not reliable, complete, or accurate in any material aspect.

3 INTRODUCTION

3.1 Instruction

Adroit Appraisers & Research Private Limited ("Adroit") has been instructed by Indiabulls Pharmacare Limited (hereinafter referred as 'IPL' or 'Client 1') and India Land Hotels Mumbai Private Limited (hereinafter referred as 'ILHMPL' or 'Client 2') (jointly the 'Client') to assess the fair value of land belonging to ILHMPL.

3.2 Purpose

We understand that the appraisal is required by the Client with respect to some proposed demerger of real estate business undertaking of Client 2 to the Client 1.

3.3 Scope of valuation

The valuation has been undertaken to ascertain the fair value of the subject land given the prevailing market conditions. In consideration of the same, a detailed assessment of the site and surroundings has been undertaken concerning the prevalent activities, change in dynamics impacting the values, and optimal use of the subject property vis-à-vis the surrounding micro-markets and other associated attributes.

A primary research exercise has been carried out in the catchment area and the competing micro-markets to ascertain the prevalent activity levels in terms of market dynamics and achievable market values for the subject property. This has been achieved through interactions with various market players such as local real estate brokers, developers, etc and from online available sources for similar asset transaction in the nearby localities.

3.4 Critical assumptions

All factual details concerning the subject land have been referred from TSR report and all the FSI calculations and proposed development on the said plot are considered as per the 'Architect certificate' provided to us by the Client. For the current exercise, we have adopted 31st March 2023 as the date of valuation. Further, we understand that the opined value herein shall have a negligible impact for the period elapsed between the date of valuation and the date of the report.

3.5 Extension of liability and confidentiality

This valuation report is confidential and is for the sole usage of the addressee or any party necessitated by the law; no other party shall have any right to rely on the appraisal provided by us without prior written consent. Our liability is extended to the Client only and any other parties (affiliates, designates, assignees, rating agencies, auditors, prospective investors, and investors) relying on our report may do so on their own accord. We would neither be liable nor answerable to them in any manner whatsoever. The Client agrees that any third party who receives valuation report from the client shall be advised in writing by the client that: (i) the liability of the valuer is limited to the Client only, (ii) no accountability, obligation, or liability to any third parties is accepted. This valuation report is provided subject to the assumptions, disclaimers, and limiting conditions detailed throughout this report and to those included within the 'Assumptions, Disclaimers, and Limiting Conditions' section of this report.

3.6 Valuer's interest

We hereby certify that the valuer(s) is/are suitably qualified and authorized to practice as a valuer; does not have a pecuniary interest, financial or otherwise, that could conflict with the proper valuation of the Property (including the parties with whom my client is dealing, including the lender or selling agent, if any); accepts instructions to value the Property only from the instructing party.

4 VALUATION RATIONALE

4.1 Valuation bases

Bases of value (sometimes called standards of value) describe the fundamental premises on which the reported values will be based. It is critical that the basis (or bases) of value be appropriate to the terms and purpose of the valuation assignment, as a basis of value may influence or dictate a valuer's selection of methods, inputs and assumptions, and the ultimate opinion of value.

IVS-defined bases of value:

1. Market value
2. Market rent
3. Equitable value
4. Investment value/worth
5. Synergistic value and
6. Liquidation value.

Following the engagement, the following valuation bases have been considered-

4.2 Equitable Value

Equitable value is the estimated price for the transfer of an asset or liability between identified knowledgeable and willing parties that reflects the respective interests of those parties.

Equitable value requires the assessment of the price that is fair between two specific, identified parties considering the respective advantages or disadvantages that each will gain from the transaction. In contrast, market value requires any advantages or disadvantages that would not be available to, or incurred by, market participants generally to be disregarded.

Equitable value is a broader concept than market value. Although in many cases the price that is fair between two parties will equate to that obtainable in the market, there will be cases where the assessment of equitable value will involve taking into account matters that have to be disregarded in the assessment of market value, such as certain elements of synergistic value arising because of the combination of the interests.

4.3 Premise of value

The premise of Value refers to the conditions and circumstances of how an asset is deployed. In a given set of circumstances, a single premise of value may be adopted while in some situations multiple premises of value may be adopted. Some common premises of value are as follows:

- a) highest and best use;
- b) going concern value;
- c) as is where is value;
- d) orderly liquidation; or
- e) forced transaction.

For this engagement, we have considered the 'Highest and Best Use' premise for value assessment. Considering the asset its highest and best use is an IT/ITES space subject to the conversion and permission from concern authorities.

4.4 Currency of valuation

The currency of valuation is INR unless otherwise mentioned.

4.5 Valuation approaches and methods

Following the International Valuation Standard-105, the following valuation approaches and methods can be used-

4.5.1 Market approach

The market approach provides an indication of value by comparing the asset with identical or comparable (that is similar) assets for which price information is available.

