2. We rely on third parties for manufacturing of products for our Company

Our Company is engaged in the pharmaceutical business and selling its products in the State of Gujarat, Maharashtra, Rajasthan, UP, West Bengal, Andra Pradesh, Telengna, Karnataka and Madhya Pradesh. We offer wide range of pharmaceutical products. Our company gets the 20% of its products manufactured from our subsidiary Hetvi Lifescience Private Limited ("Hetvi"), situated in Gujarat, and other major suppliers, such as we get 8.13% products from Ziyal Pharmaceuticals, Gujarat and the rest is manufactured by other third-party manufacturers. Our Top 10 suppliers consist of 62.25% of total supplies of the Company. We rely on third party for manufacturing of our products typically work on third-party manufacturing basis or at times purchase order basis with manufacturer of pharma products, depending upon customer's requirement, any decline in the quality of medicines manufactured or delay in delivery of products by such parties or rise in job work charges may adversely affect our operations.

Further there can be no assurance that such parties shall continuously provide their services or would not cater to demand of competitors. Any withdrawal of services from such manufacturers or supply of services to competitors at better rates may adversely affect our result of operations and future prospects. Further we are also exposed indirectly to the risks these manufacturers faces.

3. *Our Company requires significant amount of working capital for a continued growth. Our inability to meet our working capital requirements may have an adverse effect on our results of operations.*

Our business requires significant working capital, part of which would be met through additional borrowings and/or internal accruals in the future. In many cases, significant amount of working capital are required to finance the procurement of products before payments are received from customers. Our working capital requirements may increase, under certain conditions, where payment terms do not include advance payments or include delayed payments from customers. Additionally, our working capital requirements have increased in recent years due to the general growth of our business and competition from other players. All these factors may result, or have resulted, in increases in our working capital needs. The details of working capital requirements can be referred at page no 48 under the Chapter of Object of the Issue.

4. *We require a number of approvals, licences, registrations and permits in the ordinary course of our business and any failure or delay in obtaining the same in a timely manner may adversely affect our operations.*

We need to apply for renewal of approvals which expire, from time to time, as and when required in the ordinary course of our business Any failure to renew the approvals that may expire, or to apply for the required approvals, licences, registrations or permits, or any suspension or revocation of any of the approvals, licences, registrations and permits that have been or may be issued to us, could result in delaying the operations of our business, which may adversely affect our business, financial condition, results of operations and prospects.

Our Company has misplaced the Professional Tax Enrolment certificate and Professional Tax Registration Certificate and has requested the department to issue duplicate certificates. However, we have not received the same as on the date of filing of this Letter of Offer. Our Company also requires obtaining registration under the Shop and Establishment Act and the same shall be done only after receiving the duplicate certificates of Professional Tax Enrolment Certificate and Professional Tax Registration Certificate.

We cannot assure you that the approvals, licences, registrations and permits issued to us would not be suspended or revoked in the event of non-compliance or alleged non-compliance with any terms or conditions thereof, or pursuant to any regulatory action.

Even though the responsibility of fulfilling the respective government requirements for import of the drugs and / or pharmaceuticals in the respective countries of export lie with the importing customer and not our Company, in the event our counterparts are unable to obtain the required approvals in the concerned countries, delays may arise in our operations, or we may not be able to continue exporting to the respective countries. If any changes in health policy or regulations of the countries of export, it will adversely affect our business with our counterparts in the respective countries which may ultimately affect our financial results.

Furthermore, our failure to comply with existing or increased regulations, or the introduction of changes to existing regulations whether in India or in the countries of export, could adversely affect our business, financial condition, results of operations and prospects. Kindly see "*Government Approvals*" on page number 91 of this Letter of Offer or further details on the required material approvals for the operation of our business

5. ***Our business activities are exposed to fluctuations in the prices of raw materials.***

Our Company is dependent on third party suppliers for procuring the raw materials required for manufacturing of our products. We are exposed to fluctuations in the prices of these raw materials as well as its unavailability, particularly as we typically do not enter into any long-term supply agreements with our suppliers for raw materials. Our top ten suppliers contribute 69%, 65% and 62% of our total purchase for the financial year ended on March 31, 2024, March 31, 2025 and September 30, 2025 respectively.

Our major requirement is met in the spot market. We may be unable to control the factors affecting the price at which we procure the raw materials for products we get manufactured. We also face the risks associated with compensating for or passing on such increase in our cost of trades on account of such fluctuations in prices to our customers. Upward fluctuations in the prices of traded goods may thereby affect our margins and profitability, resulting in a material adverse effect on our business, financial condition, and results of operations. Though we enjoy favourable terms from the suppliers both in prices as well as in supplies, our inability to obtain high quality materials in a timely and cost-effective manner would cause delays in our production/trade cycles and delivery schedules, which may result in the loss of our customers and revenues.

6. ***If we cannot respond adequately to the increased competition we expect to face, we will lose market share and our profits will decline, which will adversely affect our business, results of operations and financial condition.***

Our products face competition from products commercialized or under development in all our product portfolios. We compete with local companies, multi-national corporations. If our competitors gain significant market share at our expense, our business, results of operations and financial condition could be adversely affected.