The market approach should be applied and afforded significant weight under the following circumstances:

- (a) the subject asset has recently been sold in a transaction appropriate for consideration under the basis of value,
- (b) the subject asset or substantially similar assets are actively publicly traded, and/or
- (c) there are frequent and/or recent observable transactions in substantially similar assets

The following valuation methods are commonly used under the market approach:

4.5.1.1 Market Approach Methods

A valuer shall consider the traded price observed over a reasonable period while valuing assets that are traded in the active market.

A valuer shall also consider the market where the trading volume of an asset is the highest when such an asset is traded in more than one active market.

A valuer shall use the average price of the asset over a reasonable period. The valuer should consider using a weighted average or volume-weighted average to reduce the impact of volatility or any one-time event in the asset.

In order to compare the subject of the valuation with the price of the other real property interests, valuers adopt generally accepted and appropriate units of comparison that are considered by participants, dependent upon the type of asset being valued. Units of comparison that are commonly used include:

- a. Price per square meter (or per square feet) of a building or per hectare/ acre for land,
- b. Price per room, and
- c. Price per unit of output, e.g., crop yields

As per IVS 400 differences that should be considered in valuing interests include, but are not limited to:

- a. The type of interest providing the price evidence and the type of interest being valued,
- b. The respective locations,
- c. The respective quality of the land or the age and specification of the buildings,
- d. The permitted use or zoning at each property,
- e. The circumstances under which the price was determined, and the basis of value required,
- f. The effective date of the price evidence and the valuation date, and market conditions at the time of the relevant transactions and how they differ from conditions at the valuation date.

In 'Direct Comparison Approach', the subject property is compared to similar properties that have actually been sold in an arms-length transaction or are offered for sale (after deducting for value of built-up structure located thereon). This technique demonstrates what buyers have historically been willing to pay (and sellers/landlords willing to accept) for similar properties in an open and competitive market and is particularly useful in estimating the value of land that is typically traded as open plots or with structures thereon.

Post obtaining the values of property which have been transacted or are offered for sale, as discussed above, a fair transaction value is determined based on the prevailing market dynamics.

4.5.1.2 Guideline publicly traded comparable method.

The guideline publicly traded method utilises information on publicly-traded comparables that are the same or similar to the subject asset to arrive at an indication of value.

4.5.1.3 Comparable Transactions Method

The comparable transactions method, also known as the guideline transactions method, utilises information on transactions involving assets that are the same or similar to the subject asset to arrive at an indication of value.

4.5.2 Income approach

Some of the common valuation methods under the income approach are as follows:

4.5.2.1 Discounted Cash Flow ('DCF') Method

The DCF method values the asset by discounting the cash flows expected to be generated by the asset for the explicit forecast period and also the perpetuity value (or terminal value) in case of assets with an indefinite life.

4.5.2.2 Relief from Royalty (RFR) Method

RFR Method is a method in which the value of the asset is estimated based on the present value of royalty payments saved by owning the asset instead of taking it on lease. It is generally adopted for valuing intangible assets that are subject to licensing, such as trademarks, patents, brands, etc.

The fundamental assumption underlying this method is that if the intangible asset to be valued had to be licensed from a third-party owner there shall be a royalty charge for use of such an asset. By owning the said intangible asset, royalty outgo is avoided. The value under this method is equal to the present value of the license fees/royalty avoided by owning the asset over its remaining useful life.

4.5.2.3 Multi-Period Excess Earnings Method (MEEM)

MEEM is generally used for valuing intangible asset that is leading or the most significant intangible asset out of a group of intangible assets being valued.

The fundamental concept underlying this method is to segregate the earnings attributable to the intangible asset being valued. Intangible assets that have a finite life can only be used to value using MEEM. The value under this method is equal to the present value of the incremental after-tax cash flows ('excess earnings') attributable to the intangible asset to be valued over its remaining useful life.

4.5.2.4 With and Without Method (WWM)

Under WWM, the value of the intangible asset to be valued as equal to the present value of the difference between the projected cash flows over the remaining useful life of the asset under the following two scenarios:

- a) business with all assets in place including the intangible asset to be valued; and
- b) business with all assets in place except the intangible asset to be valued.

4.5.3 Cost approach

The cost approach is a valuation approach that reflects the amount that would be required currently to replace the service capacity of an asset (often referred to as current replacement cost).

The cost approach is a real estate valuation method that surmises that the price a buyer should pay for a piece of property should equal the cost to build an equivalent building. In cost approach appraisal, the market price for the property is equal to the cost of land plus cost of construction, less depreciation. It yields the most accurate market value when the property is new.