Many of our competitors may have greater financial, manufacturing, research and development, marketing and other resources, more experience in obtaining regulatory approvals, greater geographic reach, broader product ranges and stronger sales forces. Our competitors may succeed in developing products that are more effective, more popular or cheaper than any we may develop, which may render our products obsolete or uncompetitive and adversely affect our business and financial results. Also, we face pressure on our margins due to pricing competition from several small and unorganized local players. Presence of more players in the unorganized sector compared to organized ones has resulted in increasingly competitive environment characterized by stiff price competition. We also operate in a rapidly consolidating industry. The strength of combined companies could affect our competitive position in all our business areas. Furthermore, if one of our competitors or their customers acquires any of our customers or suppliers, we may lose business from the customer or lose a supplier, which may adversely affect our business, results of operations and financial condition.

7. ***Our Company has availed 3.49 Crore as an unsecured loan as on 30th September, 2025 which is repayable on demand. Any demand from the lenders for repayment of such an unsecured loan may affect our cash flow and financial condition.***

Our Company has, as per the unaudited Financial Statements, as on 30th September, 2025, availed a total sum of ₹ 3.49 Crore as an unsecured loan from the Directors/relatives of our company, which may be recalled at any time. Sudden recall may impact our operations and may force us to opt for funding at unviable terms resulting in a higher financial burden. Further, we will not be able to raise funds at short notice and thus result in a shortage of working capital funds. For details of transactions, please refer to noted of the financial statements disclosed on page number 89 of this Letter of Offer.

8. ***Certain agreements may be inadequately stamped or may not have been registered as a result of which our operations may be adversely affected***

Our Company had entered into a rent agreement to use a premises as Godown, viz. situated at 269/4080, 269/4083, 269/4081, and 269/4082 of Shri Ambica Estate, N.H. 8, Village. Aslali, Ahmedabad, for a period of 5 years with a condition that there will be an increase in rent by 5% in every 11 months and 29 days. The agreement is done on a non-judicial stamp paper of Rs.300/- only and same is notarized by the notary, but the agreement is not registered and accordingly stamp duty levied on registration of agreement is also not paid. Hence, such non-registration of rent agreement and non-payment of stamp duty, accordingly may have serious legal and practical consequences, including the lack of legal validity,

loss of rights and benefits, imposition of penalty, difficulty in obtaining loans, uncertainty and dispute and may affect the business operations of the Company. However it is important to note that other than the above said Godown, the Company have other godown too which are owned by the Company itself. As the Godown owned by the Company are sufficient, the management is planning to vacate the above-mentioned rented godown w.e.f. 01st April, 2026.

9. ***Our Company is dependent on third party transportation for the delivery of products and any disruption in their operations or a decrease in the quality of their services could affect our Company's reputation and results of operations.***

Our Company uses third party transportation for delivery of our products. Though our business has not experienced any disruptions due to transportation strikes in the past, any future transportation strikes may have an adverse effect on our business. These transportation facilities may not be adequate to support our existing and future operations. Further, such goods may be lost or damaged in transit for various reasons including occurrence of accidents or natural disasters. There may also be delay in delivery of products which may also affect our business and results of operation negatively. An increase in the freight costs or unavailability of freight for transportation of our raw materials may have an adverse effect on our business and results of operations. Further, disruptions of transportation services due to weather-related problems, strikes, lockouts, inadequacies in the road infrastructure and port facilities, or other events could impair ability to deliver goods on time. Any such disruptions could materially and adversely affect our business, financial condition, and results of operations.

10. ***Our inability to identify, obtain and retain intellectual property rights, or to protect or use them, could harm our business. Further, we may infringe upon the intellectual property rights of others, any misappropriation of which could adversely affect our business and reputation.***

Our name and trademarks are significant to our business and operations. Accordingly, it is important that we identify, obtain, and retain intellectual property rights. We believe that several of our trade names have significant brand recognition in their respective sectors and are important to identifying and differentiating our business from those of our competitors and creating and sustaining demand for our services. Therefore, we take measures to protect our intellectual property by relying on Indian laws and initiating legal proceedings.

Some of our trademarks are applied for registration and the same is yet to receive registration. Also, some of the applications made by the Company have been opposed by third parties. The application made for registration of our company logo has been "Objected" by the Trademark Authority for want of documents in support of user claim showing continuous use of the logo since the date claimed. For further details with respect to our Company's trademark portfolio, see "Business Overview" and "Government Approvals" on page numbers 57 and 91, respectively. We may not be able to register our trademarks or copyrights or otherwise secure our intellectual property. Our inability to obtain registration for our trademarks could have an adverse effect on our business, results of operations, financial condition, and cash flows.

Further, our efforts to protect, maintain, or enforce our proprietary rights may be ineffective and could result in substantial costs and diversion of resources, which could adversely affect our business, financial condition, cash flows and results of operations. As our current logo is not registered as a trade name or trademark under the provisions of the Trademarks Act, 1999 and therefore may be subject to counterfeiting or imitation which would adversely impact the Company. The use of our brand name or logo by third parties could adversely affect our reputation, which could in turn adversely affect our financial performance and the market price of Equity Shares. We cannot assure you that we will be able to successfully take steps to protect our intellectual property rights that will be adequate to prevent the infringement of such rights by others. Third parties may provide services under ours or a similar brand name or mark which may result in confusion among customers and loss of business for us. Any adverse experience of customers of such third parties or any negative publicity generated in respect of such third parties could negatively affect our business and reputation. Although we attempt to avoid infringing upon known proprietary rights of third parties, we are subject to the risk of claims alleging infringement of third-party proprietary rights. If in response to a third-party infringement allegation, we were to determine that we require a license to such third party's proprietary rights, then we may be unable to obtain such license on commercially reasonable terms. In addition, any claim of infringement could cause us to incur substantial costs defending such a claim, even if the claim is baseless, and could distract our management from our business. A party asserting such an infringement claim could secure a judgment against us that requires us to pay substantial damages, grants such party injunctive relief, or

grants other court ordered remedies that could prevent us from conducting our business. Furthermore, necessary licenses may not be available to us on satisfactory terms, if at all. Any of the foregoing could have an adverse effect on our business, cash flows, results of operations and financial condition.

11. ***Our customers may delay or default in making payments for services rendered by us. If we are unable to collect our receivables from our customers, our profits, cash flows and liquidity could be adversely affected.***

Cash collection trends and trade receivables have an impact on our cash receipts and, consequently, on our cash flows. Trade receivables constitute a significant portion of our total assets and were INR 1689.45 Lakhs as on September 30, 2025 on standalone basis. We typically have credit terms of up to 90 days with our customers, and we cannot guarantee that our customers will not default on their payments, which might adversely affect our profits margins and cash flows. Our business depends on our ability to successfully obtain payment from our customers for services provided in a timely manner. Consequently, we face the risk of uncertainty regarding the receipt of these outstanding amounts.

Macroeconomic conditions could result in financial difficulties, including insolvency or bankruptcy, for our customers, and as a result could cause customers to delay payments to us, request modifications to their payment arrangements that could increase our receivables balance or working capital requirements, or default on their payment obligations to us. An increase in bad debts or defaulting customers may lead to greater usage of our operating working capital and increased interest costs. If we experience an increase in the time to bill and collect for our services, our cash flows could be adversely affected. Successful control of the trade receivables process requires the development of appropriate contracting, invoicing, credit, collection, and financing policies. Our failure to maintain such policies could have an adverse effect on our business, financial condition, and cash flows.

12. ***Availment of Car Loan on behalf of the Directors***

The Company has availed a car loan from the **The Kalupur commercial co-op bank Ltd.** for an amount of INR 22,40,000 for purchase of vehicle Travelling carrying interest @ 8.3% p.a. The loan was availed on 28th November, 2024 and is repayable in 72 monthly instalments of INR 39,602 each starting from 28th November, 2024. However, the car is registered and allotted to one of its Director i.e. Mr. Bhagyesh Kiritbhai Parekh.

The Company has not entered into any agreement with the concerned Director in this regard and has also not taken required approvals from the shareholders of the Company. Owing to compliance, financial, legal and practical issues as above, there might be adverse effect on the business, regulatory and financial aspects of the Company. No show cause notice in respect to the above has been received by our Company till date and no penalty or fine has been imposed by any regulatory authority in respect to the same. It cannot be assured, that no such notice will be received in the future.

13. ***We have not identified any alternate source of raising the funds required for the object of the Issue and the deployment of funds is entirely at our discretion and as per the details mentioned in the section titled "Objects of the Issue".***

Our Company has not identified any alternate source of funding for our object of the Issue and hence any failure or delay on our part to mobilize the required resources or any shortfall in the Issue proceeds can adversely affect our growth plan and profitability. The delay/shortfall in receiving these proceeds could result in inadequacy of funds or may result in borrowing funds on unfavorable terms, both of which scenarios may affect the business operation and financial performance of the company. For further details of Please refer chapter titled "Objects of the Issue" beginning on page number 48 of this Letter of Offer.

14. ***Being a pharmaceutical company, we operate in a highly regulated and controlled industry environment. Our business is dependent on approvals from relevant regulatory and health authorities. Any delay or failure to obtain or renew such required regulatory approvals, registrations, or any change in the regulatory environment in relation to marketing our products in regulated markets may significantly impact our business and strategy affecting our overall profitability.***

Being a pharmaceutical company, we operate in an industry which is highly regulated and controlled. There are stringent and restrictive norms in relation to quality standards. Further, entry barriers in

regulated markets in which we currently operate and seek to expand are very high and have extensive regulations pertaining to research, testing and manufacturing, selling and marketing of pharmaceutical products. In most regulated markets, pharmaceutical products must be registered after being tested for safety, efficacy and environmental impact and the regulations differ from country to country. Our Company has 19 registered trademarks for 42 products. Some of our existing registered products need to be renewed after their expiry. There is no assurance that we will be able to obtain the necessary approvals / renewals for all our products, which could adversely impact our ability to sell some of our products in certain markets. Failure of our Company to adapt itself to such regulatory changes, obtain the necessary approvals / renewals for our products, the business of the Company may be adversely affected.

Further, due to the nature of our business, we expect to be or continue to be subject to extensive and increasingly stringent laws and regulations. Any failure on our part to comply with any existing or future regulations applicable to us may result in legal proceedings being initiated against us, third party claims or the levy of regulatory fines, which may adversely affect our business, results of operations and financial condition. Further amendments to such statutes may impose additional provisions to be followed by our Company and accordingly our Company may need to discontinue any range of product, incur damages, payment of fines or other penalties, other liabilities, and related litigation, which could adversely affect our business, prospects, financial condition and results of operations.