This approach is generally applied to the valuation of real property interests through the DRC (Depreciated Replacement Cost) method. As per IVS, Depreciated Replacement Cost (DRC) is defined as "an acceptable method Ref. No.: AARPL/JUN/2023/0581

used in financial reporting to arrive at a surrogate for the market Value of specialized and limited market properties, for which market evidence is unavailable. DRC is based on an estimate of the market Value for the existing use (MVEU) of the land plus the current gross replacement (or reproduction) costs of improvements less allowances for physical deterioration and all relevant forms of obsolescence and optimization (IVS 2, Valuation Bases Other Than Market Value, para.3.8). DRC may be described either as a valuation methodology or as a basis for value/defined value.”

In certain situations, the historical cost of the asset may be considered by the valuer where it has been prescribed by the applicable regulations/law/guidelines or is appropriate considering the nature of the asset.

Examples of situations where a valuer applies the cost approach are:

- a) an asset can be quickly recreated with substantially the same utility as the asset to be valued;
- b) in the case where liquidation value is to be determined; or
- c) income approach and/or market approach cannot be used.

The following are the two most commonly used valuation methods under the Cost approach:

4.5.4 Replacement Cost Method

Replacement Cost Method, also known as ‘Depreciated Replacement Cost Method’ involves valuing an asset based on the cost that a market participant shall have to incur to recreate an asset with substantially the same utility (comparable utility) as that of the asset to be valued, adjusted for obsolescence.

The physical properties of the new asset may or may not be similar to the one under the valuation, but the former asset should bear comparable utility. Obsolescence includes physical deterioration, functional (technological), and economic obsolescence. The term obsolescence connotes a wider meaning than the term depreciation adopted for financial reporting or tax purposes.

4.5.5 Reproduction Cost Method

Reproduction Cost Method involves valuing an asset based on the cost that a market participant shall have to incur to recreate a replica of the asset to be valued, adjusted for obsolescence.

4.6 Methodology adopted

We acknowledge that the approaches to valuation differ considerably and that for a particular purpose alternative approaches to valuation can be utilized and giving due consideration to the property under the purview of this valuation. The subject property has been ascertained using residual method which is a hybrid of the market approach, the income approach, and the cost approach. This is based on the completed “gross development value” and the deduction of development costs and the developer’s return to arrive at the residual value of the development property. The Underlying assumption is that ‘the estimated value on completion is based on the special assumption that the project is completed in accordance with the defined plans and specification on the anticipated date of completion’.

5.2 Location Analysis

5.2.1 Macro Overview

Mumbai also known as Bombay is the capital city of the Indian state of Maharashtra. According to the United Nations, as of 2018, Mumbai is the second-most populous city in the country after Delhi and the seventh-most populous city in the world with a population of roughly 20 million. As per Indian government population census of 2011, Mumbai was the most populous city in India with an estimated city proper population of 12.5 million living under Municipal Corporation of Greater Mumbai. Mumbai is the centre of the Mumbai Metropolitan Region, the sixth most populous metropolitan area in the world with a population of over 23 million. Mumbai lies on the Konkan coast on the west coast of India and has a deep natural harbour. In 2008, Mumbai was named an alpha world city. It has the highest number of millionaires and billionaires among all cities in India. Mumbai is home to three UNESCO World Heritage Sites: the Elephanta Caves, Chhatrapati Shivaji Maharaj Terminus, and the city's distinctive ensemble of Victorian and Art Deco buildings.

5.2.2 Micro overview

Prabhadevi is a small up-scale southern neighbourhood of Mumbai, situated between Dadar to the north, Worli to the south and the Arabian Sea to the west. The area derives its name from the 300year old Prabhavati temple located in the locality. Prabhadevi starts at Sayani Road Junction and ends at Babasaheb Worlikar Chowk.

Prabhadevi is largely a residential area, consisting mostly of newly built apartments and high rises. One of Prabhadevi's most important landmark is Siddhivinayak Temple, which attracts thousands of devotees every day, Tuesday being the main day of prayer. Numerous BEST buses ply in the Prabhadevi region. Prabhadevi is not directly served by the local train the nearest station is Prabhadevi on the Western line and Parel on the Central line; which was previously known as Parel-Elphinston Road railway station.

5.4 Legal Details

As per the TSR provided to us for the subject property, ownership of the subject land is in favour of M/s India Land Hotels Mumbai Private Ltd. However as per the information furnished in the TSR provided the company was previous named as Bhagat Leasing Limited which was changed to M/s India Land Hotels Mumbai Pvt. Ltd. with effect from 16/04/2009.