15. *The products that we commercialize may not perform as expected which could adversely affect our business, financial condition, and results of operations.*

Our success depends significantly on our ability to commercialize new pharmaceutical products in India and across various markets around the world. Commercialization requires us to successfully develop, test and obtain the required regulatory approvals for our products, while complying with applicable regulatory and safety standards. In order to develop a commercially viable product, we must demonstrate, through extensive clinical trials that the products are safe and effective for use in humans. Our products currently under development, if and when, fully developed and tested, may not perform as we expect, necessary regulatory approvals may not be obtained in a timely manner, if at all, and we may not be able to successfully and profitably produce and market such products. Furthermore, even if we are successful in developing a new product, that product may become subject to litigation by third parties claiming our products infringe on their patents or may be seized in-transit by regulatory authorities for alleged infringement of intellectual property or may be otherwise unsuccessful in the marketplace due to the introduction of superior products by competitors. Moreover, it may take an extended period for our new products to gain market acceptance, if at all.

16. *The availability of counterfeit drugs, such as drugs passed off by others as our products, could adversely affect our goodwill and results of operations.*

Entities in India and abroad could pass off their own products as ours, including counterfeit or pirated products. For example, certain entities could imitate our brand name, packaging materials or attempt to create look-alike products. As a result, our market share could be reduced due to replacement of demand for our products and adversely affect our goodwill. The proliferation of counterfeit and pirated products, and the time and attention lost to defending claims and complaints about counterfeit products could have an adverse effect on our goodwill and our business, prospects, results of operations and financial condition could suffer.

17. *Our Company had negative cash flow from operating activity in recent fiscals, details of which are given below. Sustained negative cash flow could adversely impact our business, financial condition, and results of operations.*

(₹In Lakhs)

Particulars	September 30, 2025	March 31, 2025	March 31, 2024
Net Cash Flow from Operating Activities	0.07	-1.05	-16.04

18. *We generally do business with our customers on purchase order basis and do not enter into long term contracts with most of them.*

Our business is dependent on our continuing relationships with our customers. Our Company neither has any long-term contract with any of customers. Any change in the buying pattern of our end users or disassociation of major customers can adversely affect the business of our Company. The loss of or

interruption of work by, a significant customer or several significant customers or the inability to procure new orders on a regular basis or at all may have an adverse effect on our revenues, cash flows and operations.

19. *Our Company's failure to maintain the quality standards of the products or keep pace with the technological developments could adversely impact our business, results of operations and financial condition.*

Our products depend on recent inventions and developments as we market the products as per the market trends. Any failure to maintain the quality standards may affect our business. Although we have put in place strict quality control procedures, we cannot assure that our products will always be able to satisfy our customer's quality standards. Any negative publicity regarding our Company, or products, including those arising from any deterioration in quality of our products from our vendors, or any other unforeseen events could adversely affect our reputation, our operations, and our results from operations. Also, rapid change in our customer's expectation on account of changes in technology or introduction of new products or for any other reason and failure on our part to meet their expectation could adversely affect our business, result of operations and financial condition. While we believe that we have always introduced new products based on consumers need to cater to the growing demand of our customers and endeavour regularly update our existing technology, our failure to anticipate or to respond adequately to changing technical, market demands and/or client requirements could adversely affect our business and financial results.

20. *We are subject to risks associated with expansion into New Markets*

Expansion into new markets, including in India, subjects us to various challenges, including those relating to our lack of familiarity with the culture, legal regulations and economic conditions of these new regions, language barriers, difficulties in staffing and managing such operations, and the lack of brand recognition and reputation in such regions. The risks involved in entering new geographic markets and expanding operations, may Be higher than expected, and we may face significant competition in such markets.

By expanding into new markets, we could be subject to additional risks associated with establishing and conducting operations, including compliance with a wide range of laws, regulations, and practices, including uncertainties associated with changes in:

- a. laws, regulations and practices and their interpretation; local preferences and service requirements;
- b. fluctuations in foreign currency exchange rates;
- c. inability to effectively enforce contractual or legal rights and adverse tax consequences;
- d. differing accounting standards and interpretations;
- e. stringent as well as differing labour and other regulations;
- f. differing domestic and foreign customs, tariffs and taxes;
- g. exposure to expropriation or other government actions; and
- h. political, economic, and social instability

Our Company shall credit the Rights Entitlements to the Demat Suspense Account on the basis of information available with our Company and to serve the interest of relevant Eligible Equity Shareholders to provide them with a reasonable opportunity to participate in the Issue. The credit of the Rights Entitlements to the Demat Suspense Account by our Company does not create any right in favour of the relevant Eligible Equity Shareholders for transfer of Rights Entitlement to their demat account or to receive any Equity Shares in the Issue.

With respect to the Rights Entitlements credited to the Demat Suspense Account, the Eligible Equity Shareholders are required to provide relevant details / documents as acceptable to our Company or the Registrar (such as applicable regulatory approvals, self-attested PAN and client master sheet of demat account, details/ records confirming the legal and beneficial ownership of their respective Equity Shares, etc.) to our Company or the Registrar no later than two clear Working Days prior to the Issue Closing Date to enable credit of their Rights Entitlements by way of transfer from the Demat Suspense Account to their demat account at least one day before the Issue Closing Date, to enable such Eligible Equity Shareholders to make an application in this Issue, and this communication shall serve as an intimation to such Eligible Equity Shareholders in this regard. In the event that the Eligible Equity Shareholders are not able to provide relevant details to our Company or the Registrar by the end of two clear Working Days prior to the Issue Closing Date, Rights Entitlements credited to the Demat Suspense Account shall lapse and extinguish in due course and such Eligible Equity Shareholder shall not have any claim against our Company and our Company shall not be liable to any such Eligible Equity Shareholder in any form or manner and such lapsing of Rights Entitlement may dilute and adverse impact the interest of certain Eligible Equity Shareholders. For details, please see "**Terms of the Issue**" on page 96.

5. If our Company does not receive the minimum subscription of 90% of the total Issue Size, the Issue may fail

In the event our Company does not receive the minimum subscription of 90% of the total Issue Size or the subscription level falls below 90% of the total Issue Size after the Issue Closing Date on account of

withdrawal of Applications or technical rejections or any other reason, our Company shall refund the entire subscription amount received not later than four days from the closure of the Rights Issue or any other period may be prescribed under applicable law. In the event there is a delay in making a refund of the subscription monies, our Company shall be required to pay interest for the delayed period at such a rate prescribed under applicable law. However, the risk factor is associated pertaining to rights issue is to achieve the minimum subscription by the Company from its shareholders as the allotment of shares are only in dematerialisation form by the Company and physical shares required to be converted in dematerialised form for right entitlement.

6. Failure to exercise or sell the Rights Entitlements will cause the Rights Entitlements to lapse without compensation and result in a dilution of shareholding.

Rights Entitlements that are not exercised prior to the end of the Issue Closing Date will expire and become null and void, and Eligible Equity Shareholders will not receive any consideration for them. The proportionate ownership and voting interest in our Company of Eligible Equity Shareholders who fail (or are not able) to exercise their Rights Entitlements will be diluted. Even if you elect to sell your unexercised Rights Entitlements, the consideration you receive for them may not be sufficient to fully compensate you for the dilution of your percentage ownership of the equity share capital of our Company that may be caused as a result of the Issue. Renounees may not be able to apply in case of failure of completion of renunciation through off-market transfer in such a manner that the Rights Entitlements are credited to the demat account of the Renounees prior to the Issue Closing Date. Further in case, the Rights Entitlements do not get credited in time, in case of On Market Renunciation, such Renounee will not be able to apply in this Issue with respect to such Rights Entitlements. For details, see "*Terms of the Issue*" on page 96.

7. Our Company will not distribute the Letter of Offer and other Issue related materials to overseas shareholders who have not provided an address in India for service of documents.

We will not distribute the Issue Material to the shareholders who have not provided an address in India for service of documents. The Issue Material will not be distributed to addresses outside India on account of restrictions that apply to circulation of such materials in various overseas jurisdictions. In the case that Eligible Equity Shareholders have provided their valid e-mail address, the Letter of Offer will be sent only to their valid e-mail address and in the case that such Eligible Equity Shareholders have not provided their e-mail address, then the Letter of Offer will be dispatched, on a reasonable effort basis, to the Indian addresses provided by them.

However, the Companies Act, 2013 requires companies to serve documents at any address which may be provided by the members as well as through e-mail. Presently, there is lack of clarity under the Companies Act, 2013 and the rules thereunder with respect to distribution of Issue Material in overseas jurisdictions where such distribution may be prohibited under the applicable laws of such jurisdiction. While our Company will request its shareholders to provide an address in India for the purposes of distribution of Issue Material, our Company cannot assure that the regulator would not adopt a different view with respect to compliance with the Companies Act, 2013 and may subject our Company to fines or penalties.

8. Investors will be subject to market risks until our Equity Shares credited to the investor's demat account are listed and permitted to trade.

Investors can start trading the Rights Equity Shares Allotted to them only after they have been credited to an investor's demat account, are listed and permitted to trade. Since our Equity Shares are currently traded on the NSE EMERGE, investors will be subject to market risk from the date they pay for the Rights Equity Shares to the date when trading approval is granted for the same. Further, there can be no assurance that the Rights Equity Shares allocated to an investor will be credited to the investor's demat account or that trading in such Equity Shares will commence in a timely manner. We could be harmed by employee misconduct or errors that are difficult to detect and any such incidences could adversely affect our financial condition, results of operations and reputation.

Employee misconduct or errors could expose us to business risks or losses, including regulatory sanctions and serious harm to our reputation. There can be no assurance that we will be able to detect or deter such misconduct.

Moreover, the precautions we take to prevent and detect such activity may not be effective in all cases. Our employees and agents may also commit errors that could subject us to claims and proceedings for

alleged negligence, as well as regulatory actions on account of which our business, financial condition, results of operations and goodwill could be adversely affected.

9. Applicants to this Issue are not allowed to withdraw their Applications after the Issue Closing Date.

In terms of the SEBI ICDR Regulations, Applicants in this Issue are not allowed to withdraw their Applications after the Issue Closing Date. The Allotment in this Issue and the credit of such Rights Equity Shares to the Applicant's demat account with its depository participant shall be completed within such period as prescribed under the applicable laws. There is no assurance, however, that material adverse changes in the international or national monetary, financial, political or economic conditions or other events in the nature of force majeure, material adverse changes in our business, results of operations or financial condition, or other events affecting the Applicant's decision to invest in the Rights Equity Shares, would not arise between the Issue Closing Date and the date of Allotment in this Issue. Occurrence of any such events after the Issue Closing Date could also impact the market price of our Equity Shares. The Applicants shall not have the right to withdraw their applications in the event of any such occurrence. We cannot assure you that the market price of our Equity Shares will not decline below the Issue Price. To the extent the market price for our Equity Shares declines below the Issue Price after the Issue Closing Date, the shareholder will be required to purchase Rights Equity Shares at a price that will be higher than the actual market price for the Equity Shares at that time. Should that occur, the shareholder will suffer an immediate unrealized loss as a result. We may complete the Allotment even if such events may limit the Applicants' ability to sell our Equity Shares after this Issue or cause the trading price of our Equity Shares to decline.