S.P. Bhagat Group and Talwar Group held M/s Shirin Enterprises as partner's/Shareholders. M/s Shirin Enterprises used to own the subject Land. Certain disputes arose between the shareholders, in the dispute matter the subject was referred to arbitrator and an award was passed on 8th November 1993 whereby the sadhana talwar of Talwar Group was left with no right, claim or interest in the shrin enterprises thus leaving M/s Bhagat Leasing Limited as sole proprietor of Shirin enterprises and absolute owner of the said land.

5.5 Statutory assessment

5.5.1 Zoning

As per the Development Plan Department (DP Remarks 2034), the following zoning details have been obtained. The Plot No. for the subject Plot is 936 and as per the plan the Plot is currently an amenity Plot.

5.5.2 Current usage

Based on the information provided by the client and site visit, it is understood that the subject property is a vacant land parcel and as per the information received from Development plan department website-Mumbai, I understand that the subject property is an 'amenity Plot' for now, considering the designated use.

5.6 Valuation

5.6.1 Valuation approach

The Hypothetical development considered for deriving residual value involve following assumptions and approach:

1. We have assumed the development of the plot as per the proposed change of land use, as informed and specified in the architect development Plan for the subject land, which is "Commercial-retail spaces" and "IT/ITES space" from the current defined use as "amenity Plot" (refer 5.5.2).
2. The commercial space is assumed to be develop into 'Retail and restaurant Space'.
3. The plinth area rate for the Retail Space (on Built-up area) is arrived using the current market value using the Market Approach. The Current market rate thus derived is escalated at 5% till the period the realisation of the retail space will take place.
4. The ITES/IT Space so to be created are considered to be sold in the projected time and the rate for the spaces are considered using the 'Market value' as the basis. subsequently the market rate derived is escalated at 5% every year for the market fluctuation.
5. The factors which have a significant effect on market value are as follows-
 - a. Location- Buildings, real estate and properties, located in commercial and market areas, hold higher value than their counterparts in the residential areas. It is common to find brokers quoting a higher price for buildings in well-developed and approved colonies and areas as against those in the lesser developed and upcoming areas. Similarly, buildings which are constructed on freehold land tend to command a higher valuation than those on leasehold plots.

- b. Amenities- The valuation of properties with better infrastructural capabilities and modern amenities are costlier than those which fail to provide proper electric connections, telephone lines, water sewerage facilities and all other infrastructure such as community centres, children parks, swimming pools, gymnasiums, parking lots or general stores. Valuation of property is clearly based on the availability of necessities and facilities connected with comfortable housing.
- c. Infrastructure- Infrastructural development is one of the most important factors which influence real estate prices in India. The presence of roads, airports, flyovers, malls and bus terminals and other facilities in the vicinity of the property, helps in value escalation of the same.
- d. Commercial Real Estate- The development of malls, IT offices and Special Economic Zones near residential areas help in cutting down the time and energy wasted in commuting to workplaces and increase the price of real estate in the area.
- e. Disposable income- Properties which are located in agricultural areas or those dominated by manufacturing units attract a lower price than those situated near the IT hubs. The valuation of property is in direct proportion to the quantum of disposable income in the hands of the purchaser or the majority of population in that area.
- f. Availability of land- In places where there is ample land available for residential purposes or development of real estate, the graph reflecting the valuation of property shows a slower rise than in areas where land is comparatively scarce.
- g. Demand and supply- Demand for real estate in a particular area is inversely proportional to its supply. As the supply or availability of real estate decreases, the valuation of property increases. Changes in population are the key drivers for demand. Along with an increase in the number of people inhabiting a particular area, the popularity of a particular locality in terms of people wanting to be a part of the locality also increases its price.
- h. Affordability- Affordability refers to the cost incurred by the owner in the process of enjoying or retaining a property. In layman's term, it is the term which establishes a relationship between interest rates, property prices and wages. If any of above three variables reach their maximum level in a particular area, then the inhabitants start looking towards a better lifestyle elsewhere.
- i. Structure- The valuation of property is dependent on the specifications of materials used, layout, design, durability, and life cycle of the building. The quality and cost of materials during construction, size, current rates of labour, frontage and other physical attributes such as roof covering, height of the building, type of foundation, waterproofing and plinth level, also affect the price of a particular property.
- j. Customization- The cost of real estate becomes higher in the event of builders undertaking customization of residential space on the lines of the purchaser's requirements. For example, some investors may want landscaped terraces or verandas connected with their apartments, upgraded kitchens, specifically designed internal stairways in duplex apartments, higher quality paint and flooring, or other user defined changes. This leads to an escalation in the ultimate price charged to the buyer.

5.6.2 Area assumptions:

All the Calculation for area is considered as per the information furnished in the architect certificate issued by Ar. Indraneel Chandratre (For Mi Plus Design Consultant LLP) in accordance with the amended DCPR-2034. We have relied on the information in the certificate refer (exhibit 6.1).