10. The Rights Equity Shares may experience price and volume fluctuations

The market price of the Rights Equity Shares can be volatile as a result of several factors beyond our control, including volatility in the Indian and global securities markets, our results of operations, the performance of our competitors, developments in the Indian finance and lending sector, changing perceptions in the market about investments in this sector in India, investor perceptions of our future performance, adverse media reports about us or our sector, changes in the estimates of our performance or recommendations by financial analysts, significant developments in India's economic liberalization and deregulation policies, and significant developments in India's fiscal regulations. In addition, the stock exchange may experience significant price and volume fluctuations, which may have a material adverse effect on the market price of the Rights Equity Shares.

General or industry specific market conditions or stock performance or domestic or international macroeconomic and geopolitical factors unrelated to our performance also affect the price of the Rights Equity Shares. In particular, the stock market as a whole recently experienced extreme price and volume fluctuations that have affected the market price of many companies in ways that may have been unrelated to the companies' operating performances. For these reasons, investors should not rely on recent trends to predict future share prices, results of operations or cash flow and financial condition.

11. You will not be able to sell immediately on Indian Stock Exchanges any of the Equity Shares you subscribe in the Issue until the Issue receives appropriate trading permissions.

The Equity Shares will be listed on the Stock Exchange. Pursuant to Indian regulations, certain actions must be completed before the Equity Shares can be listed and trading on stock exchange. We cannot assure you that the Equity Shares will be credited to investor's demat accounts, or that trading in the Equity Shares will commence, within the time periods specified in this Letter of Offer. Any failure or delay in obtaining the approval would restrict your ability to dispose of the Equity Shares. In accordance with Section 40 of the Companies Act, 2013 if the permission of listing the Equity Shares is denied by the stock exchanges, we are required to refund all monies collected to investors.

12. We are subject to risks arising from interest rate fluctuations, which could adversely impact our business, financial condition and operating results.

Changes in interest rates could significantly affect our financial condition and results of operations. If the interest rates for future borrowings increase significantly, our cost of servicing such debt will increase. This may negatively impact our results of operations, planned capital expenditures and cash flows.

13. Foreign investors are subject to foreign investment restrictions under Indian law that limit our Company's ability to attract foreign investors, which may adversely affect the market price of the Equity Shares.

Under the foreign exchange regulations currently in force in India, transfers of shares between nonresidents and residents and issuances of shares to non-residents are freely permitted (subject to certain exceptions) if they comply with the requirements specified by the RBI. If such issuances or transfers of shares are not in compliance with such requirements or fall under any of the specified exceptions, then prior approval of the RBI will be required. We have undertaken or recorded such transactions in the past based on a bona fide interpretation of the law. We cannot assure you that our interpretation would be upheld by the Indian regulators. Any change in such interpretation could impact the ability of our Company to attract foreign investors.

In addition, shareholders who seek to convert the Indian Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no-objection or tax clearance certificate from the income tax authority. Additionally, the Government of India may impose foreign exchange restrictions in certain emergency situations, including situations where there are sudden fluctuations in interest rates or exchange rates, where the Government of India experiences extreme difficulty in stabilizing the balance of payments, or where there are substantial disturbances in the financial and capital markets in India. These restrictions may require foreign investors to obtain the Government of India's approval before acquiring Indian securities or repatriating the interest or dividends from those securities or the proceeds from the sale of those securities. We cannot assure you that any approval required from the RBI or any other government agency can be obtained on any particular terms, or at all.

14. You may be subject to Indian taxes arising out of capital gains on the sale of the Rights Equity Shares.

Under the current Indian Income Tax provisions, all transactions of purchase and sales of securities on Indian stock exchange are subject to levy of securities transaction tax (STT) which will be collected by respective stock exchange on which the securities are transacted. Accordingly, the Indian Income Tax Act has special capital gains tax provisions for all transactions of purchase and sale of equity shares carried out on the Indian Stock Exchange. Under the current Indian Income Tax provisions, unless specifically exempted, capital gains arising from the sale of equity shares in an Indian company are generally taxable in India.

Further, with the Introduction of the Goods and Services Act, tax rates and its implication may have material impact on our products. Any changes in these tax rates/slabs could adversely affect our financial condition and results of operations.

16. Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.

Under the foreign exchange regulations currently in force in India, transfer of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

Assumption on working capital requirement

We have estimated our working capital requirement based on the following holding periods (Days):

Particulars	FY 2023 Audited	FY 2024 Audited	FY 2025 Audited	FY 2026 Estimated	FY 2027 Projected	FY 2028 Projected

Trade Receivable Period	161	186	209	50	42	38
Trade Payable Period	173	58	168	159	49	50

Justification for holding period levels

Particular	Assumption made and Justification
Inventory Holding Period	Inventories are maintained at levels sufficient to ensure uninterrupted supply and support expansion into new markets. The inventory holding period is expected to stabilize with improved demand planning.
Trade Receivable Holding Period	Higher receivable days reflect credit support extended to distributors and channel partners, particularly during expansion into new territories. The receivable cycle is expected to improve as the customer base matures. The Company is gradually stabilizing business in the new States/ territories where it is selling its products after building trust, it is expected that the repeat orders from customers would flow and the realization period will also reduce.
Trade Payables Holding Period	In relation to Trade Payables, the Company has started expansion of business from Financial Year 2022-23 and owing to the same, the working capital shortage was always there as the Company was entering new territories and the payment cycle was always delayed. Based on the proceeds of the proposed right issue, the company intends to clear the Trade Payables and bring down the payment cycle to around 60 days.

The DCA also provides the procedure for testing and licensing of new drugs. The DCA also prohibits the import of certain categories of drugs and cosmetics. It further mandates that every person holding a license must keep and maintain such records, registers and other documents as may be prescribed which may be subject to inspection by the relevant authorities. Under the DCA, the Government may, by notification in the official gazette, regulate or prohibit the manufacture, sale or distribution of a drug, if it is satisfied that in the public interest, it is necessary or expedient to do so or that the use of such drug is likely to involve any risk to human beings or animals or that it does not have the therapeutic value claimed or purported to be claimed for it or contains ingredients and in such quantity for which there is no therapeutic justification. Penalties in terms of fine and imprisonment are prescribed under the DCA for contravention of its provisions.

Good Manufacturing Practice Guidelines (GMP)

These guidelines are provided under Schedule T of Drug and Cosmetic Act, 1940. Good manufacturing practices (GMP) are the practices required in order to confirm the guidelines recommended by

agencies that control authorization and licensing for manufacture and sale of food, drug products, and active pharmaceutical products. These guidelines provide minimum requirements that a pharmaceutical or a food product manufacturer must meet to assure that the products are of high quality and do not pose any risk to the consumer or public. Good manufacturing practices, along with good laboratory practices and good clinical practices, are overseen by regulatory agencies in various sectors in India.

The Drugs and Cosmetics Rules, 1945

The Drugs and Cosmetics Rules, 1945 (the DCA Rules) have been enacted to give effect to the provisions of the DCA Act to regulate the manufacture, distribution and sale of drugs and cosmetics in India. The DCA Rules prescribe the procedure for submission of report to the Central Drugs Laboratory, of samples of drugs for analysis or test, the forms of Central Drugs Laboratory's reports thereon and the fees payable in respect of such reports. National Pharmaceutical Pricing Policy 2012

In December 2012, the Government issued the National Pharmaceutical Pricing Policy, 2012 (–NPPP 2012||) has replaced the Drug Policy of 1994. The objective of the NPPP 2012 is to put in place a regulatory framework for pricing of drugs so as to ensure availability of essential medicines at reasonable prices while providing sufficient opportunity for innovation and competition to support the growth of industry. The regulation of prices of drugs under the NPPP 2012 is on the basis of regulating the prices of formulations and is different from the earlier principle of regulating the prices of specified bulk drugs and their formulations under the Drug Policy 1994. The National Pharmaceuticals Pricing Authority (–NPPA||) will be the implementation authority for the NPPP 2012. The NPPP 2012 provides for certain principles for drug price control and determination, which, inter-alia, include the following:

- a. Price regulation is on the basis of essentiality of the drug as laid down in the National List of Essential
- b. Medicines – 2015 (–NLEM 2015||), declared by the Ministry of Health and Family Welfare, in public interest;
- c. Price regulation is applied only to formulations;
- d. The Span of Price Control is as per the dosages and strengths as listed in NLEM 2011;
- e. The methodology of fixing a ceiling price of essential medicines, is done by adopting the simple average price of all the brands having market share (on the basis of moving annual turnover) more than and equal to one percent of the total market turnover of that medicine.
- f. The formulations are to be priced only by fixing a ceiling price. Manufacturers would be free to fix any price for their products equal to or below the ceiling price. The ceiling price would be fixed on the dosage basis, such as per tablet, capsule, standard injection volume, as listed in NLEM 2011;
- g. The ceiling price will be fixed on the basis of readily monitorable market based data which would be available with IMS Health (IMS). Since the IMS data gives price figures for stockist level prices, in order to arrive at ceiling price (being the maximum retail price), the price derived from IMS data would be further increased by 16% as margin to the retailer so as to arrive at a reasonable ceiling price chargeable from the consumers. For drugs not in the IMS data, NPPA would collect data by commissioning the same.
- h. The prices of such essential medicines will be allowed an annual increase as per the 'Wholesale Price Index' as notified by the Department of Industrial Policy & Promotion;
- i. The prices of non-essential drugs are to be monitored by the Government on a regular basis and where the price of such drugs increases at a rate of above 10% per annum, the Government is empowered to have the price of these drugs reduced below the limit, for the next 12 months;

- j. The ceiling prices determined for drugs under the NPPP 2012 are also be applicable to imported drugs. The NPPP 2012 further, in order to promote innovation and R&D, provides for certain exemptions, to which price control does not apply, such as:
 - a. A product or process patented under the Indian Patent Act, 1970, if developed through indigenous R&D, is eligible for exemption from price control for a period of five years from the date of commencement of its commercial production; and
 - b. A formulation involving a new delivery system developed through indigenous R&D is also eligible for exemption from price control for a period of 5 (five) years from the date of its market approval in India.
 - c. The certification of innovation and R&D may be provided by the office of DCGI.

The National List of Essential Medicines, 2015 (“NLEM”)

The National List of Essential Medicines, 2015 has been introduced to replace the National List of Essential Medicines, 2011. Essential medicines are those that satisfy the priority healthcare needs of majority of the population. The medicines mentioned under the list should be available at affordable cost and with assured quality. The Government of India, Ministry of Health & Family Welfare (MOHFW) is mandated to ensure the quality healthcare system by assuring availability of safe and efficacious medicines for its population. The primary purpose of NLEM is to promote rational use of medicines considering the three important aspects i.e. cost, safety and efficacy. Furthermore, it promotes prescription by generic names. Healthcare delivery institutions, health insurance bodies, standards setting institutions for medicines, medicine price control bodies, health economists and other healthcare stakeholders will be immensely benefitted in framing their policies. The first NLEM was prepared in the year 1996 and was subsequently revised in 2003. The lists of medicines are divided into 29 sections therapeutic area wise. This new list has added a total number of 160 medicines and has deleted 70 medicines, which now contains a total of 376 medicines. The essentiality of a medicine has been considered in terms of its dosage form and strength.

The use of additives is required to be made in accordance with the principles of Good Manufacturing Practice (“GMP”) which includes limiting the quantity of the food additive to a level which is necessary to accomplish the desired effect whilst ensuring that the additive is of appropriate food grade quality and handled in the same way as the food ingredient. The Regulations provides for specifications regarding the use of various anti-caking agents, bulking agents, emulsifying agents and stabilizing agents, among other substances.

The DPCO, inter alia, provides the list of price controlled drugs, procedures for fixing the prices of drugs, method of implementation of prices fixed by Government and penalties for contravention of provisions and formulations which fall within the purview of the legislation. The DPCO provides for the formulae for calculation of ceiling prices and retail prices of drug formulation and there are penal provisions for violation of any rules and regulations under the ECA. As per section 7 of the ECA, the penalty for contravention of the DPCO is minimum imprisonment of 3 (three) months, which may extend to seven years and the violator is also liable to pay a fine. The DPCO provides that the Government may, in extraordinary circumstances, if it considers necessary to do so in the light of public interest, fix the ceiling price or retail price of any drug for such period as it may consider fit, and where the ceiling price or retail price is already fixed and notified, it may allow an increase or decrease in the ceiling price or the retail price as the case may be, irrespective of the annual wholesale price index for that year. The Environment Protection Act authorizes the central government to protect and improve environmental quality, control and reduce pollution from all sources, and prohibit or restrict the setting and /or operation of any industrial facility on environmental grounds. The Act prohibits persons carrying on business, operation or process from discharging or emitting any environmental pollutant in excess of such standards as may be prescribed. Where the discharge of any environmental pollutant in excess of the prescribed standards occurs or is apprehended to occur due to any accident or other unforeseen act, the person responsible for such discharge and the person in charge of the place at which such discharge occurs or is apprehended to occur is bound to (a) prevent or mitigate the environmental pollution caused as a result of such discharge and should intimate the fact of such occurrence or apprehension of such occurrence; and (b) be bound, if called upon, to render all assistance, to such authorities or agencies as may be prescribed.

The Public Liability Insurance Act, 1991

This Act imposes liability on the owner or controller of hazardous substances for any damage arising out of an accident involving such hazardous substances. A list of hazardous substances covered by the legislation has been enumerated by the Government by way of a notification. The owner or handler is also required to take out an insurance policy insuring against liability under the legislation. The rules made under the Public Liability Act mandate that the employer has to contribute towards the environment relief fund, a sum equal to the premium paid on the insurance policies. The amount is payable to the insurer.

National Environmental Policy, 2006

This Policy seeks to extend the coverage, and fill in gaps that still exist, in light of present knowledge and accumulated experience. This policy was prepared through an intensive process of consultation within the Government and inputs from experts. It does not displace, but builds on the earlier policies. It is a statement of India's commitment to making a positive contribution to international efforts. This is a response to our national commitment to a clean environment, mandated in the Constitution in Articles 48 A and 51 A (g), strengthened by judicial interpretation of Article 21. The dominant theme of this policy is that while conservation of environmental resources is necessary to secure livelihoods and well-being of all, the most secure basis for conservation is to ensure that people dependent on particular resources obtain better livelihoods from the fact of conservation, than from degradation of the resource. Following are the objectives of the National Environmental Policy:

- a. Conservation of Critical Environmental Resources
- b. Intra-generational Equity: Livelihood Security for the Poor
- c. Inter-generational Equity
- d. Integration of Environmental Concerns in Economic and Social Development
- e. Efficiency in Environmental Resource Use
- f. Environmental Governance
- g. Enhancement of resources for Environmental Conservation

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991, of the Government of India and FEMA. While the Industrial Policy, 1991, of the Government of India, prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, 1991, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The RBI and the concerned ministries/ departments are responsible for granting approval for foreign investment.

The Government has, from time to time, made policy pronouncements on FDI through press notes and press releases. The FDI Policy consolidated and superseded all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Policy will be valid until the DPIIT issues an updated circular.

The Government has from time to time made policy pronouncements on FDI through press notes and press releases which are notified by RBI as amendments to FEMA. In case of any conflict, the relevant notification under Foreign Exchange Management (Non-Debt Instruments) Rules, 2019 will prevail. The payment of inward remittance and reporting requirements are stipulated under the Foreign Exchange Management (Mode of Payment and Reporting of Non-Debt Instruments) Regulations, 2019 issued by RBI.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of RBI, provided that

(i) the activities of the investee company falls under the automatic route as provided in the FDI Policy and FEMA and transfer does not attract the provisions of the SEBI Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by SEBI and RBI.
